

OCTOBER FIRST IS MOVING DAY

Numerous Buildings Are Now Placarded With "For Rent" Signs

The first of October is "moving day" in Wilmington as in Norfolk, Va., and Savannah, Ga., and other cities, and while opinion varies among those in position to know the consensus of opinion is that a number of people will seek new quarters at the expiration of the present month. This not only applies to apartments and residences but to various firms in the city of course many will re-sign leases and remain in their present quarters, but there has always been a tendency on the part of tenants to seek new quarters at the expiration of their leases. A great many people would hardly remain their year unless held by their signed agreement.

Rent notices in display windows of various store houses in the city are not unusual sights. Various residences and apartments are placarded in the same manner which would indicate that there will be a great many people who will not resign with their present landlords but will seek other apartments.

Opinion varies among the best informed men in town as to what the annual shake-up this year will amount to among renters. Some advance the opinion that there will be little moving while others assert that many will seek new quarters. One gentleman who is in position to know, said yesterday afternoon there would be little moving. He stated that a lot of new property had been rented but added that there seemed to be a tendency this year on the part of tenants to remain in their present quarters. The numerous cards reading "for rent" that are posted on various apartments and placed in store windows would, however, leave the impression that Wilmington's annual shake-up this season will correspond to those of former years.

How does your wife like the new neighborhood? Not very well as yet. You know she's not well enough acquainted with the other married women in the block to talk about them.—Exchange.

PLANNING FOR ELECTRICAL WEEK

Nation-Wide Celebration to be Observed Appropriately Here in December

America's Electrical Week, which is to be a country-wide movement to demonstrate in striking ways the progress of the country during the past five years, will be observed in Wilmington December 2-9, and already Mr. Raymond Hunt, assistant general manager of the Tidewater Power Company, who is chairman of the local committee, is arranging to call a meeting of a city committee to make arrangements for the spectacular demonstrations that will be given electrically during the week of celebration.

Backing the National movement are the heads of the General Electric Company, the Western Electric Company and the Westinghouse Electric Company and it will be directed by the Society of Electric Development, the leading electrical organization of America. It is planned to demonstrate the electrical development in both peace and war times during the past few days.

Locally the movement is to be backed by the Chamber of Commerce and other commercial organizations of the city and it will have their active cooperation. It has been suggested that shows be held which will exhibit the various uses to which electricity can be used in the home, on the farm, in the factory and in the store. Strong effort will be made to get the downtown merchants to decorate their places of business electrically for the week.

Far (city) appropriate for the occasion will be the new system of street lighting that Wilmington will be enjoying at that time.

MISS MAY BUCK DEAD.

Died at Ridgcrest—interment to be at Black Mountain.

The death of Miss May Buck, daughter of Mr. J. W. Buck, of this city, which occurred near last midnight at Ridgcrest will grieve a great many for Miss Buck was liked by numerous friends, in Wilmington. She deceased was 19 years old. Her father and other members of the family were with her when the end came. The funeral and interment will be at Black Mountain.

BRIDGE ADVOCATES ARE YET HOPEFUL

Revised Plans For Bridge at Market Street to be Drawn Up Immediately

New and revised plans for a bridge across the Cape Fear at Market street will be drawn up within a few days and when they are completed the government engineers will be asked to endorse them. Advocates of such a bridge have not lost hope, despite the fact that the government engineers have set their stamp of disapproval on such an undertaking and they are still hopeful that such a bridge will be built. They feel that such a bridge is necessary for the future growth and prosperity of the city and surrounding country, especially Brunswick county.

The new plans will probably call for a bridge with a wider draw and a higher elevation. The building of such a bridge is considered practical by many of the leading men of the city. However, there are a few who think that it could be placed higher up or further down the river and still serve all purposes.

Mr. W. D. MacMillan, Jr., chairman of the special bridge committee of the Chamber of Commerce, is strong in the belief that a ferry at that point would never prove satisfactory, as it is necessary to provide a ready means of access to the west side of the river if that side is to be built up. He added that the center of business would still be on the east side as it is today, regardless of what might develop across the Cape Fear. Mr. MacMillan, as a member of the Board of County Commissioners, was largely responsible for presenting the plans for such a bridge to the government engineers. Chairman W. A. McGirt, of the Board of County Commissioners, has announced his intention of urging that immediate steps be taken toward securing better service across the river. He is convinced that a bridge at present is impractical and declares that a ferry is the only solution of the question for the time being.

While New Hanover residents are discussing the bridge question the Brunswick Board of Commissioners are standing pat on the proposition agreed to several years ago—that New Hanover was to build the bridge across the Cape Fear while Brunswick constructed a similar one across the Brunswick river. Brunswick has voted bonds for such a purpose and the commissioners seem determined to stick to that agreement. The New Hanover Commissioners do not recognize anything binding in the agreement with Brunswick, declaring that the agreement was made by the Chamber of Commerce and that it was not official.

