REQUISITIONING SHIPS OF AMERICAN REGISTRY NOW IN SERVICE. The requisitioning of these latter ships also has been started, seven having been taken for the War Department's use in France. The enormous amount of detail involved in the board's program resulted in Admiral Capps' drafting three more naval engineers to assist him. When they begin work next week, it is probably at least two bureau chiefs who served under General Goethals will resign, following the example of Goethals' legal staff.

THE CONTRACTS LET TODAY BY THE SHIPPING BOARD CONTAINED FOR THE first time in the government's history a clause binding the ship builders in case of labor trouble to abide by the decision of the proposed Defense Council's labor commission.

NO DECISION AS TO BELLAMY CASE

Lieut Emmett May be Arraigned For Trial Wednesday. Solicitor Ready.

The case charging Lieutenant Emmett Bellamy with resisting an officer while in the discharge of his duty was not disposed of in Recorder Harris' court yesterday morning but will probably come up for trial on Wednesday morning next, this date having been named by the court. The question of whether it would be proper for a State court to prosecute a Federal officer during war times was taken under advisement by Recorder Harris Friday and he has not yet satisfied himself that the case should be tried at the present time as it would be setting a precedent. The recorder announced from the bench yesterday that should Lieutenant Bellamy be tried it might influence others who are subject to military offenses in order to escape military service by being sent to prison for a period. Solicitor Burton stated that he was ready to proceed with the trial of the case and the question of whether the lieutenant is arraigned before or after he sees service will be decided on Wednesday of next week.

CASWELL TOWNSHIP WANTS GOOD ROADS. (Special to The Dispatch.) Burgaw, N. C., Aug. 11.—The town of Atkinson and the township of Caswell, live spots of old Pender, are progressing, and evidently intend to keep up with the leaders. At Monday's regular meeting of the county commissioners of Pender a petition signed by 90 per cent. of the voters of the township was presented, asking for an election on the question of issuance of bonds for good roads. A petition, similarly signed, sought an election for school building purposes.
