

# A NERVOUS MOTHER WITH A SICK CHILD

## Is Struggling Under A Double Burden Few Women Could Carry

A mother's anxiety over her children is always great, but when the child is in ill health and the mother nervous and sick there is a combination that few women can stand. Such a state of affairs is sure to aggravate the condition of the mother and it is exceedingly difficult to relieve cases of this character.

In Durham, N. C., there is a woman who struggled with these conditions and found a way out and brought health to herself and her little son. This woman, Mrs. D. A. Yount, 501 North Duke St., gives the following account of her experience:

"I suffered greatly from nervousness and could not rest. My little boy was in bad health from kidney trouble and his blood was not in good condition, which was a source of much worry to me and naturally tended to make my health worse. I began taking Peplac and it did so much good for me that I started my boy to taking it and I am delighted to know that I have found a remedy for his condition, after trying for six years and spending a great deal of money in search of relief for him. I don't want to be without Peplac. It has put new life into me, my nerves are much better and I rest well. In my appreciation for what Peplac has done for me I feel that I cannot say to much in its favor and I gladly recommend it."

Any mother can imagine the happiness that came to this woman over the restoration of the health of her son and the improvement in her own health. Her experience again demonstrates that Peplac strikes directly at the root of disease and will bring health to both young and old.

Peplac is sold at the R. R. Bellamy Drug Store and by all leading druggists in Wilmington and vicinity.—Adv.

# WILL RELIEVE SICK HEADACHE

## Mississippi Lady Recites Her Family's Experience in Prevention of Serious Sickness and Tells How Quick Relief Follows Use of Black-Draught

Edinburg, Miss.—Mrs. Lula McLuchlin, who lives a few miles out of this town, recently made the following statement in regard to Theodor's Black-Draught, the old, reliable, family liver medicine:

"We have used Theodor's Black-Draught in our family for years, as a liver and stomach medicine. I have used it for indigestion, gas on the stomach, for bloating and a disagreeable taste in the mouth.

A couple of good doses will relieve a sick headache and make you feel like a new person.

I keep it, especially in the winter, for grip and colds. It has been such a wonderful help to us.

Black-Draught has saved us many good dollars in doctor bills, as a great deal of sickness comes from constipation, and torpid liver which can be relieved by so simple a remedy as Black-Draught. I praise it to all my friends."

Torpid, or slow-acting liver, is the commonest form of liver trouble met with in America. The liver does not do its duty in helping the digestion of food and regulating the bowels.

Theodor's Black-Draught has been found a very valuable remedy for derangements of the liver and stomach, not only in the case of this Mississippi family but in thousands of similar cases.

Try Black-Draught.—Adv.

# Miller's Antiseptic Oil Known as Snake Oil

## Accomplishing Most Wonderful Results

"I want to thank you for your wonderful oil, states Mr. J. C. Gibson, of Jonesboro, Ark. My little girl was low with diphtheria. I had given her two doses of medicine which cost me \$20 with no results. I bought a 25c bottle of your oil and one application relieved her. Now she is well. It is the greatest remedy I ever saw." Mr. Gibson made this statement before hundreds of people. Mrs. Florence Meager, 234 Whitney street, Hartford, Conn., writes: "I have used your Antiseptic Oil for neuralgia with good effects. Only thing I have ever tried that stopped the pain immediately." Mrs. Williams, Gadsden, Ala., writes: "I have used your great pain oil for rheumatism, stiff joints, also for sore throat, and want to say that it is the greatest remedy I ever tried. I recommend it to all sufferers." Many cures reported daily from thousands of grateful users of this wonderful oil. Every bottle guaranteed, 25c, 50c and \$1.00 a bottle, or money refunded. On sale at Robert R. Bellamy Drug Company.—adv.

# OFFICERS BARRED FROM PUBLIC DANCE HALLS

## Ordered to Stay Away From Places Patronized by Uncouth Characters

(By George H. Manning.)

Washington, D. C., Feb. 27.—Army officers, of whom there are six or seven thousand on duty in Washington, have been given orders by the War Department to stay away from public dance halls frequented by enlisted men and civilians of "uncouth character."

The order signed by Adjutant General Austin A. Parker, by direction of the Secretary of War, asserts that it is unofficer-like and subversive of discipline for commissioned officers to attend these public dance halls and associate with the habits of such resorts.

