

### SEVERE CRITICISM OF CHANCELLOR

#### By the German Press—Charged With Double Dealing On War Questions

(By Associated Press.)  
Copenhagen, July 17.—In their views of the administration of the retiring German chancellor, Dr. von Bethmann-Hollweg, the German newspapers comment prominently and often in uncompromising manner on his treatment of relations with America. In the Vossische Zeitung, George Bernhard openly accuses Dr. von Bethmann-Hollweg and his foreign secretary, Dr. Zimmermann, of having played a double game with Washington, making war inevitable by attempts to deceive and mislead President Wilson in regard to the policy and intentions of Germany.

Herr Bernhard intimates that the submarine policy, if managed skillfully, might not have led to war with the United States had not these diplomats artificially increased the danger and destroyed every chance of avoiding a break. He says they encouraged the idea of mediation by President Wilson in America, but did nothing to make it acceptable at home, and launched the proposal in Mexico to turn against the United States, while negotiating with Mr. Wilson, and arranged the dinner to Ambassador Gerard and approved the text of the speeches delivered at the dinner, and then astounded the President and the Ambassador with the submarine note. As to this note, Herr Bernhard says much more might be written if patriotic considerations did not forbid. After all these acts, he concludes, Dr. von Bethmann-Hollweg followed the customary course and attempted to unload the entire responsibility on the former German Ambassador at Washington, Count von Bernstorff.

The Tageblatt of Berlin says the new chancellor must guarantee personally and by his actions that he has made up his mind to prepare to give Parliament full power to control future events and assume responsibility for them.

The Deutsche Tages Zeitung asserts that the burden of Dr. von Bethmann-Hollweg's incapacity prevented the German nation from breathing and that danger of actual suffocation was not far removed. Moreover, he was unable to find a way to advance the cause of peace.

Notwithstanding the political crisis, says the Catholic Germania, the nation remains determined not to end the war until a happy conclusion is assured.

The Socialist organ, Vorwaerts, says that the Socialists in co-operation with the future government, are willing to raise Germany to the level of the freest countries of the world and support a durable peace.

Kansas Railroad blocked because wreckers are afraid to move car of dynamite that telescoped coal car in collision.

Chicago man offered his wife new set of teeth in place of those he knocked out, but she insisted on divorce—and got it.

A memorial to Betsy Ross, maker of the first United States flag, has been erected in one of the public parks in San Francisco.

### COLUMBIA, S. C. SENDS EVIDENCE

That Cannot Be Controverted.

Facts are stubborn to overcome. Notwithstanding the amusing statements one reads in the newspapers by some people trying to foist manufactured articles on a confiding public, Ironized Paw-Paw stands out boldly with a dependable record of nearly a quarter of a century. It is not a "cure-all" but prepared simply for what we claim and no more. Thousands upon thousands of letters containing the warmest praise reach our headquarters and while we do not believe in promiscuous publishing of testimonials we occasionally feel compelled to give one as follows:

Mr. A. F. Meister, an upholster by trade, living at 2211 Wheat street, Columbia, S. C., says: "I suffered from indigestion, liver troubles and constipation so that I could not eat nor sleep after any fashion. I saw your Ironized Paw-Paw advertised in the newspapers, but was at first somewhat skeptical, having tried so many ready-made medicines; however, I obtained a bottle and used it according to directions, I tablespoonful half an hour before meals, and in a few days before using up the first bottle, I felt so much better that I wish to congratulate you on having such a splendid remedy. I am sleeping well again and my indigestion has disappeared. I need not tell you I shall continue the treatment which has made me feel so much better."

If you are suffering from any troubles similar to Mr. Meister there is no reason why you should not obtain the same relief as he has had. Step into the nearest drug store and obtain a bottle. If he is not up-to-date call at Elyington's Dependable Drug Store.

Formula on every bottle. Price for 15 ounce bottle only \$1.00. Attention please to mail orders. Interstate Drug Co., Inc., New York.

### GERMAN STEAMERS MEET DISASTER

#### Attempt to Leave Rotterdam All Captured Or Sunk Except Three

(By Associated Press.)  
London, July 17.—The admiralty announced the capture of four German steamers by British destroyers in the North Sea. The steamers are the Pellworm, 1,370 tons gross, also was owned in Hamburg. The Marie Horn, 1,088 tons, is from Schleswig, and the Helma Blumberg, 1,225 tons is registered from Hamburg.

The captured steamers are all small, the largest being the Briezeleg of 1,495 tons gross, owned in Hamburg. The Pellworm, 1,370 tons gross, also was owned in Hamburg. The Marie Horn, 1,088 tons, is from Schleswig, and the Helma Blumberg, 1,225 tons is registered from Hamburg.

Two other German steamers were with the 4 vessels later captured when the group was signaled by the British war craft. All 6 made for the Dutch coast, and 2 of them reached the shore. These two were badly damaged by gunfire.

A Reuter dispatch from Ymuiden says four German ships have been sunk by British destroyers in the North Sea, four captured, three stranded and three forced to return to Rotterdam.

