It burst open as she reached it, and a mass of clawing, swearing men stumbled in paused in amazement before the roaring flames across the room, and fought their way out again. If they had seen the senseless girl on the

floor they ignored her. With that Grant came to himself. Not stopping to think, he clattered up the few remaining steps of the fire-escape, leaped and caught the bundle of telephone wires everhead and started across the yawning well beneath hand over hand like a

But his premonition proved to be true. Mardly had he started when he felt the wires give; and he had not got half way over when they tore loose behind him and he dropped.

Grant shut his eyes with a gasp. Next second he was in a blaze of light and scorching heat, sprawling on his back with his arms nearly pulled loose. The wires had catapulted him right into the

blazing room! He lay there for a moment, half stunned; then, as a tongue of flame licked across his face, he scrambled to his feet and plunged blindly for the door, his first instinct that of self-preservation.

As he reached it he remembered the girl and turned back. Sure enough, there she was in the corner farthest from the fire, trying feebly to rise. Bending low, he rushed over to her, caught her under the arms and dragged her-there was no time to pick her up-through the door, slamming it behind him. Immediately after there was a second explosion in the blazing room; another kerosene lamp had gone. Gamblers sometimes find it wisest to dispense with costly electric light fixtures, especially when they have to shift quarters periodically.

The smoke was so thick in the half afready that Grant didn't dare stand erect. Bending as low as he could and at the same time lifting his burden well up from the floor, he ran down the hall and smashed open the nearest window. An immediate draft of cool night air was the result; and Grant drank in deep lungfuls of it.

His senses cleared immediately; and then he remembered with a gasp of dis-The way to the street led through inferno behind him-he had gone through the wrong door!

He tied his handkerchief over the girl's mouth and nose; slipped off his coat and put it over his own head: then lifting her onto his back he staggered into the smoke again.
