What Books of Lumberton Cotton Weigher Show— Big Land Sale Today.

(By W. R. Surles.)

Lumberton, N. C., Nov. 2.-From the books of Mr. J. B. Smith, the Lumberton cotton weigher and grader, the following figures are taken which show the local receipts on this market:

1916—Up to Nov. 1, 2,832 Same period last year, 3,915

1916—Total receipts. 7,763 Mr. Smith estimates the total receipts for 1916 to be 4,000 bales and says that two-thirds of the crop has already been marketed, and that owing to good weather and high prices cotton has been gathered and sold as fast as possible.

What purports to be the biggest land sale of the season will be "pulled off" today at the Dr. Rozier place, about eight miles north of here. Seven hundred acres of fine Robeson county land will be cut up into small farms and sold to the highest bidder.

The Robeson Association in its an nual session meets with the churches at St. Paul's and many delegates from all parts of the county are passeasy to use—put it on in a few sec- from all parts of the county are passonds—because there is no work or ing through town this morning en corn-fooling to do, no pain that route to that place. route to that place.
