

PATRIOTISM RULED THE CLUB MEETING

Rotary Club Members Are Keenly Alive to War Situation

The Rotary Club held its bi-weekly meeting at the Y. M. C. A. today at 1 o'clock. After a substantial luncheon, the order of business was taken up and minutes of last meeting read and approved.

Mr. J. N. Jacobi reported the entertainment of the boys' and girls' clubs at the Elks' club last week and stated that bigger things are expected of the club this year along the same line.

President Roger Moore was more convinced than ever that the club should pursue a policy of construction in matters relating to the progress of the rural communities and hoped the club would continue to develop its activities along that line.

The president further stated that the people hardly realized the fact that the country is engaged in a tremendous war. That occasionally it was brought to their attention through the shortage of supplies and increased taxes, that were gradually awakening them to the real conditions. He considered that the Y. M. C. A. War Relief was one of the most important matters to which the Rotary Club should devote itself. He thought that the government should make an example of those opposed to its policy, by standing them against a wall faced by a firing squad. He believed that a list of Liberty bond purchasers and contributors to other war funds should be published so that slackers might be known and found out. He also desired to make a plea to the railroad clerks to go to work, stating that this was no time for strikes, nor should a man stand for his rights at present.

Mr. Moore went on to say that a slacker should hide his face in shame and should not uncover when the national anthem is rendered nor salute Old Glory. Constructive criticism is valuable and people should realize the difficulties of the country and not delude themselves by deceptive expressions. He depreciated a statement of one of Wilmington's prominent citizens, who recently stated that the war was only a question of a short time and that Germany would soon be licked. He said that sort of a statement had a tendency to make people careless.

Luxuries should be done without, as calls will come faster and faster and all should be prepared for every emergency even if it takes five years or longer. He thought the club should act with a resolution. Mr. C. C. Covington moved the appointment of a committee to prepare resolutions and report at the next meeting. He stated that the government has its hands full and that too much should not be expected of the government, but every one should do his part at home. He said that 600 spies had been shot or interned along the Great Lakes during the past year. He cited other cases of spy activities and said the government is coping with the situation.

The Club voted a resolution of thanks to the Howard-Wells Amusement Company, the Elks' Club and the Corn Show for their assistance in entertaining the boys' and girls' clubs last week.

ALL ASKED TO AID DRAFT REGISTRANTS

(By Associated Press.) Washington, Nov. 13.—Provost Marshal General Crowder today appealed to the country to assist all draft registrants who find difficulty in answering the questions contained in the questionnaire sent to them by the local draft boards.

Volunteer lawyers are being organized to furnish free advice to registrants, and the Provost Marshal General suggests that local headquarters be established so that registrants may obtain the desired information, and that volunteers should seek out the ignorant and urge upon them the necessity of quickly and accurately completing their work.

Bill Brennan, the Chicago heavyweight, showed true championship form in his recent bout with Bat Levinsky in Boston. Brennan is now credited with two victories over Levinsky, the Chicago star having defeated the Battler in a previous bout.

COUNT JAMES MINOTTO AND LOUIS F. SWIFT

The son-in-law of the most pucker is shown leaving a hearing in the offices of the United States Immigration Bureau in Chicago with his millionaire father-in-law. The hearing in the case of Count Minotto has ended but the verdict has not been announced.

REGISTRATION OF GERMANS IS NEXT

Proclamation Requiring Alien Enemy Registration

(By Associated Press.) Washington, Nov. 13.—President Wilson is expected to issue a proclamation soon requiring every alien enemy within the United States to register, as a step toward ridding the country of spies and saboteurs.

The government has virtually decided that this procedure is the only way open for sifting from the million Germans in the United States the few who are believed to be causing fires in munition plants and warehouses, and promoting propaganda injurious to America's prosecution of the war.

Some officials recommend that every alien enemy so registered be required to report periodically to the government in order that watch might be maintained over their movements. Under present conditions, Germans may move from one locality to another in the United States without hindrance, providing they do not enter the barred zones about munition plants and government establishments.

Only Germans could be compelled to register by presidential proclamation, since Austrians, Turks and Bulgarians are not classed as enemies under the espionage law. Congress might extend the restrictions to those nationalities, however.

KERENSKY'S FORCES ARE IN RETREAT

(Continued from Page One.)

to the government in connection with the operation of Russian railways. The employees of the official Russian telegraph agency have gone on strike. They refuse to transmit B-I sheviki propaganda.

