

**THEATRE**

They certainly did "eat it alive"—that big musical comedy show presented at the Royal yesterday. It plainly showed "which way the wind blows"; that Wilmington amusement lovers prefer musical comedy to vaudeville and that such a classy show as was presented for their entertainment yesterday will always draw big business.

Bobby Hagan and his Manhattan Girls Musical Comedy Company, although they arrived late after a tiresome day trip to fill their engagement in Wilmington, presented a tip-top matinee yesterday and a better show last night. By the time they appear today and tonight they will be rounded into great form and will open your eyes.

Featured on this show for first honors come the nifty dancing "girlie-whirlie" chorus, a half dozen of the prettiest chorus girls seen here this season, and they are some dancers, too, exhibiting some of the prettiest costumes seen hereabouts in many weeks. All of 'em are young, pretty, vivacious and put over the show with a snap and a "pep" that is irresistible. Bobby Hagan in the leading role keeps "em laughing all the way through, while Ed Loop as the original "silly kid" also putting over a feature whistling act, is another drawing card of merit.

Tomorrow a brand new big show goes on, featuring that big piano and girl specialty that you certainly must not miss. Also "Smiling" Billy Mason in the greatest Fox comedy scream yet, "The Brainstorm."

**"ONE TOUCH OF SIN" AT THE GRAND TOMORROW.**

Gladys Brockwell, the beautiful portrayal of evil roles in Fox dramas, makes her first appearance at the Grand tomorrow, starting in her latest cinema achievement, "One Touch of Sin," a mammoth six-reel William Fox production that for thrills and sustaining interest has never been rivaled by any production from the Fox studios.

Mary Livingston is a woman with a problem. Starting life as an innocent eastern girl, she is betrayed by the man she loves and left alone with her child to fight out the question of life by herself. That is the character that Miss Brockwell portrays in her newest starring vehicle. To add to the doubts and problems which befall her with another man, Watt Ta-

**\$100 Reward, \$100**  
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

**WILMINGTON LADY IS NOW ABLE TO EAT BREAKFAST**

J. F. Hardison is Happy For it and Joins Large Local Chorus in Giving Praise to Tanlac.

Mrs. J. F. Hardison, residing at 318 Wooster street, has gained so rapidly through the use of Tanlac that her husband refused to entertain even the smallest amount of hesitancy in voicing his sentiments in chorus with numberless other Wilmington folks, as to the superlative merits of Tanlac as the ideal reconstructive tonic.

"Yes, sir," he exclaimed to the Tanlac Man, "Tanlac has done more for Mrs. Hardison than physicians and other treatments combined. Just think of it, my wife now eats as hearty a breakfast as I do. To get the full weight of this you must consider that until she started on Tanlac she would not eat a mouthful of food.

"Acute indigestion was responsible for her lost appetite and this malady, together with malarial fever, had her in a run-down condition. It took all she could do for her to get through the day's housework. Severe pains would grip her in the stomach, and she complained of feeling tired out a good deal.

"And from just one bottle of Tanlac, her condition has taken on a decided change for the better. Now she can eat anything and her sleep is sound. Her strength has improved and all in all she is feeling better than for months. Hope that this story may help other enjoy the same comfort as why I offer it for I know what Tanlac can do."—Adv't.

set Mary, she is forced into a marriage, because he takes the blame for a crime which she herself committed. Then she meets again the man who had first wronged her, Richard Malby demands that Tabor give up the woman and a long series of fights between the two men begins. In the end Mary is left to decide for herself. That startling photoplay of primitive passion is one of the most realistic screen dramas of the year and should draw capacity business at the Grand tomorrow.

**OBSERVATION A GOOD HABIT.**  
The great privilege of observing about us is ours for the using and there could be nothing more helpful. You know who has some trait in another displeases—likewise when another trait is attractive. When you discover something unpleasant in another person look within yourself and see if a similar one is manifest there. Compare also with your own the undesirable elements of others.

About you are successful people and unsuccessful people. Study them both. Try to discern what has helped the one and hindered the other. There is usually something tangible upon which you may lay hold. A friend of mine who has recently married saves time, labor and money by observing others. One day last week when we visited Ethel she noticed that Ethel did certain tasks differently. At once she interrogated Ethel about her method and learned how she was able to improve herself. They were only little things which most of us would have failed to notice, but this friend is wide awake and nothing escapes her.

When we left Ethel's home we decided to take a jaunt through the shops, as I had to buy an afternoon bag which I wanted to use in my new picture.

