

STRANGE CONDITION OF CHARLOTTE WOMAN

Revealed In Statement Made Public in That City She is Now Restored and in a Burst Of Happiness Tells Experience for the Benefit of the Public

"There is one of the quickest and most remarkable changes that has ever come to my notice," said the Peoplac Report in speaking of a Charlotte lady who had just told him of her experience.

"I was so nervous that several people talking at once would drive me distracted," said Miss Marie Daggett, of 212 N. Tryon St.

She had just come in for her second bottle and was telling the Peoplac Expert of what this wonderful medicine had done for her.

She happened to read of the happy experience of another lady with Peoplac, whose trouble was the same as hers and she lost no time in getting a bottle for herself.

Miss Daggett said: "I was convinced she had spoken the truth almost from the first dose. The pains after eating left me soon after and I began to sleep soundly as I used to.

"My catarrh is gone and I am far from listless now. I want to be on the go all the time and as for noise, there can't be too much to please me."

"I am so thankful for what Peoplac has done for me that I am most anxious to let any one who is going through what I did, know where to go for help."

Peoplac is now being sold at Bellamy's drug store and all leading druggists in Wilmington and neighboring towns.—adv.

BIG EATERS GET KIDNEY TROUBLE

Take Salts at first sign of bladder irritation or Backache

The American men and women must guard constantly against kidney trouble, because we eat too much and our food is rich.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—adv.

PROMINENT DUPLIN CITIZEN IS DEAD

(Special to The Dispatch.) Warsaw, Jan. 11.—In the death of Mr. Claude Daniel, which occurred at his home near Turkey Tuesday night, of pneumonia, the community has lost a valuable and useful citizen and the church a prized member and indefatigable worker.

CANDY FOR WIFE MOTHER SWEETHEART

Before going home tonight to mother or wife, or the visit you contemplate for tomorrow—"drop" in and slip a "surprise joy" in your pocket. There will be smiles for the giver and a treat for the recipient.

Fresh Shipment of Delicious Whittman's Candies Just in.

NEW BERN HOMES OPEN FOR THIS LITTLE GIRL

People Kind Where Fates Have Been Cruel—Stephenson Caught His Train

(Special to The Dispatch.) New Bern, Jan. 11.—At least half a dozen people in and near New Bern have offered to adopt and give a home to little Sara Elizabeth Daugherty, the little six-months-old girl now receiving treatment for an attack of pneumonia in St. Luke's hospital and whose mother went insane after worrying for weeks over the disappearance of her husband, Simon Daugherty and who is now in the asylum for the insane.

The little girl, brown-eyed and brown-haired, will recover from the attack of pneumonia from which she is now suffering, says Dr. N. M. Gibbs, who is attending her, and as soon as she is able to leave the hospital she will be adopted by some family who can give her a good home and whom she will doubtless make very happy.

But for the fact that he was determined to get to New Bern in order to fill an appointment, Mr. Gilbert T. Stephenson, who Wednesday night addressed the members of the local Chamber of Commerce on the war savings plan, would doubtless have spent the night in Wilmington where he had been stopping.

Mr. Stephenson, who is State organizer for the War Savings Committee, went down to the passenger station in what he thought was ample time to get a ticket for New Bern. However, here was a long line of men and women ahead of him and finally when he saw that he would not be able to get a ticket and the train at the same time, he decided to get on the train and pay his fare.

Going out of the station he found that the train was fully a quarter of a mile up the track. He was dismayed but decided to get an automobile and try to catch it at a point ten miles up the road. The machine was secured and that 10 miles was covered in about 10 minutes and he boarded the train at that point and came on to this city and delivered the address.

The New Bern graded schools, after having been closed since prior to the Christmas holidays, Wednesday started on the last lap of the 1917-18 term, and regardless of the fact that a number of the pupils were kept out of school on account of sickness, the number in attendance was large and beyond the expectations of Prof. H. B. Smith, the superintendent.

The delay in the beginning of the second part of the term was due in the main to the fact that during the recent cold weather the heating and sewerage system was put out of business and it was necessary to repair these before the schools could be opened.

Owing to the fact that many of the water and steam pipes in local mills froze during the recent cold weather when the operators had not a sufficient supply of fuel on hand to keep up steam, these have been forced to completely or partially suspend operations for the time being and, in addition, it has cost them hundreds of dollars to have the damage repaired.

