

GERMAN U-BOAT IS NOW UNDER COVER

Nothing More Heard From Daring Submarine, Which Sunk Many Ships.

MARINE RISKS HAVE BEEN SUSPENDED

United States to Take No Action On The Raids, Which Are Considered Lawful—Lansing to See President This Afternoon—French Ambassador Also to Call.

New York, Oct. 10.—A day and night without further news of the U-53 has not quieted the anxiety in shipping circles caused by the attack of the German submarine commerce raider off the coast of Nantucket.

Passengers and freight liners steamed into port this morning by unusual courses, which carried them far out of their customary lanes.

Exporters say the submarine raids and the continued advance of insurance on trans-Atlantic travel which has amounted in some cases to 500 per cent.

Word was received from New Orleans that war risks on vessels and cargoes from that port had been suspended and dispatches from other ports state that insurance rates have advanced.

There has been talk of reverting to the railway embargo on freight, but no action has been taken.

President Studying Situation.

Long Branch, Oct. 10.—President Wilson gave attention today to the consideration of the facts collected by the navy department concerning the submarine attacks off the Atlantic coast.

Mr. Lansing will not come to Shadow Lawn until late this afternoon and will take dinner with the President and remain there over night.

The Ambassador has a personal letter from President Poincare, of France to Mr. Wilson on Polish relief, but it was expected that the new German submarine activities would be discussed.

It is not thought that the American government will take any immediate action in the recent German submarine attacks but serious consideration was given as to the question of whether attacks on merchant vessels so near the American ports does not constitute a virtual blockade of American ports.

James W. Gerard, American Ambassador to Germany, who arrived in New York from Germany is not expected to see the President until next week.

President Wilson plans to leave here tomorrow afternoon for Indianapolis where he will deliver two addresses Thursday afternoon.

New York, Oct. 10.—James W. Gerard, American Ambassador to Germany, upon his arrival here today refused either to affirm or deny published reports that he was returning to the United States on a peace mission on behalf of the Emperor of Germany.

Mr. Gerard's attention was called to a statement in The World to the effect that his errand to this country was to inform the administration that a renewal of submarine activities is being considered by Germany in a manner which might threaten German-American relations.

Mr. Gerard, after quickly glancing over the article said: "You don't see me quoted anywhere in it do you?"

To the question put to him by reporters, who met him at quarantine, he said: "It is no use to question me boys. The length of my stay here is not decided and I have no plans. I expect to go to Washington, but don't know when."

BULGARIA ADMITS SERBIAN ADVANCE

Paris Says Bulgarian Counter Attack Has Failed—Ex-Premier Goes to Salonica.

Increased activities south of the Somme river are being kept up by the French. For some time the main efforts of the French have been made north of the river, but last night the artillery was active on the south.

Although the great battle now going on in Galicia is apparently continuing, Petrograd reports that nothing of significance has occurred. Berlin is almost equally uncommunicative and few details are permitted to reach the outside world of the great campaign that is the supreme effort of the Russians to break the Austro-German lines and capture Lemberg.

The Bulgarian war office acknowledges that the Serbian troops have forced a pass across the river Cerna, in Macedonia, and it is said that the Serbians were submitted to a counter attack along the front center.

According to the French war office the Bulgarians' counter-attack failed and the Serbians are re-crossing the river.

Former Premier Venizelos, of Greece, and the members of the provisional government set up in defiance of the King, have gone to Salonica, where the revolutionary movement began. Prof. Lambros has formed a ministry, which will be sworn in according to unofficial reports from Athens.

CREW OF BRITISH SHIP STILL NOT HEARD FROM

Whereabouts of Those From Off The Steamer Kingston Unknown.

BEEN IN BOATS FOR THIRTY-SIX HOURS

Anxiety Increases For Their Safety—Nothing Heard From The Submarine.

Newport, R. I., Oct. 10.—The crew of the British steamer, Kingston, which has been missing since Sunday when the members abandoned the ship at the order of the German submarine in the waters off Nantucket have not been heard from today.

Eleven torpedo boat destroyers were dispatched in the vicinity of the lightship to continue the search.

No further report of the submarines or submarines which caused the destruction of the ships Sunday has come to hand. There has been no trace of the submarine since its last victim went down. Search for the missing crew was halted yesterday on the receipt of the report that some of the men had been found.

As the men have been in the open boats 36 hours and are probably without food the anxiety on the part of the crews of the destroyers to locate them, especially as the weather became extremely cold last night, is great.

No additional information bearing on the submarine raid reached this port this morning. Wireless stations, as usual, were kept busy reporting the positions of vessels approaching New York, which are said to be coming in different ways to avoid danger.