As we passed through the grocery

**EXELENTO**  
for the Hair  
ELLA DEAN sent us her picture to show how her hair looks now.  
It was happy and coarse, but now it is lovely—two inches long, soft and silky.  
Don't be fooled all your life by using some fake preparation which claims to straighten kinky hair. It has to have hair before it can be straightened.  
**EXELENTO QUININE POWDER**  
is a Hair Grower which feeds the scalp and roots of the hair and makes the hair grow, and you can see the results by using several doses. It cleans dandruff and stops falling hair at once. It leaves hair soft, bouncy, nappy hair soft and silky. Price 50c per box, on receipt of stamps or coin.

Starring in William Fox's Startling Drama, "One Touch of Sin," at the Grand Wednesday.

**TWO MILITARY CAMPS ARE NAMED.**

(Special to The Dispatch.)  
Raleigh, N. C., March 20.—Camp Bickett at Raleigh and Camp Royster at Goldsboro are the names of the new mustering out places which the Third and Second Regiments respectively will use.

These names were given by the military headquarters yesterday. The soldiers of these two regiments are half way between Raleigh and the Mexican border and under orders to remain here without the immediate mustering out. The regiments will get to Raleigh either Wednesday or Friday will use.

Nobody knows here whether the boys will remain long in Raleigh or not. While orders have been given to hold up the mustering out, it is generally believed that the men will go to their homes almost as soon as they otherwise would have done had there been no change in national plans. People who are close to the military department rather seem to have the impression that the guardsmen may be used for internal troubles and this more than any fear of outside foes holds the boys intact.

The naming of the Raleigh camp for Governor Bickett and the Goldsboro tenting place for General Royster who has served as adjutant during the absence of Adjutant General Laurence W. Young, who has also been brigadier general, is a compliment that pleases the military men a great deal.

Governor Bickett's telegram to the New York Herald a few days ago in which he took wholly un-neutral and pro-ally stand has raised but slight opposition and caused considerable congratulation.

From Concordia College the Governor received a letter from a German admirer in which the professor and president of the institution regrets that the chief executive could not have seen his way to follow "our brave Senator Stone." The letter was most kindly, would have been the advice of a Dutch uncle, but for the unmistakable Teutonic name. Governor Bickett received letters from sources that he hardly expected to give support. To Raleigh people it has been amazing that such a bold statement did not raise greater disturbance.

department she noticed a special sale on some standard article. By purchasing six packages at once she was able to save fifty cents. Of course nothing is cheap unless you need it, but the little friend needed this article and was wise enough to skip, perhaps, in order to save the money. How she ever noticed the sign announcing the sale, which was away at the other end of the room, I fail to understand, for she was enthusiastically relating, a humorous incident and her every thought seemed upon her conversation.

I have always tried to cultivate an observant nature. I flattered myself that I had succeeded until I noticed the performances of this friend yesterday.

**BROTHERHOOD CHIEFS WHO LEAD THE FIGHT.**

Cleveland, Ohio, March 20.—Two of the four great railway brotherhoods, whose demands upon the railroads have threatened a demoralization or a complete tie-up of all traffic throughout a large section of the country, have their permanent headquarters in Cleveland, and it is in this city that the brotherhood officers have held most of their conferences for the consideration of the problems that have led up to the present situation. In consequence of these frequent visits and conference Cleveland has become well acquainted with the four men whose leadership of the great army of organized railroad workers throughout the country has placed in their hands a power and influence that can scarcely be overestimated.

Most widely known of the brotherhood chiefs is Warren S. Stone, the head of the International Brotherhood of Locomotive Engineers, who has usually acted as chief spokesman for the employees in the negotiations with the railroad executives. Mr. Stone is 57 years old and a native of Iowa. He received his education at Washington Academy and at Western College. He was inclined to mechanical interests rather than to scholastic pursuits, however, and became a railroad brakeman as soon as his student days were over. He has been in the employ of one road, the Rock Island, where he began in 1879. In 1884 he was promoted to engineer. He became grand chief of the brotherhood on the death of Grand Chief Arthur in 1903. Long a student of the economic as well as the industrial side of labor questions, he was for six years a member of the industrial peace commission.

Also a native of Iowa is Austin B. Garretson, president of the Order of Railway Conductors of America. Early in life Mr. Garretson began railroad work on the Des Moines, Osceola and Southern line. As far back as 1889 he held responsible positions in the Order of Railway Conductors, but he did not come to such control as the presidency gives until 1906, since when he has been prominent in a national way, serving on the federal commission of industrial relations and also as a member of the executive committee of the National Civic Federation. When the dispute between the railroads and the brotherhoods approached a crisis a year ago Mr. Garretson was a leading figure in the negotiation of the temporary settlement. Soon after that he was taken ill and has since been unable to take any active part in the affairs of the order, of which he is the head. In the more recent negotiations the conductors' organization has been represented by L. E. Sheppard, as acting president.

