FOREIGN LANGUAGE PUBLICATIONS ARE DOING THEIR PART

Devoting More Space to Liberty Bonds Than Many Other Newspapers

"KAUPT FREHEIT BONDS" DISPLAYED

German Language Newspapers are Urging Purchase of Bonds, and are Getting Good Results

Washington, April 19.—"Kauf Freiheit bonds."

This is the appeal made to every reader of German language newspapers and magazines published in the United States these days in news and editorial columns and advertising pages. "Buy Liberty Bonds" urge the editors in the language of America's enemies.

Clippings displayed today at the National Liberty headquarters indicated that the Germania language papers in this country are devoting proportionately more space to the preaching of the necessity for over-subscribing the loan than are other daily newspapers. Other foreign language newspapers are equally active on behalf of the war credit, including the Hungarian, Bulgarian and Turkish publications.

Their work is bearing fruit, according to reports to Hans Rieg, a native of Germany, director of the foreign language section of the Liberty Loan

WHY DO ALL DOCTORS PRESCRIBE CALOMEL?

Of all the medicines in the world, doctors prescribe calomel most often and depend upon it most universally. There must be a good and sufficient reason—what is it?

If you will study the doctors' books you will find that the medical authorities prescribe calomel for almost every disease. The reason is that calomel is the greatest and only thorough system-purifier. It makes the liver active, drives out the poisons from the stomach, bowels and kidneys and thereby purifies the blood. Calomel puts the entire system in the most favorable condition for Nature to exercise her recuperative power. Your doctor will tell you that drugs merely assist Nature. That is why he prescribes calomel so often.

The new kind of calomel, called "Calotabs," is refined and purified from all of the nauseating and dangerous qualities of the old style calomel as a liver-cleanser and system-purifier. One Calotab at bedtime, with a swallow of water—that's all. No nausea, nor the slightest unpleasantness. Next morning you awake feeling fine—with a hearty appetite for breakfast. Eat what you please—fruits, acids or anything. No restrictions of habit or diet.

Calotabs are sold only in original sealed packages, price thirty-five cents. Recommended and guaranteed by druggists everywhere. Your money back if you are not delighted.

organization, for thousands of subscriptions have been gathered from the foreign language districts of American cities since the campaign started.

Forty-one nationalities are participating in the campaign, and practically all are represented by newspapers which lead in the work. These include Chinese, Japanese, Turkish, Arabic, Greek, Hebrew, Ukrainian, Flemish, Danish and other Scandinavian nationalities, Armenian, Portuguese and Spanish.

Throughout the country the campaign work has been carefully organized. Mr. Rieg, who speaks 11 languages, traveled for weeks before the loan opened, holding rallies and developing fighting plans of foreign-language committees in the principal cities. In their native tongues, he addressed meetings of Germans, French, Italians, Spaniards, Norwegians, Swedes, Hollanders, Poles, Roumanians and Danes. Reports now being received tell of multitude of small subscriptions pouring into local headquarters from these adopted zones of America.

In the fifth century, the Empress Helena established hospitals for the sick and wounded soldiers of the empire, on the routes between Rome and Constantinople.

She will likely be a little more careful the next time she goes to cut the breakfast meat.—Mullins Enterprise.
