TOWNSHIP FAIR OPENED.

Various Displays at Bolivia Attracted Much Attention.

The Township Fair at Bolivia opened this morning with a splendid display of exhibits and while the crowd was not as large as had been anticipated it was very good. The quality of farm products, size and quantity considered, that were placed on display surpassed the expectations and predictions of the most optimistic.

The display of needlework and canned goods was unusually good and the poultry and live stock on exhibit shows that Brunswick is becoming enveloped in a progressive spirit that means much to the county.

An enormous crowd is expected to assemble at Bolivia tomorrow morning when the fair proper opens and the "Home-Coming Day" is expected to draw hundreds from surrounding counties. Everyone is invited to attend the fair and all are promised a warm welcome and an enjoyable time.

POLICE OFFICERS GOT VERY BUSY

New Bern Force Captured Over 300 Gallons of Whiskey From Norfolk.

New Bern, Nov. 2.—Three members of the New Bern police force, Police-men William Stryon, A. A. Ippock and C. D. Fulcher, yesterday confiscated one of the largest consignments of whiskey ever sent into New Bern on a passenger train, the total amount being somewhere in the neighborhood of three hundred gallons.

The officers were tipped off that the whiskey would arrive on the early train from Norfolk and they were on hand when this arrived and took into custody three trunks of the sample variety, three smaller ones and two suit cases, all of them containing, it is believed, whiskey.

The trunks were consigned to various points along the Norfolk Southern between New Bern and La-Grange, and the officers have good reason to believe that they know the owners and are positive that it was intended for "blind tiger" purposes.

The whiskey was taken from the train and carried to the City Hall, where three of the trunks were opened and found to be packed with a "bottled in bond" brand of liquor. However, the whiskey was not of the real bottled in bond variety. The bottles had been stamped with the government stamp and later the original contents had been removed and a cheap brand of liquor had been substituted and this, so the police say, is just the sort that the "tigers" are dispensing at \$1.50 a pint.

The three sample trunks were not at once opened, but there is not the slightest doubt but that they contain whiskey and they will be held for a few days and the contents will then be destroyed.

The policemen who made this haul are delighted with their success. Only a few days ago Policemen Ippock and Stryon lugged a suit case full of brick bats down to the City Hall, thinking that it contained liquor, and they were "sore" over this incident. However, the capture made today has caused the mto be all smiles.

LAST APPEAL ISSUED

Executive Committee of Wilson Club Asks All to Help.

The Wilson Club deeply appreciates the splendid co-operation and support received from the citizens of New Hanover county and others. More than 500 individual subscriptions have been received for the Wilson-Marshall Campaign Fund, totaling \$4,532.50. The Wilson Club of New Hanover County undertook to raise \$5,000 for this purpose. You will see, therefore, that we are \$467.50 short of the goal, with only two days left in which to make up the deficit.

Our city and county have never failed to measure up to any standard they have set, and we will not fall now.

The hour and the man have met; the peace, prosperity, progress and fu-p upon the re-election of President Wilson.

The call is urgent—the opportunity great—the time short. Will you contribute today.

THE WILSON CLUB,
By W. A. McGirt, Pres.

LIST OF AMERICANS LOST CORRECTED

Consul Sends Change For Previous Report—Fifty-Two Aboard and Six Drowned.

London, Nov. 2.—A telegram to the American embassy today from American Consul Frost, at Queens-town, states that there was a discrepancy in the former report regarding the number of Americans on board the British steamer Marina, and the names of those lost have been cleared.

In addition to the five Americans reported yesterday as having been lost, the name "Bue," given in earlier dispatches as "Brue," is added to the list of dead. The name of "Middle-ton," first reported lost, is reported in the American survivors. These changes make the total number of Americans on board 52, of whom six were lost.

FEW FOLKS HAVE GRAY HAIR NOW

Well-known Local Druggist Says Everybody is Using Old-time Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmothers made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite to impart color and a youthful appearance to the hair. It is not intended for the cure, mitigation or prevention of disease.—Advt.

Dalton VERSATILITY.

The Dalton is first of all an adding machine. For plain, straight adding and listing it has no equal, and on such work has set many a sensational record under conditions as divergent as the varying activities of commerce afford.

But the Dalton is something more than simply an adding machine. It is a calculating machine as well, capable of doing all that can be done on any other calculating machine, with the added advantage of a printed record of the work performed. Easier, in fact, than any single purpose machine performs its solitary function, the Dalton attends to its numerous duties with increased speed and efficiency.

The Dalton adds; subtracts; multiplies; divides; figures fractions as well as whole numbers; cross foots; computes interest; figures costs, pay rolls, change sheets; prorates; verifies invoices; foots trial balances; checks postings; figures percentages and discounts; makes out monthly statements. In fact, the Dalton takes care of anything that comes under the head of figure work with ease, accuracy and dispatch, rendering a physical audit slip of the work performed. Dalton versatility is unique.

Whether you buy a small capacity Dalton at \$125.00 or pay several times that amount for a larger machine fully equipped with special features, you get the same high grade material and careful workmanship. Let us bring a Dalton to your office and show you how it can expedite your accounting work.