To Honor National Guard.  
Washington, March 20.—Citizens of Washington are expected to turn out en masse tomorrow night in honor of the National Guard of the District of Columbia, or rather that part of it which recently returned from service on the Mexican border. A public reception in honor of the militiamen is to be held in Convention Hall and it is hoped to have President Wilson, Secretary of War Baker and other notables in attendance. The ceremonies will be presented by a parade of the National Guard down Pennsylvania avenue.

Iowa D. A. R. Convention.  
Des Moines, Iowa, March 20.—One of the most distinguished gatherings of women ever assembled in Des Moines met here today for the annual conference of the Iowa society of the Daughters of the American Revolution. Delegates representing all the local chapters of the society throughout the State were present at the opening of the proceedings. The conference sessions will continue three days and will be interspersed with several notable features of entertainment.

**ROBESON SLAYER GETS A PARDON**

Indian Who Killed Wife Liberated—Bickett Grants His Thirty-fifth Pardon.

(Special to The Dispatch.)  
Raleigh, N. C., March 20.—Senator Frank Gough, of Robeson, played in better luck with Governor Bickett yesterday than in the closing days of the General Assembly when the Bickett crop lien bill was before the Senate and Mr. Gough was "agin" it.

The Senator came here for a pardon and got it "while you wait." Gus Hunt, an Indian of Robeson, was serving ten years for manslaughter, and the one slain was his wife. On general principles Governor Bickett opposed the murder of wives and says so. Hunt, however, has served six of the years and all the evidence tends to support his defense originally that he killed his wife in an accident. He was submitted for manslaughter on the ground of carelessness. While loading a muzzle-loading shotgun and ramming the shot down the gun fired and killed his wife. Governor Bickett thinks the punishment has been long enough.

The Governor pardoned T. Pierce Jackson, of Transylvania county who had served seven months of his year for manufacturing liquor. The pardon is conditional upon good citizenship.

The Governor ran his thirty-fifth pardon out today with Geo. Hamilton, Wake county brat, who is serving a term of three years for breaking into the Horace Dowell house two years ago.

The boy is still in his teens and has given a great deal of trouble, but the Dowell family urged the pardon and moved by the hope to help the youngest Governor Bickett gets him out before the end of his term. He must show good behavior.

Mrs. William Moncure, one of Raleigh's best known women, died suddenly near midnight of Sunday.

Mr. and Mrs. Moncure had been to church and was planning to go away on a midnight train. When she was about to bid goodbye she fell without previous intimation of feeling ill. She died in a few moments after consciousness of her condition.

Three children survive, Miss Vivienne Moncure, of New York, Miss Belle Moncure, of Raleigh, and Dr. William Moncure, of Hamlet. The funeral will take place Tuesday. Pictures of Miss Bettie Howe, movie maiden, who was to have sponsored for the Agromock, the State College (old A. & M.) baseball team, were printed in the afternoon paper today giving the screen siren in the hall-liments first planned then in the censored edition.

This newspaper enterprise following a war between seniors and faculty as to the use of Miss Howe, brought to the public's attention the first that a large section of that clientele had seen. Last week the newspaper printed a most amusing editorial joshing the faculty on its prudishness. The boys met, read the ribaldry and resolved to stand pat. They put a picture of Miss Howe in a public place and surrounded it with locals and editorials. The faculty later was firmer and the picture showing the objectionable dress was deleted. The girl's face is now to go to the Agromock, but the remnants of her handsome self.

The faculty disclaim the initiative in breaking up the plans of the students. To the teachers belongs only the referendum. Some of the seniors according to President Riddick in a statement issued this morning, called attention to the picture and said other girls in the State objected to it. The college government agreed that the picture was an offense and did its part to stop the use of them in the annual. The senior class then yielded its point and the deleted, but dainty, heels cannot be traced in the book.

President Riddick acknowledges in general terms the rights of the students to get out their own publication, but he insists that such annuals as bear the college name should carry a matter as clean and wholesome as it can be. And he thinks the public will come to the same conclusion.

The Secretary of State yesterday chartered the Wilborn Furniture Co., of Hills Point, with John W. Wilborn, Jacob Wilborn and J. Allen Austin, of that place paying in the necessary \$550 for beginning business.

The Farmers Bank and Trust Company of Hertford with \$25,000 of its \$100,000 paid in, is chartered by H. C. Sullivan, James H. Towe, H. C. Stokes, Robert W. Smith and T. E. Langston. Governor Bickett today made requisition upon Georgia for H. D. Malloy, of Richmond county, wanted in the State for false pretense.

**Conquers Rheumatism In a Very Few Days**

It is an established fact that one-half teaspoonful of Rheuma taken once a day has driven the pain and agony from thousands of racked, crippled and despairing rheumatics during the last five years. Powerful and sure; quick acting, yet harmless; Rheuma gives blessed relief almost at once. The magic name has reached every hamlet in the land and there is hardly a druggist anywhere who cannot tell you of almost marvelous cures. If you are tortured with rheumatism or sciatica, you can get a bottle of Rheuma from R. R. Bellamy or any druggist for not more than 50 cents, with the understanding that if it does not completely drive rheumatic poisons from your system—money back.—Adv.