Since Saturday 17 German steamers have sailed from Rotterdam, 3 at one time and 14 at another, the dispatch says. Of the first group one, the Magdalena Blumenthal, 1,535 tons gross, was wrecked off Zandvoort. Of the second group, owing to the action of British destroyers, not one vessel was able to proceed, 8 being captured or sunk, and three succeeding in putting back to Rotterdam. Of the 3 remaining steamships which were stranded, two were afloat.

### WELL KNOWN CITIZEN FOUND DEAD IN BED

(Special to The Dispatch.)  
Fayetteville, July 17.—J. Maulsbey, 70 years old, wealthy general merchant, was found dead in bed at the home of his nephew, Vernon Maulsbey, on B street, yesterday morning. Mr. Maulsbey had been under his physician's treatment for a week or more, but his condition was not considered serious and he spent part of Saturday at work. Mr. Maulsbey had for years lived in the rear of his store on Hay street, but being unwell recently, had been staying with his nephew. He was a kind-hearted man and had the reputation of being one of the most liberal landlords in Fayetteville. He was a son of the late D. Shepard Maulsbey, and leaves four brothers and a sister, these being Thomas H. Maulsbey and John W. Maulsbey, of Norfolk, Va.; A. V. Maulsbey, of Bennettsville, S. C., and Mrs. C. E. Gregson, of Hamlet.

### STATE RETAIL JEWELERS ARE IN CONVENTION

(Continued from Page One.)

by the National Association with the aid of the State Associations in warding off a threatened tax that would have forced the jewelers to pay a 5 per cent. heavier tax than any other line of trade, saying that the jewelers did not mind bearing their part of the burden but that the government had no right to imagine all jewelry dealers millionaires and set them up as targets to be shot at. He stated that the work of the agents of the organization was responsible for the death of what every jeweler knew to be unjust.

The meeting was called to order and business begun without the visitors having been welcomed to the city, the representative of the Chamber of Commerce failing to show up and the response to the welcoming address that was to have been delivered by Mr. Frasier was not heard at the initial session.

### TO SHOW ADVANTAGES OF SOUTHERN PORTS

(By Associated Press.)  
Atlanta, July 17.—Representatives of several railroads and civic bodies in the South and Southeast are here today for a conference to devise a plan of presenting to the War and Navy departments what they deem the availability of South Atlantic and Gulf ports for shipping supplies and possibly troops to Europe. Many Southern and Southeastern port towns have sent representatives. The basis of their contention is that with Eastern ports congested, the ports of the South could be used to good advantage.

Miss Martha Maynard is manager of the Civic Orchestral Society of New York City, an organization of 85 musicians.

Night work for women in factories and laundries in Wisconsin is prohibited by recent order of the State Industrial Commission.

The Holston and French Broad rivers and tributary streams are swollen and it is expected that the Tennessee river will have a high tide within the next two or three days. Low temperature has made fires necessary in many homes.

Man named after three Presidents—Lincoln, Grant and McKinley—has been indicted for murder in Massachusetts.

### WASTE HAS BEEN BELOW AVERAGE

#### Farmers Have Not Lost As Much This Season On Account of Fine Campaign

(Special to The Dispatch.)  
Raleigh, July 17.—The plowing under of acres of cabbage is reported from some parts of the trucking sections of Eastern North Carolina. Reports also state that in some instances a part of the snap bean crop has been left in the field or turned under. Low prices at the time these crops should have been harvested are responsible for their failure to reach the market. In a few instances Irish potatoes also have been lost. It is agreed by observers in that section, however, that the amount of truck left in the fields or otherwise lost this season has been only a small part of what is usually wasted.

The State Bureau of Markets has rendered valuable service to the truckers this season, and, with a knowledge of what usually happens, the State Food Conservation Commission and the Agricultural Extension Service have continually emphasized the importance of precautions on the part of the producer to prevent waste. It is true that the winter and spring supply of cabbage and potatoes comes from the late, or second, crops, but all forces feel that not a pound of food stuffs should be lost to the consumer under the present critical food situation.

Cabbage, beans, potatoes and practically every vegetable may be conserved in excellent condition through the use of improved methods of evaporating, as well as by canning. Such products may find a place of considerable importance in the ration of the armies of the United States and the Allies. Because of the high price of tin cans and the wonderful success of the improved methods of drying vegetables and fruits, this method of preserving perishable foods has received a tremendous impetus during the past week, and the Agricultural Extension Service has recently issued a bulletin on the subject which can be secured upon application. Another bulletin on Commercial Drying is being prepared.

Meanwhile the State Food Conservation Commission is urging all producers in the State to conserve every pound of perishable food stuffs. Cabbage may be made into kraut or, a better method, according to Mr. W. T. Allen, of this city, is to quarter them and submerge them in barrels of brine thick enough to float an egg. Cabbage kept by this means, after the excess salt is soaked out in fresh water, approach the fresh cabbage in palatability. Snap beans may be preserved in brine also and are also very acceptable after the excess salt has been soaked out of them.

### BUSINESS SPECIALS

**MESSENGER SERVICE.**  
For this service we use the Postal Telegraph Cable Company's messengers. They will call for your "ads." in the same manner and quick time as they now cover the city for telegrams, night letters, cables, etc.

For further information as to "ads." call 176, but for telegraph service call "Postal Telegraph."