The order grew out of the discovery by one of the Washington police women of a Major and Lieutenant dancing in the old Masonic Temple dance hall while enlisted men and civilians of "more or less uncouth character" were dancing there. This discovery was made in connection with some trouble some officers had at that dance hall and other dance halls when they intruded on the dance engagements of the enlisted men and civilians.

The order issued by the Adjutant General of the army to all Bureau Chief and all Commanding Officers in the vicinity of Washington reads as follows:

"1. The following extracts from a letter from the Chief of Police, Washington, are quoted for your information:

"For some time I have been intending to call your attention to the matter of commissioned officers \* \* \* attending and dancing at cheap public dance halls in the District. Several months ago \* \* \* one of our police women reported to me a Major and Lieutenant dancing in the old Masonic Temple dance hall in company with the type of girls who frequent public dance halls. At the same time various enlisted men and civilians of more or less uncouth character were dancing in this hall.

"It was in connection with this same hall that an officer of the army \* \* \* got in trouble with some of these men about dancing with other girls.

"Last night there was some trouble with two commissioned officers at the Arcade dance hall \* \* \*

"What the police department is interested in is the prevention of trouble because of the attendance of officers at a place where enlisted men and civilians of uncouth character also dance with girls of the public dance hall type \* \* \* and if this practice is permitted to continue there is going to be trouble because of the jealousies and the intrusions of officers in the dance engagements of enlisted men and civilians."

"2. The Secretary of War directs that the foregoing extracts be brought to the attention of the officers under your command, particularly to those who are young and inexperienced, and that they be advised that the attendance of commissioned officers at resorts of this character and their association there with the habits of such resorts is most unofficer-like and, in the presence of enlisted men, can not but be subversive of discipline. Such conduct falls far below the standard which the War Department has always set for the observance of officers, and the fact that it has caused comment by the Police Department should prevent a repetition of this offense."

"3. The following extracts from a letter from the Chief of Police, Washington, are quoted for your information:

"For some time I have been intending to call your attention to the matter of commissioned officers \* \* \* attending and dancing at cheap public dance halls in the District. Several months ago \* \* \* one of our police women reported to me a Major and Lieutenant dancing in the old Masonic Temple dance hall in company with the type of girls who frequent public dance halls. At the same time various enlisted men and civilians of more or less uncouth character were dancing in this hall.

"It was in connection with this same hall that an officer of the army \* \* \* got in trouble with some of these men about dancing with other girls.

"Last night there was some trouble with two commissioned officers at the Arcade dance hall \* \* \*

"What the police department is interested in is the prevention of trouble because of the attendance of officers at a place where enlisted men and civilians of uncouth character also dance with girls of the public dance hall type \* \* \* and if this practice is permitted to continue there is going to be trouble because of the jealousies and the intrusions of officers in the dance engagements of enlisted men and civilians."

# CONTROL WASN'T EXPECTED.

Governmental Action Will Have But Little Effect Locally.

The announced intention of the government, as outlined in President Wilson's proclamation of recent date, to take over control of all plants, manufacturing fertilizer after March 20, will have little effect on this season's output in this section, as practically the entire output of Southern plants has already been sold on contract and 50 per cent or more already shipped to retail dealers and farmers, although similar conditions do not prevail in the North, as traffic congestion has prohibited heavy shipping.

The governmental decision came as a surprise to local manufacturers, although they have been keeping in close touch with the situation, as price fixing for nitrates has been the subject of much discussion of late and action of this nature was expected at an early date.

Lack of fertilizer materials has greatly curtailed this year's shipments and they will be much smaller than those of the past year. However, those of last year were the largest since 1915, when minimum shipments were made.

# WILL GIVE PRIZES.

Every Effort Made to Interest City Women in Gardening.

Prizes for back yard gardens will be given this spring through the civic improvements committee of the Chamber of Commerce, decision to this effect having been reached at yesterday afternoon's meeting of the committee. Survey of the city will first be made for determining the general nature of the numerous gardens they will then be classified and a prize given for the winner in each classification.

Messrs. D. C. Love and H. McL. Green have already signified their intention of donating prizes and others are expected to join in the movement that will tend to interest the women of the city along gardening lines. The survey will be made under the direction of Miss Mary Clifford Benett, city home demonstration agent, and the enlistment of the school children is assured by Mr. J. J. Blair.