One local mill man stated to a representative of this paper that it would probably cost him four or five hundred dollars to have the pipes in his mill which had frozen and burst repaired and that several days would probably elapse before the work be completed.

The mill men are also having trouble in securing labor, the weather or having been so inclement that many of the laborers, especially the colored men, decided not to work for any price and this has hampered operations where the plans could have been operated.

The action of the United States Public Health Service and the Council of National Defense in undertaking to control the venereal disease problem in connection with the second draft, which was not done in the first draft, is based on Surgeon General Gorgas' report to the Council of National Defense. The following is based on the report:

"During the twelve weeks ending December 7, 1917, there were reported from 31 cantonments, 21,742 new cases of venereal diseases. The incapacitation of these men involves not only loss of time; in addition, it has cost the Government to keep them during the period of hospital confinement (which varies from one to eight weeks) more money than is required to maintain the entire command at Camp Dix (the cantonment in New Jersey with 20,859 men) plus an additional sum for medical treatment.

"This is not all. Inevitably the disease will relapse in hundreds of these cases, after the men have been transported to France and presumably put into condition for service at the front, at a cost to the nation of probably \$1,500 for each man.

"The important fact in this connection is that a large proportion of venereal disease cases originate, not in the camp or in communities surrounding the camp, but in cities and towns from which they pass on the way to camp. Reports from the Surgeon General's office show this. The enormous cost to the government on account of venereal disease is due largely, therefore, to conditions in civil life. A study of the above facts shows an urgent need for an organized attack simultaneously by all States on the problem of venereal disease."

New York to Hear New Opera. New York, Jan. 11.—Mascagni's opera "Lodoletta" is to be heard at the Metropolitan Opera House tomorrow afternoon for the first time in this country. Enrico Caruso and Geraldine Farrar will head the cast. The opera is in three acts, with text by Forzano, based on Ouida's famous romance of "The Two Little Wooden Shoes."

STATE NEWS

When Superior court was adjourned yesterday afternoon for the day's session, the trial of the case in which H. W. Wilson, a local negro attorney, is charged with an assault with a deadly weapon, was in progress. It is alleged that the defendant attempted an assault on Ruffin Scott, colored, with an axe.—New Bernian.

Following a conference Tuesday between R. D. Craver and Eugene Louette, manager of the theatrical attractions playing the city auditorium, it was determined to cut out a number of present bookings and hold only to some of the best of the attractions that are booked for Charlotte during the present season. A few of the one-night road attractions have already been cancelled. Shortage of fuel and an inadequate heating plant for the building, is given as the reason for discontinuing the regular run of theatrical attractions.—Charlotte Observer.

The Atlantic Coast Line Tuesday night increased its passenger service by the addition of trains No. 37 and 38 to the schedule. These trains run between Miami, Florida, and Washington, D. C. It is understood that this year there will be no stops to take on or put off passengers between the national capital and Charleston, S. C., the South Carolina city being the first stop after the train goes South leaving Washington. The same is the case with the train going North, No. 37 going South, passes through Rocky Mount in the vicinity of 2:10 a. m. and train No. 38 going North is scheduled to pass through here about 2:50 a. m. The only stops to be made between Washington and Charleston will be to change engines and to fill the water tank. These trains are mostly for tourist purposes and are known as "through trains."

The New Bern Sun-Journal has recently started something in that city when a dollar bill labeled on one side was put into circulation has been made a matter of daily report and kept track of through each of its owners calling the newspaper office, and incidentally it is rather interesting to note the travels, since in one day the bill was three times a visitor to the drug stores. In fact it looked as though it couldn't be kept away from them and it didn't matter as to which of the drug stores. The idea is to keep Bill in New Bern and it has been done for two or three days at 27 rate.—Rocky Mount Telegram.

A glance over the statement of the conditions of the banks of New Bern will convince even the most skeptical, inclined that this section is enjoying prosperity such as has never before been evidenced. The past year was a record breaker with the banks of New Bern and the surrounding territory but the prospects for the present year are even brighter.—The Sun Journal.

