

ANOTHER INDUSTRY IS PRACTICALLY ASSURED

Chicago Contractor Spent Yesterday Here Investigating Conditions

CONFERS WITH COWAN

That the outside world has its eye on Wilmington is evinced almost constantly by inquiries coming in about Wilmington and negotiations, looking forward to locating industries in this city, now taking place. In this connection E. W. Darling, a big contractor of Chicago, reached Wilmington, from Washington, Sunday, coming in by appointment with Industrial Agent Cowan, of the Chamber of Commerce, and investigated Wilmington for the location of an industry, the character of which has not been made public as yet. Mr. Darling spent the morning in conference and the afternoon at Wrightsville Beach, being greatly delighted with that popular resort. Today he has devoted to pursuing his investigation and will return to Washington tonight to consult with the interests he represents.

Mr. Darling expressed himself as highly pleased with Wilmington and what the city is capable of in the way of rapid and big development. Many of Wilmington's resources were a revelation to him and he will return enthused over what the city offers in the way of advantages to industrial plants. All these things show conclusively that Wilmington is on the map.

PATRIOTIC OPERETTA AT ACADEMY THIS EVENING

"Under the Stars and Stripes," a patriotic operetta, with innovations in which will be introduced the sure-fire big song hits of the war, will be the offering at the Academy of Music tonight, when the song hits which are being sung with great success in New York and other large cities will be uncovered. This offering will benefit the Y. M. C. A. in the army and the boys "over there," with no regard to color, race or creed, and should have the unqualified support of every patriotic man or woman. It depends on you and you and you to keep home and religious influences in the camp.

This production is under the approval of J. B. Huntington, general secretary of the Y. M. C. A. Recently the colored people of Atlanta gave an entertainment of this kind and every preacher, white and colored, as well as the daily newspapers gave the effort unqualified support and it went big. A whole section of the Academy will be reserved for white patrons. The admission is but 35 cents. There will be a full orchestra. Many of the city's leading people have already secured tickets.

Tickets can be purchased from the rooms of the Y. M. C. A., Red Cross, F. W. C. A., Special Aid, Northham's book store, Centre restaurant, Hall's drug store, Hanover drug store, Payne's drug company, and Nestle's drug store.

HART-BROWN SCHOOL WAS CLOSED ON SATURDAY

Upon conclusion of examinations in the private school conducted by Miss Hart and Miss Brown, the session of 1917-18 was on Saturday last brought to a close by the reading of the annual report on the standing of classes, the award of prizes and the singing of patriotic songs by the young people of the school.

Owing to unprecedented conditions of the past winter, results have not been satisfactory. For the first time in the history of the school no pupil attained the maximum in punctuality, though in some instances the failure was due to sickness only. In the necessary prolongation of the study period a goodly number of the "old guard" stood by the colors, bearing the burden and heat of the day until the "straightening of the line" was completed on the eighth of June.

The prize for the best record in punctuality was won by Louise DeR. Dick; that for the best in writing by Willie Emerson VanLeuven; for the highest number attained in scholarship, 41.7, by Mary Allen Skelton. In the review of general deportment special mention was made of Rena Mills Yates, whose conduct was exceptionally good, and who but for a period of unavoidable absence would have been a candidate for the Marion medal for conscientiousness and courtesy.

IRISH POTATO EMBARGO ON FOR JERSEY CITY

An embargo on Irish potatoes for Jersey City has been declared because of freight congestion and inability to secure labor for unloading cars, and growers are urged to use other markets for the next several days, according to advices sent out yesterday by Professor W. R. Camp, chief of the division of markets for North Carolina.

