URIC ACHD IN MEAT BRINGS RHEUMATISM

Says a little Salts in water may save you from dread

cure, states a well-known authority. Ve are advised to dress warmly; keep he feet dry; avoid exposure; eat ess meat, but drink plenty of good

Rheumatism is a direct result of ting too much meat and other rich ods that produce uric acid, which is bsorbed into the blood. It is the inction of the kidneys to filter this eid from the blood and cast it out in he urine; the pores of the skin ara iso a means of freeing the blood of impurity. In damp and chilly weather the skin pores are closthus forcing the kidneys to do couble work, they become weak and luggish and fail to eliminate the uric cid, which keeps accumulating and freulating through the system, evennally settling in the joints and muscausing stiffness, soreness and

called rheumatism. At the first twinge of rheumatism from any pharmacy about four ces of Jad Salts; put a tablespoonin a glass of water and drink betere breakfast each morning for a
test. This is said to eliminate uric
test by stimulating the kidneys to
normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithta and is used with excellent results by housands of folks who are subject to housands. Here you have a pleasant, effervescent lithia-water drink which helps overcome uric acid and is meficial to your kidneys as well.

ROAD COMMISSION IS UP AGAINST BIG 10B

and tomorrow, Lois Weber scenery, Wills' Musical Comedy Com. Looks Impossible to Finish Work on Time-No Court Reports

> (Special to The Dispatch.) Raleigh, Jan. 14.-The North Carolina Code Commission, charged with This aggregation carries 12 talent- doing something big for the aw, reed artists, and presents a repertoire habilitating it and getting it in shape of all new and up-to-the-minute bills for the next General Assembly, is that will be new and novel to Wil- here working on it, but the bet is mington theatre-goers. For example, as 1,000 to 1 that it cannot complete the opening bill is presented in two it and meet the constitutional re-

The Commission must have its mad him additional labor for nim- ing required to put this performance terial back from the printer by Noas it took three hours' daily on. The company carries for this bill vember 15, according to official interpretation of the law, and George Justice, printing lke of the office of Commissioner M. L. Shipman, must have four months on the job. This will drive the Commission to re-cast the law and edit it, a fearsome job, and nobody here believes it can be done in time.

The Commission was somewhat delayed when Judge Calvert was called from the editorship of the work, a position not so designated in the act creating it. The Commission had just started with its work when the codifier was appointed by Governor Bickett, law partner of the judge. A new man and a new start became necessary.

Printing misfortunes do not come in single file. Here is the State of North Carolina which orders the printing of the "174th North Carolina," as the lawyers call it, and the money is provided. But then it isn't, for it turns out that the reports will cost the Stae more than it has authorized. The price of ink, paper, printing and binding has gone so high that the State was unable to get the work done within the legislative appropriation.

Should it be done and somebody start something, it is a good rainy weather speculation as to what would happen. The State officers co not one of the most elaborate sets of conceal their embarrassment and put on this makeup for a mere scenery ever seen with a popular they have not come to the real