# South Carolina News Items

## Additions to Camp Jackson.

Columbia, S. C., Feb. 27.—Construction of 12 additional hospital buildings and about 20 warehouses at Camp Jackson, to cost approximately \$350,000, will begin at once. Harry F. Hann, contractor from Winston-Salem, N. C., who has the contract for the structures, has arrived in Columbia. Seven automobiles filled with assistants to Mr. Hann came through the country from North Carolina. As many as 200 workmen are expected to be engaged on the task within the next 24 hours.

## Laurens Under Quarantine.

Laurens, S. C., Feb. 27.—The development of another pronounced case of meningitis near the city limits caused the authorities to close all the theaters, schools in town, and at Watts Mills the churches, the theater and other public places of assembly. The order is made for a week, subject to continuation if the exigencies of the situation demand it.

## McSwain to Take Charge.

Columbia, S. C., Feb. 27.—W. A. McSwain, the insurance commissioner elect, came to the city Monday prepared his bond and did everything else necessary and preliminary to his taking office on March 1. There are more than \$1,000,000 in securities deposited with the insurance commissioner. These must be checked and receipts given and taken before the new commissioner is installed.

## Injured at Greenville.

Greenville, S. C., Feb. 27.—One woman was seriously, though not fatally, injured and a number of others badly bruised and shaken up here Monday when Southern Railway train No. 12 crashed into a street car at Branwood crossing, just outside the city limits. The car had jumped the tracks at the crossing just as the train came in sight a few hundred yards away. Most of the passengers left the car in time to save themselves. The car was badly splintered.

## Baby Burned to Death.

Sumter, S. C., Feb. 27.—The 11-months-old baby of Mr. and Mrs. William Steele, of West Liberty street, died as the result of burns from a pot of boiling water. The child was playing on the floor when the kettle was overturned on the lower part of its body. The baby was removed to the hospital, where it received immediate attention and rallied from the first shock, but the burns were too severe and the child died. The burial was at Olanta.

## Died of Meningitis.

Abbeville, S. C., Feb. 27.—T. Huber McIlwain died of meningitis Sunday night at the home of his father, at McIlwain's, four miles from Abbeville. Young McIlwain had been ill for a week. He was in the draft and went up to Greenville two weeks ago for examination and it is thought he met with a carrier of meningitis while away. This is the first death in Abbeville from this disease.

# ASKS FOR COINAGE OF TWO-CENT PIECES

## A Bill Introduced in Congress Providing for Minting Two-Cent Penny Coins

(By George H. Manning.)

Washington, D. C., Feb. 27.—The coinage of two-cent pieces at the United States mints is provided for in a bill introduced in the House of Representatives by Congressman George K. Denton, of Indiana.

There has been more or less general demand for several years for a two-cent coin.

A recommendation that a two-cent piece be minted was adopted by the executive committee of the American Newspaper Publishers' Association at its meeting here last Monday. The new coin, it was pointed out, would provide a convenient medium of exchange in purchasing newspapers, the price of which generally has advanced to two cents because of the news print paper shortage.

The Denton bill proposes that the new coin shall consist of 95 per cent copper and 5 per cent tin and zinc, and weigh 96 grains, or one-fifth of one ounce.

The diameter and devices on the coins are to be fixed by the Director of the Mint, except that on one side there shall be an inscription of the word "Liberty," and on the reverse the words, "United States of America," and the designation of the value of the coin.

The Denton bill also provides that two-cent pieces shall be legal tender in any payment to the amount of 30 cents.

Under the terms of the Denton bill the coin would be of the same material as the penny is now made and would be in size between a nickel and a quarter. A coin quite similar to this was authorized and placed in use at the time of the Civil War, and its coinage stopped in 1873.

Tuesday is said to be the only day of the week which is not recognized as the Sabbath by one people or another.

I'm going to prescribe **Resinol** for that eczema

"I might give you a formal prescription, but what's the use! It would cost you more than a jar of Resinol and I shouldn't be nearly as sure of the results! You see, I have been using Resinol Ointment for over twenty years. During that time I have tried out dozens of new ways of treating skin-troubles, but I have always come back to Resinol—I know that it stops itching at once, generally heals the eruption, and that it contains nothing which could irritate the skin. You can get a jar at any drug store."