FOR STATE CONTROL. Venereal Diseases Biggest Problem Confronting Health Authorities. (Special to The Dispatch.) Raleigh, Jan. 11.—A telegram to Dr. W. S. Rankin, secretary of the State Board of Health, from Surgeon General Rupert Blue reads: "Control venereal infections in connection with further prosecution of the war constitutes most important problem now confronting public health authorities of United States. Plan of control mailed you today. Request your co-operation in forcible enforcement of same. Venereal infections should be made reportable and quarantinable. Means of diagnosis and cure should be provided. Campaign widely conducted. Publicity should be launched. Please inform me your action in premises."

Dr. Rankin is now in correspondence with Dr. Blue regarding the estimated cost of the State and county plan proposed for the control of venereal diseases. As soon as the plan can be made to conform to State and county conditions, the State Board of Health will take suitable action.

The action of the United States Public Health Service and the Council of National Defense in undertaking to control the venereal disease problem in connection with the second draft, which was not done in the first draft, is based on Surgeon General Gorgas' report to the Council of National Defense. The following is based on the report:

"During the twelve weeks ending December 7, 1917, there were reported from 31 cantonments, 21,742 new cases of venereal diseases. The incapacitation of these men involves not only loss of time; in addition, it has cost the Government to keep them during the period of hospital confinement (which varies from one to eight weeks) more money than is required to maintain the entire command at Camp Dix (the cantonment in New Jersey with 20,859 men) plus an additional sum for medical treatment.

"This is not all. Inevitably the disease will relapse in hundreds of these cases, after the men have been transported to France and presumably put into condition for service at the front, at a cost to the nation of probably \$1,500 for each man.

"The important fact in this connection is that a large proportion of venereal disease cases originate, not in the camp or in communities surrounding the camp, but in cities and towns from which they pass on the way to camp. Reports from the Surgeon General's office show this. The enormous cost to the government on account of venereal disease is due largely, therefore, to conditions in civil life. A study of the above facts shows an urgent need for an organized attack simultaneously by all States on the problem of venereal disease."

COUNTRY CO-OPERATING IN FOOD CONSERVATION

Food Administration Highly Gratiated Over the Response Made to Appeal

(By George H. Manning.) Washington, Jan. 11.—The Federal Food Administration is highly gratified over the saving that has been made in consumption of food-stuffs in the American homes since the food conservation campaign was begun about five months ago.

Although no figures are available showing the actual saving and the Food Administration realizes it would be an impossible task to even approximate the saving that has been effected in edibles, yet the fact that every mouth in the United States has been amply filled and that we have been able from our surplus to supply every demand made by our European Allies, satisfies the Food Administration officials that the saving would reach millions and millions of pounds of food.

The facts most pleasing to the Food Administration as expressed by a high official of the bureau today are: 1.—That over 12,000,000 households signed cards issued by the Food Administration pledging themselves to economize on all foods as much as possible, especially in wheat and meat, the articles of food of which our Allies have the greatest shortage.

2.—Reports from every city show that the amounts of fats in garbage has been steadily on the decrease indicating that less food is being wasted each day.

3.—Such large savings have been made in consumption of foods, especially in wheat and meat that we have been able to supply everything in the way of food for which the Allies have asked for the past three months. Enough wheat has been saved from the American crop to supply the Allies for the next three months, by which time the Argentine wheat crop will be ready for consumption.

4.—More canning of vegetables and fruit was done in the United States last summer than in any other year and the Food Administration believes that such a proportion of the food supplies as is now held by the housewives as to reduce the demand on the merchants for food for the next few months very considerably below that of previous years.

5.—The fifteen southern States canned 4,300,000 cans of garden products of which the Food Administration has record last summer and a large portion of this is still on hand.

6.—Reports made to the Food Administration by the hotels and meat packers indicate that the "meatless day" and every day food conservation has resulted in material.

COMMISSIONER'S SALE By virtue of a decree of the Superior Court, made on the 27th day of December, 1917, made in the case therein captioned of "Alice Larkins and husband John Larkins versus Thomas Harris, et al.", the undersigned will sell, to the highest bidder, at public auction, for cash, at the Court House door in the City of Wilmington, on Monday, the 4th day of February, 1918, at twelve o'clock M., the following described lot of land in said City of Wilmington, beginning at a point in the Northern line of Queen street 80 feet East from Northern intersection of Queen and Second streets; runs thence Eastwardly along the Northern line of Queen street 42 feet; thence Northwardly and parallel with Second street 60 feet; thence Westwardly and parallel with Queen street 42 feet; thence Southwardly and parallel with Second street 80 feet to the beginning, and being part of Lot 6, Block 24, according to the official plan of the said City of Wilmington.