All are agreed that better facilities must be obtained for crossing the river and plans are going forward to obtain such, but it is hard to foresee the results. The new plans will call for a more expensive bridge, but it is believed that the approval of the government engineers can be obtained if the draw is wider and the elevation higher.

INTEREST IS HIGH.

Canvass of Wilmington Being Made in Interest of Brunswick Fair.

The Brunswick county fair, to be held at Bolivia, November 3 and 4, will be a big event, according to Mr. Jackson Johnson, of Winnabow, recently elected president of the fair association and Mr. B. T. Melvin, of Supply, farm demonstrator for that county, both of whom are in Wilmington in the interest of the approaching event. Preceding the county fair each township will hold a community fair.

Messrs. Johnson and Melvin are meeting with the most gratifying encouragement from the business men of the city. Their canvass of the town, which began yesterday, is still in progress. They are being assured that the people of Wilmington are keenly interested in the Brunswick fair and that all assistance possible will be given the venture.

A prize list is to be arranged and will be published shortly for general distribution. It is proposed to bring together a big display of truck and agricultural products. The exhibits of the community fair will be shown at the county fair and it is probable that many of the exhibits will be brought to the Corn Show to be held in Wilmington November 7-10. The fair is to be held at Bolivia because it is a central point and easily accessible.

ORGANIZE DRILL TEAM.

Uniform Rank of Knights of Wilmington Created by Pythians. With an initial membership of 35 the Uniform Rank of Knights of Wilmington was organized by Knights of Pythias of the three lodges in the city at an enthusiastic meeting held in the Pythian building last night. Arrangements are now being made to secure regulation military uniforms and as soon as these arrive the company will be whipped into shape and it is the intention of the members to have one of the best drilled teams in the State.

Following are the permanent officers elected at the meeting: Captain, Mr. B. Wilson; first lieutenant, Mr. S. F. Garrison; second lieutenant, Mr. Fred W. Little; recorder, Mr. R. D. Christman; treasurer, Mr. W. P. McLaughon, guard, Mr. G. V. Moore; sentinel, Mr. W. D. Jones.

WILMINGTON IS IN SIXTH PLACE

Charlotte Houses More Automobiles Than Any City in North Carolina

There are only five cities in the State that house more automobiles than Wilmington, according to official lists of North Carolina automobiles recently published.

Charlotte tops the list, leading all others by a comfortable margin; however, there are more machines in Guilford than in Mecklenburg county. While Greensboro is next to Charlotte in the standing the margin separating them is a healthy one, but the quota supplied by High Point and other outlying Guilford county towns give Guilford a handsome margin over Mecklenburg in the ensemble for counties.

Winston-Salem occupies third place and Asheville stands fourth. Raleigh has a few more than Wilmington, while the latter leads Durham by about the same margin.

Winston-Salem leads all cities in the number of high-priced cars and although she has far fewer cars than Charlotte the capital invested is about the same.

As opposed to the hundreds of machines in the more prosperous counties of the State the list shows an almost unbelievable paucity in other sections. Especially is this true in the mountain counties with their poor roads. Yancy and Mitchell counties are tied for the booby prize with three cars each. Clay county has five and all are of a popular make. While there are hundreds of high-priced cars within the State's borders the cheaper ones predominate to a marked extent.

There are 1,142 cars listed in Charlotte township, according to the official list, and the city tax books show 900 in the city proper. Wilmington, in sixth place, has 586, and Durham houses 572. Barring High Point, Durham's figures are the smallest published.

INTEREST RUNNING HIGH.

Judge Bornemann is Going After the Booby Prize Contest.

The voting contest that is being conducted by the Loyal Boys' Club to determine who is the most popular youth in the city, the two most popular girls, the two prettiest babies and the two ugliest men is creating much interest and the voting is becoming lively. The contest of the contest go to the Children's Play Ground fund. The contest will close on Wednesday of next week at the Great American Show grounds. Circulars showing the standings of the various contestants, issued each afternoon, are being watched with keen interest.

Perhaps no contestant is more interested than Judge Bornemann. Although entered for the booby prize the judge is determined to walk away with the diamond ring that is to go to the ugliest man in the city. He has even gone so far as to try the ring on his finger. Judge Bornemann says that some of his enemies entered his name without his knowledge but adds that since he is in the race he means to let the other contestants hear from him.

GOVERNOR GLENN COMING.

Pass Through Wilmington En Route to Shallotte—Speaks There Soon.

Former Governor Robert B. Glenn will pass through Wilmington next week and will in all probability spend a few hours in this city. Mr. Glenn is scheduled to speak at Shallotte in the interest of Democracy on Wednesday.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is Sign You Have Been Eating Too Much Meat.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels of get get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

day of next week. He will be accompanied by Senator W. B. Cooper, of this city, for many years a close friend of the former Governor. Governor Glenn is scheduled to make a number of addresses in this section during the present campaign and because New Hanover and Brunswick have always entertained the highest regard for the Governor, immense crowds are expected to hear him on every occasion.
