

# CAM. MORRISON IS TO SPEAK

### Well Known Democratic Orator Will be Introduced by Senator F. M. Simmons

New Bern, Sept. 21.—Work on the re-drying plant being erected here by the New Bern Tobacco Re-Drying Co. is progressing rapidly and the contractors who have in charge the construction of the building, hope to have it completed very shortly.

Visitors coming to New Bern from Beaufort and Morehead City declare that the contractors who have in charge the work of erecting the big breaker at the Harbor of Refuge, Cape Lookout, have broken all previous records during the past four months and, in consequence, the giant wall of rock has reared itself far above the surface of the water at many points.

Early in the Spring the contractors gave orders to their men to rush the work as much as possible during the warm weather in order that operations could be slowed down, if necessary during the colder days. This was done and great progress made.

Senator F. M. Simmons, chairman of the Finance Committee of the United States Senate, will introduce Hon. Cameron Morrison, who is to make an address before the Democrats of New Bern and Craven county at the Court House in this city tonight and this talk by the Senator is expected to be one of the features of the evening.

New Bern Democrats have for weeks been awaiting the coming of Mr. Morrison. The event has been advertised far and near and it is believed that in addition to the hundreds of local party members who will be on hand, there will also be a large number from out of the city.

Mr. Morrison's address will be along Democratic lines. He will tell of the great work that the party has done during the past four years and will urge the Democrats here to cooperate and to make victory in the November election assured.

It is more than probable that Mr. Morrison will return to Wilmington during October and address the Democrats of this community. He promised Secretary C. C. Cashwell, of the County Democratic Executive Committee, this morning that he would return here for an address in October.

Mr. Cashwell had written Chairman Warren, of the State Democratic Committee, asking that Mr. Morrison be sent here, but was told that the program had been arranged and could not be changed, but Mr. Morrison's promise to return was gladly received and what he will have to say will add that much strength to Democracy in this section.

### CHASE FOR PENNANT NEARING THE END

Chicago, Ill., Sept. 21.—Boston today maintains the lead in the American league by one and one half games. Chicago has moved to second place being one half a game ahead of Detroit. Boston and Detroit meet again today and Chicago plays Philadelphia.

In the National league Brooklyn is one half game worse off today on account of the double victory Philadelphia won over Pittsburgh yesterday, and has a lead of only one and one half games over Philadelphia. Boston by losing yesterday is today three and one half games behind Brooklyn.

He's getting old. What makes you think so? He's begun to insist that a man is only as old as he feels.—Exchange.

I married Jack to reform him. Of what? Of telling other girls that he loved them.—Exchange.

## Developing of Ideas In Advertising

A business without ideas is like a wheel with the brakes on tight—cannot progress. Nothing can be stated without ideas—the better the ideas the better the statements and more potent the advertising.

In your advertising we study, absorb and think out ideas for you. We plan, and concentrate in order to give your printed message force.

To present this printed message attractively arranged and displayed is always an important factor with us we have in mind when the press struts RESULTS.

Ordinarily Mr. In-Experience Advertiser in introducing a pencil—we take pencil merely as an example. The chances are that in writing his advertising covering this pencil he would simply state that it was a pencil, indicate his name and in all probability his business address.

We would take this pencil and dress it up a little—apply ideas, for to us it is more than simply a pencil, rubber tipped, etc., etc.

We take the pencil as an example merely for arguments sake and the same can be applied to most any article.

We try and answer through advertisements prepared in this office all questions that might be created in the readers mind pertaining to the article advertised.

Let us talk over the advertising question with you. We are ready to co-operate.

Confer.