This 3rd day of January, 1918. 1-3-80d WILLIAM M. BELLAMY, Commissioner.

McINNIS GOES TO BOSTON

Philadelphia, Jan. 11.—John ("Scuffy") McInnis, first baseman and the last of Connie Mack's famous world's champions, goes to the Boston Americans in a straight trade for players. The names of the players and how many will come to Philadelphia in the trade was not announced.

At War With Yourself! HELP NATURE TO DEFEAT THE DISEASE IN YOUR BODY. Keep up the fight; do not give up. Nature is trying to serve you in conquering the wrongs that may exist. Red blood, vim, courage, vitality, all seem lacking. No wonder you are nervous and discouraged.

Why not call to your aid a strong, dependable ally? Dr. Pierce's Golden Medical Discovery has for nearly fifty years proven its merits as a most powerful tonic and blood builder to the many thousands who have been returned to good health by its use.

Clear the coated tongue, get rid of unsightly skin trouble. Let this remarkable remedy rid your body of the impurities of the blood, let it tone and strengthen you. It often cures the lingering cough.

Dr. Pierce's Golden Medical Discovery is absolutely herbal, free from alcohol or dangerous habit-forming drugs. All druggists. Liquid or tablets.

WOODFORD, TENN.—"This is to certify that I have used Doctor Pierce's Golden Medical Discovery for my two little boys. One had night sweats, poor appetite, sallow complexion, and had quick growing, but after giving him part of a bottle of the 'Discovery' he commenced to gain and grow. He doesn't have the night sweats and looks much better. My other little boy had scrofula and this medicine cured him after the doctor's medicine had failed. I do not hesitate to recommend the 'Discovery' at all times."

—Miss ROSA LEE HOGAN, Route 1.

THERE WAS A DAY NOT LONG AGO When Few Women Used Face Powders, Creams or Cosmetics

Now, almost every woman uses them—and without concealment. It is conceded that she has the right to retain her youthful look as long as she can. For this reason, many women of unquestioned refinement now use Q-Ban Hair Color Restorer to retain the youthful beauty of their hair. If your hair is gray, streaked with gray or faded, you, too, can bring back all its natural color with this simple, harmless preparation.

Q-Ban is not a dye. You can prove this by trying it on your combings. Dyes will color them but Q-Ban leaves them unchanged. It is a wonderful and delightful toilet requisite which keeps the hair glossy and youthful. Does not stain the scalp, or wash or rub off, and does not interfere with washing or waving the hair. Removes dandruff and keeps the scalp healthy. Easily applied.

Sold by all good druggists everywhere on Money-Back Guarantee. Price 75c.—adv.

The Family Lamp

A Rayo lamp floods the room with cheerful radiance; gives brightness without glare; rarely flickers or flares.

RAYO LAMPS

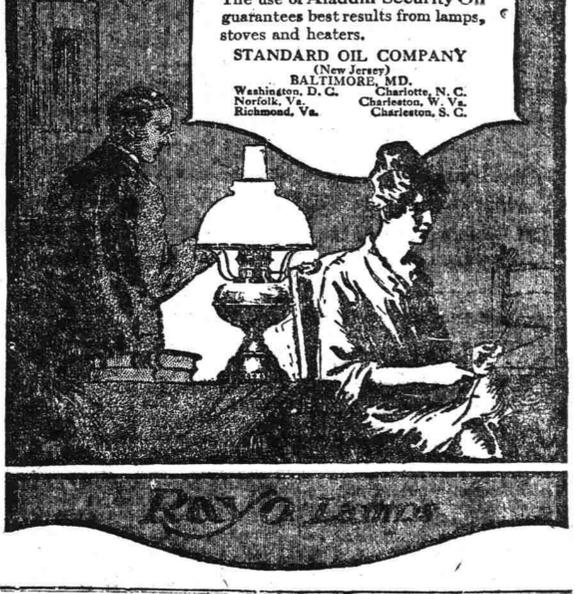

are easy to take care of—no bothersome filigree decorations to catch dirt and make them hard to keep clean. Artistic design makes them an ornament to any room. They are easy to re-wick. You don't remove either chimney or shade to light them.

Ask for them by name. If your dealer does not carry them write to our nearest station.

The use of Aladdin Security Oil guarantees best results from lamps, stoves and heaters.