# Success of a New Remedy

## For Backache, Kidneys, Rheumatism

BELLEVIEW, TENN.—"I was suffering with muscular rheumatism when I came in possession of Dr. Pierce's Anuric Tablets. I commenced on them at once and haven't felt but few symptoms of it since. Anuric is just fine for rheumatism. I am so glad I have a relief, I have suffered so much from it and from neuralgia in my head."—Mrs. LENA KNIGHT, Route 1.

NOTE: Folks in town and adjoining counties are delighted with the results they have obtained by using AN-U-RIC, the newest discovery of Dr. Pierce, who is head of the Invalids' Hotel and Surgical Institute, in Buffalo, N. Y. Those who started the day with a backache, stiff legs, arms and muscles, and an aching head (worn out before the day began because they were in and out of bed half a dozen times at night) are appreciating the perfect rest, comfort, and new strength they obtained from Doctor Pierce's Anuric Tablets, double strength. To prove that this is a certain uric acid solvent and conquers headache, kidney and bladder diseases and rheumatism, if you've never used the Anuric, send ten cents to Dr. Pierce for a large trial package. This will prove to you that Anuric is many times more active than lithia in eliminating uric acid. If you are a sufferer, go to your best druggist and ask for a small bottle of Anuric.

The poisons in your system can be thrown out by taking Dr. Pierce's Pleasant Pellets, composed of May-apple, aloes, root of jalap, sugar-coated, and sold by all druggists.

# The FOWLER CULTIVATOR Makes More Bread for The Nation

Figure 1 in Operation

Figure 2 in Operation

Directions for Operating Fig. 1

In this form the Fowler is used after plowing and harrowing to prepare a seed bed. All the fine soil slips between the upper and lower blades, forming a seed bed which is a perfect mulch. All clods, trash or stones, unable to pass through the narrow space between the upper and lower blades, slide along to the ends of the blades and are left in the middles between the rows. In doing this the upper blades move just above the surface of the ground and act like fenders. No other cultivator will remove from the seed bed all clods, stones and trash and leave a perfectly level surface consisting only of fine pulverized soil, in which to plant the seed. The Fowler is also used in this form, when run deep, to throw up a raised seed bed, completing the bed at one trip through.

Directions for Operating Fig. 2

With the Plow Foot in the center removed the Fowler is used for early cultivation astride the row; barring off and cultivating both sides of the row at one trip through. By the action of the upper Blades only fine pulverized soil is left on either side of the growing plant. All grass and weeds are cut off and left on the surface to die. The Fowler leaves a perfectly level surface behind it, entirely free from little furrows which would cause washing during heavy rains. In a dry season the fine dust mulch made by this Cultivator conserves the moisture and plant food and yet offers an ideal surface for receiving even the slightest rainfall. This work astride the row can be done with one horse by hitching to the side clevis.

Directions for Operating Fig. 3

When plants become too large for cultivating astride the row a short Blade is attached on the right to throw the fine mulch prepared by previous cultivations to the roots of the growing plant. In this case the Plow Foot is replaced and the long Blade on the left destroys all weeds and further pulverizes the soil between the rows. Note that the upper Blades are taken off for this work. As all trash and clods have been removed from the proximity of the plants by the previous cultivations astride the row nothing is now left within reach of the short Blade but a fine dust mulch which is thrown to the roots. The clods and trash previously thrown to the middles now slip over the Blade without leaving their place in the center between the rows.

Directions for Operating Fig. 4

For late cultivation, to keep down the final growth of weeds and vines and to break the hard crust forming after rains, only the long lower Blades are used. These Blades move parallel to and above the roots of the crop, which toward maturity come close to the surface. The Cultivator Blades do not injure these roots although completely destroying all grass, weeds and vines. Other cultivators run across the crop roots and deep enough to destroy many of them, making late cultivation with such tools impossible. When crop roots are damaged the energy of the fruit is devoted to restoring such roots before further developing either stalk or fruit. It is late cultivation which gives that final complete maturity to the crop so necessary to a maximum yield.

**A Strong Guaranty With Each Fowler—It Will Do More Work and Better Than Any Other**

Unless otherwise specified the Fowler is shipped with 32-inch Blades which, by means of the expanding lever, can be made to cut various widths of from 20 to 40 inches. The extra Short Blade shown in Fig. 3 is also shipped with every Cultivator. Longer or shorter Blades covering any width from 15 inches to 45 inches will be furnished if preferred.
