ences saw John T. Fisher's "Oh, Johnny, Oh," at the Academy of Music creditable in spots. The company was up to the standard of dollar shows for looks and action, and the lines were all that could be desired.

Those in the audience expecting a \$2 show for half that price, naturally, were inclined to express some disappointment. On the other hand, those looking for a show of the class indicated by the admission price had very

little kick coming. It is very doubtful if there would have been very much, if any, adverse criticism, even from those with high hopes, had some of the cheap comedy been omitted. It was this latter element that produced the most complaint.

To sum up: The show is o. k. as a dollar performance. If it would dispense with some of its coarser spots
