COTTON LETTER.

New York, Nov. 8.—Surprisingly strong Liverpool cables, accompanied with bullish advices regarding the spot demand in that market caused a sharp advance in the early trading here. The census report, showing only one million, three hundred and thirteen thousand bales, ginned during the period was in line with expectations, but recorded record small figures for the two weeks and showed a sharp falling off in ginnings interest was principally centered in election returns which at this writing point to the re-election of Mr. Wilson. This caused uneasiness in the stock market, which was reflected partially in cotton. We continue to advise buying on set-backs as a much further advance is most probable.

WHITES ENJOYING LOW DEATH RATE

Birth Rate Doubles Death Rate—Vital Statistics For Month Just Ended.

Vital statistics for the month of October, issued today by Dr. Charles T. Nesbitt, county superintendent of health, from the office of the health department, indicates that, as far as births and deaths are concerned, the past month was excellent one for Wilmington. There were a total of 80 births and 34 deaths.

Dr. Nesbitt, in speaking of the monthly statement this morning, was very enthusiastic over the report. The low rate of deaths and the exceptionally large number of births during October is considered an excellent record by the head of the Health Department.

Of the total number of births, 46 of them were white and 34 colored. The white birth rate was 31, per thousand population and the colored was 27.6 and the total was 29.5 per thousand population. The most gratifying of all the figures, however, was the remarkably low death rate of white persons during last month. There were 15 deaths among the white for a rate of 8.7 and 19 deaths among the colored for a rate of 14.6. The total death rate for the city was 11.4.

CHINESE MINISTER REPORTED AS DEAD

Peking, Nov. 8.—Immediately following announcement that Wellington Koo had offered his resignation as Chinese minister in Washington, many Chinese newspapers printed an announcement that Mr. Koo was dead. This was immediately denied by the foreign office, but the report is still going the rounds of the Chinese press and promises to have nearly as wide circulation as the rumor that President Yuan Shi-kai was not dead.

MAKE OFFICIAL VISIT TO VATICAN

Tokio, Nov. 8.—Yagoro Miura, Japanese Minister to Switzerland, has been instructed to proceed to the Vatican at Rome to return the visit made to the Japanese Court early this year by Archbishop Petrelli, special apostolic delegate who conveyed to Europe Yoshihito the coronation congratulations of Pope Benedict. Minister Miura will present to the Pope an autograph letter from Emperor Yoshihito.

There is no indication here that Japan intends to inaugurate permanent diplomatic relations with the Vatican.

Mr. John H. Booth, of Kansas City, Mo., will speak at the Dock Street Christian church tomorrow night. Mr. Booth represents the Board of Church Extension and comes to make arrangements for the payment of the local debt of the Christian church. Every member is urged to be present.

AN ATTRACTIVE BOOTH

Business Boys' Camp Attracts Much Attention.

One of the unique and attractive booths in the Corn Show is that representing Camp Kilamaso, the Business Boys' Camp, which is held each summer on Masonboro Sound. The booth contains tent and cot in a setting of pine trees and represents the beautiful group of pines in which the camp is located on the Sound. Pictures of the camp are mounted on a cardboard and tell the story of the camp.

The idea of the camp was suggested by Mr. C. Walton Johnson, and was worked out and promoted by a group of ten representative young business men who are enthusiastic over the bright prospects for a much better camp on a bigger scale next summer. This promises to be one of the most enjoyable and helpful features of work with the business boys of the city. The first camp was a signal success and Camp Kilamaso will doubtless be the favorite Mecca of scores of Business Boys during the hot week-ends of next summer.

EGYPTIAN COTTON BELOW NORMAL

Cairo, Egypt, Nov. 8.—The bulletin of the ministry of agriculture, dated some time ago, gives the condition of the cotton crop in Lower Egypt as 10 per cent. and in Upper Egypt as four per cent. below the average. The pink boll worm attack has considerably increased in intensity throughout Upper Egypt.

Picking is now general and in some places the first picking has been completed but the yield is very uneven. On the whole, the crop this year is likely to be appreciably below average.