Loyal Troops Not in Smolny. London, Nov. 13.—A report that loyal troops had occupied the Smolny Institute, the headquarters of the Bolsheviks, is denied in a dispatch from the Petrograd correspondent of The Daily Mail, dated Sunday noon. The contrary he says the place is being prepared to withstand a siege.

Several hundred women soldiers, who had been preparing to defend the Winter Palace, according to a Petrograd dispatch to The Daily Telegraph were arrested by the Bolsheviks. They were handed over to the various barracks. The correspondent of The Telegraph on Saturday inspected the Winter Palace which had been in the hands of the Bolsheviks since Thursday. He said the rooms formerly occupied by the provisional government were ransacked deep with stationery, newspapers and correspondence. Every compartment had been forced open and emptied. Pictures were slashed, glass doors and cabinets smashed, chair seats ripped. Everything too cumbersome to remove had been damaged wantonly. Almost every room in the cabinet of the former emperor had been wrecked.

Fortunately, the correspondent adds, the government had stored away all the art treasures. The cellars also were so protected as to be safeguarded.

Kerensky's Ukase

Washington, Nov. 13.—A cablegram received here today from Petrograd via Paris says The Narodnoe Slovo, organ of the popular Socialists in Russia, publishes a ukase by Kerensky dated from Gatchina, announcing his arrival there at the head of loyal troops and ordering all units of the garrison who had joined the Bolsheviks to return immediately to their duties. The paper also prints an order from General Korniloff, who had been named by Kerensky as commander of the forces and of the operations against Petrograd demanding from the garrison that delegates should be sent to him in order to know who were traitors to the country.

Paper Conference Ends

(By Associated Press.) Washington, Nov. 13.—Representatives of the Federal Trades Commission and of the Canadian government today completed their conference which is expected to result in a uniform system of determining costs to regulate to some extent the difference in prices of print paper on the two sides of the border.

BUSINESS SPECIALS

ONE HUNDRED LABORERS WANTED at fish factory. Apply to Stone Touring Line for prices and further particulars. 11-12-17

NEW INSPECTION BUREAU STARTED

Fruit and Vegetable Inspection Expected to Do Away With Disputes

(By George Manning.) Washington, D. C., Nov. 13.—The Department of Agriculture is rapidly getting under way the establishment of the new Fruit and Vegetable Inspection Service, which is expected to do away with the innumerable disputes which have occurred between shippers of fruits and vegetables and the consignees in regard to the condition of the products when they reach the market and the price which should be paid for them on account of their condition.

Branches of the service were established on November 1 at New York and Chicago and the department expects in a few weeks to extend the service to Boston, Philadelphia, Pittsburgh, Minneapolis and other large markets. Inspectors are now being trained at the New York and Chicago offices for service in the other cities where the work is soon to be extended. The service will be a considerable advantage to fruit and vegetable producers and shippers in the outlying producing sections and to the produce dealers in the cities as it will create an arbitrator to settle the question of the condition in which these products reach the market, a matter over which there is often serious dispute.

Until the new bureau is in full swing it is expected inspections will be chiefly confined to shipments in regard to the condition of which there is dispute. Applications for inspections must be made by the shipper or his agent, and the department must be furnished with a complete description of the shipment, including the name and address of the shipper and consignee, the car number, initials and routing contents and the conditions concerning which inspection is requested. No charge will be made by the government for this inspection, and an inspection certificate will be mailed to the shipper, or telegraphed to him at his expense.

Would Not Submit Letter. (By Associated Press.) Paris, Nov. 13.—The foreign affairs committee of the Senate today asked Foreign Minister Barthou to communicate a letter from former Premier Briand to M. Barthou concerning a peace offer and which later brought about the fall of M. Ribot. M. Barthou declined to submit the letter on the ground that he could not communicate it without accompanying it with other papers which he had no right to divulge.

Captain Tardieu At Home. (By Associated Press.) Paris, Monday, Nov. 12.—Captain Andre Tardieu, French high commissioner to the United States, is expected to arrive here tomorrow.

SHIPPERS OPPOSE PROPOSED ADVANCE

(By Associated Press.) Washington, Nov. 12.—Independent oil, lumber, cement and ice shippers, opposing rate advances by the railroads, presented their case for exception from the proposed general 15 per cent. freight increase on the eastern trunk lines before Examiner Disque, of the Interstate Commerce Commission, today. Other shippers will be heard Friday and the case argued before the commission Saturday.