**A Little Stick of WRIGLEY'S Makes the Whole World Kin!**

No climate affects it for the package protects it.

WRIGLEY'S goes to all parts of the world—in all seasons, to all classes.

Fresh, clean, wholesome and delicious always.

It aids appetite and digestion, quenches thirst, keeps the teeth clean and breath sweet.

Three Fine Flavors: SPEARMINT, JUICY FRUIT, DOUBLEMINT CHEWING GUM.  
"After every meal!"  
SOLDIERS IN EUROPE, JAPANESE GIRLS IN TOKYO, SHEEP HERDER IN AUSTRALIA, OX DRIVER IN SINGAPORE.  
WRAPPED IN UNITED STATES PATENT PAPER.

**BIGGEST EVENT IN SCHOOL'S HISTORY**

Tabor Graded School Preparing For Big Commencement Starting April 5th.

(Special to The Dispatch.)  
Tabor, N. C., March 20.—The Tabor Graded School commencement is to be the biggest event that has taken place in the history of the school. The authorities have secured two of the foremost educators of the South to appear on the program and the local events promise to be of the best order.

Beginning Thursday evening at 8:30 o'clock, April 5th, the gymnasium team will give an exhibition, consisting of bar work, horse work, mat work, rolls, kips, hand springs, dives, clear lights, pyramids, medicine ball and games. The team is composed of fifteen men, well trained and in position to give an excellent line of stunts.

On Friday morning the entire school will go to Whiteville, N. C., to attend the county commencement. Saturday evening at 8:30 o'clock, the final music concert of the pupils of Miss Lorena Newton will be held at which time two medals will be awarded to the two best played or rendered pieces. Miss Newton is a graduate of the Southern Conservatory of Music, Durham, and is a teacher of splendid ability.

Sunday morning at 11 o'clock in the school auditorium, Dr. William Spencer Currell, president of the University of South Carolina, will preach the annual sermon. Dr. Currell needs no comment. He is a magnetic speaker.

Monday evening at the concluding part of the commencement at 8:30 o'clock, Dr. W. T. LaPrade, of the Department of History of Trinity College, Durham, will deliver the literary address before the graduating class, which consists of nine, this year. Dr. LaPrade is considered one of the leading orators of the State and the authorities consider themselves fortunate in securing the services of the two men named in the foregoing.

Immediately after the lecture of Dr. LaPrade the graduating exercises of the present senior class will take place, consisting of the following:

Chorus, "Morning Song"—School.  
Salutatory—Ada Graham, vice president.  
Oration—Willie Wright.  
Class Poem—Jessie Purvis.  
Class History—Retha Ward.  
"The Prophetic Future"—Eva Mills.  
Class Statistics—Maud Wright.  
Comic Selection—Edna White, secretary.  
Farewell to Seniors—Dewey Bell, intermediate class.  
Valedictory—James McGougan, president.  
Solo, "Song of the Soul"—Miss Juanita Newton.  
Delivery of Diplomas—Prof. W. J. Justus.  
Chorus, "A Merry Life"—School.  
The marshals for the entire commencement exercises are: Dewey Hickman, Dewey Adderson, Herbert Bruton, Alice Carmichael and Rosabelle Prigden, all of the Floyd Literary Society.

**USUAL FIFTY CENT CUT IS NOT TO BE MADE**

(By United Press.)  
New York, March 20.—The usual fifty cents a ton reduction in the price of coal will not be made this April 1, it became known here yesterday. The large operators allied with the anthracite roads may not offer any reduction at all and those who do decide upon a decrease, if they do, are not expected to make it more than twenty-five cents.

Eight and nine dollar coal is the prospect for New Yorkers this summer. Meantime many of the dealers are preparing to face trial in Federal court here on indictments charging conspiracy to boost prices.

Wholesale Lumber Dealers.  
Pittsburgh, Pa., March 20.—The railroad situation as it pertains to the lumber business, the establishment of credits, and the grades of lumber are the principal subjects scheduled for discussion by the National Wholesale Lumber Dealers' Association at its annual convention which opened in this city today. The convention is attended by nearly 600 representatives of the wholesale lumber trade from points east of the Mississippi river.

**EAT LESS MEAT IF BACK HURTS**

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You.  
Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked, get sluggish; clog up and cause all sorts of distress, particular backache and misery in the kidney region. Rheumatism twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.  
The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.  
Jad Salts cannot injure anyone. It makes a delightful effervescent lithia water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Adv.