MUSH TOBACCO IS BEING SOLD

Markets Around New Bern Making Record Sales of The Popular Weed.

New Bern, Oct. 10.—Mr. D. E. Henderson, of this city, secretary of the Craven county Democratic Executive Committee and presidential elector for this district, yesterday made addresses before the Democratic voters at Dixon and Swansboro, Onslow county.

The voters in that section are taking an active interest in the present political situation and arrangements have been made to have them addressed by a number of influential party members during the next few weeks.

Regardless of the fact that much of the crop has already been disposed of, the sales on the local market during the past week have been very encouraging and the farmers have been paid top notch prices for the weed which they have brought to New Bern.

The season is fast drawing to a close, but before the warehouses end up the season several hundred thousand pounds of the weed will be offered for sale and this is expected to be an exceptionally good quality and even higher prices than have already been paid out here, may be given for this.

The Vanceboro market is comparatively young, but it has already proven to be one of the most progressive in Eastern North Carolina and is growing in size and strength each season.

"I like New Bern and its people and I am going to remain here if possible," said Mr. W. H. Garrett, keeper of the National cemetery, today when asked in regard to his possible transfer to another port.

Mr. Garrett stated that he received a letter from the department a few days ago asking if he would object to being changed to Memphis, Tenn., and he at once wrote and protested against this.

AMERICA SAYS "NO" TO PROTEST OF THE ALLIES

Declines to Bar Submarines From Entering Ports of United States.

THEY SHOULD BE OUTLAWED, CLAIMED

Did Not Use Newport As a Base of Operation, Replies State Department to The Protest.

Washington, Oct. 10.—The United States has refused to accede to the demand of the Allies urging that no submarine, either a merchant vessel or a warship, be allowed to put into harbor in the United States, Counsellor Polk, of the State Department announced today.

The Allied interests in its protest to the United States says that "The grave danger incurred is in a neutral submarine in navies of belligerent powers."

Mr. Polk announced the department's position but refused to discuss the reason for it. The claim of the Allies is that the submarines are outlawed as the note cabled last night brought up the question, as to whether this government may not be sued for damages, resulting from the call of the U-53 at a port before she started on her raid.

CALLS THE RAIDS DEFIANT ACT

French Press Seems Think Germany Challenges The United States.

Paris, Oct. 10.—Under the head of "blackball and defiance" the morning newspapers here printed in prominent positions all news obtainable about the German submarine campaign on the American coasts, and accompanied them by comments.

The general sentiment of the press here is that Germany is challenging the United States, with confidence that the challenge will not be taken up. The newspapers express the opinion that the submarine campaign off the American coast is the last touch to a situation which is becoming impossible to the neutral nations, owing to the sinking of Scandinavian and other neutral ships.

BROOKLYN TOOK THE THIRD OF THE SERIES

ROOM INFESTED WITH INSECTS

Complaint Voiced Regarding Treatment Mrs. Chandler Was Subjected to.

The Board of Health is meeting this afternoon and it is very probable that the condition of the room Mrs. E. C. Chandler and her baby were assigned to in the isolated ward at the James Walker Memorial Hospital will come in for a bit of discussion, although Dr. Chas. T. Nesbitt, county health officer, stated this afternoon that the matter had been satisfactorily adjusted and that Mrs. Chandler and her baby, who has infantile paralysis, will be made as comfortable as possible during their period of retirement.

When questioned this afternoon, Dr. Nesbitt stated that the room Mrs. Chandler and baby were assigned to was infested with insects and vermin, but added that the Board of Health had been notified by the hospital authorities that the ward was ready for occupancy and that he had no reason to feel that it was not in the proper condition to receive the patient and Mrs. Chandler. Mrs. Chandler and her baby were carried to the hospital yesterday afternoon and a list of groceries made out and ordered sent there.

Mr. Fenly, the night engineer at the hospital, was attracted to the room occupied by Mrs. Chandler last night and he procured some milk for the mother and her baby, according to Dr. Nesbitt. Dr. Stovall was up the greater part of last night looking after the comfort of Mrs. Chandler and her child, after learning of existing conditions.

Dr. Nesbitt stated this afternoon that as soon as he learned the room was not in good condition that he ordered it thoroughly cleaned and equipped with new furnishings throughout. Cooking utensils were procured, clean and fresh linen was put on the bed; in fact, the room was completely refurnished and a telephone is to be installed in order that Mrs. Chandler can communicate with her husband and with friends. It is Dr. Nesbitt's intention to make Mrs. Chandler as comfortable as possible and he stated today that he regrets very much that conditions were not what they should have been when she was carried to the hospital.