LONG JOURNEY WILL BE MADE IN EASY STAGES

R. P. McClammy and Family to Bring Back Recently Purchased Cruiser

REPLACING BOAT SOLD

Mr. and Mrs. R. P. McClammy and children, R. P., Jr., and little Miss Janie Louise; their daughter, Mrs. Owen Flynn; and son, Master Owen, Jr., and Mr. and Mrs. James E. Sharp left yesterday evening for Sylvan Beach, Lake Okechobee, N. Y., for the purpose of bringing to Wilmington the "Charade," a 40-foot raised deck gasoline cruiser, recently purchased by Mr. McClammy from C. O. Twombly, of New York. They will be gone for six weeks or two months, making the return trip by easy stages and stopping off at the principal cities while en route home. The "Charade" was recently purchased by Mr. McClammy to replace the "Maraja," which he built in this port and later turned over to the government for use as a patrol boat. The newly acquired boat is equipped with a 30-horsepower engine and was built for comfortability rather than speed, although she is understood to be able to "go some."

The boat will be managed by Messrs. McClammy and Sharp and the return trip will be made via the Erie canal, the Hudson and inland waterways. Stop off will be made at Albany, New York city, Baltimore, Norfolk and perhaps other cities, as the trip was planned with the double object of bringing the cruiser home and as an outing. No effort will be made to hang speed or endurance records, but a big effort will be made to enjoy that part of the country adjacent to the lanes in which the "Charade" will travel.

The "Charade" was acquired by Mr. McClammy to replace the "Maraja," which he built and which was capable of great speed. This vessel, however, was turned over to the government when the call was made for small craft to be used for patrol purposes, and the handsome "Maraja" was converted into the "S. P.-413" and is now doing patrol service in this section.

The "Charade" does not come up to the government specifications and in acquiring this boat for pleasure purposes Mr. McClammy is doing so with the knowledge that he is not keeping a vessel out of the service that could be used to advantage by Uncle Sam.

FORMER WILMINGTONIAN WAS DROWNED YESTERDAY

Arthur Ladson Mills, of Greenville, S. C., vice president and cashier of the Fourth National bank, of that city, and formerly teller of the Wilmington Savings & Trust company, was drowned early yesterday afternoon in the Laurel Park lake, Hendersonville, N. C., while attempting to save from drowning a boy who was struggling in the water, according to telegraphic advices received during the afternoon by Louis T. Moore, a brother-in-law of the deceased. The boy was also drowned. Mrs. Mills, wife of the drowned man, was before her marriage Miss Mary Ella Moore, of this city, and arrived here Saturday to spend a month with her mother, Mrs. Roger Moore. She, in company with her three children and two brothers, Louis T. and Roger Moore, left this morning for Greenville to attend the funeral and burial services, which will probably be held Wednesday. The deceased was a Davidson man and was well and favorably known in business circles here, where he engaged in the banking business for a long period. Ed Johnson, until recently a member of the pressroom force of The Asheville Citizen, was the youth that Mr. Mills gave his life in an effort to save.

AID NEEDED AND WILL BE KEENLY APPRECIATED

In these days of stress and war every club worthy of the name is engaged in patriotic work. Besides doing all the specific work which Mrs. Johnson, the state president of federated clubs, assigns, Sorosis is also endeavoring to maintain a baby milk station in Wilmington. The government has designated from April, 1918, to April, 1919, as baby year. A special effort is being made to decrease the infant mortality rate. Pure milk and proper feedings are definite factors in this. These milk stations are supplying to the babies of Wilmington. While it may not be as picturesque as knitting for the soldiers, it is a definite war work which is just as important and vital to the future welfare of the United States.

Next Saturday the milk station committee will hold a rummage sale in Brooklyn. We will appreciate any contribution to this sale. Articles for it should be sent to Mrs. T. E. Cooper, 208 North Fourth street. If it is impossible to send please phone 613 and we will send for your contribution.

All cash donations should be sent to Mrs. J. B. Rice, 503 Market street, the chairman of the committee. We need and will appreciate any aid that is given.

FATHER OF WILMINGTON ATTORNEY DIED YESTERDAY

Julius Augustine Turner, of Greensboro, father of W. P. Mangum Turner, member of the local bar, died yesterday morning at 11 o'clock, according to advices received here later in the day. A complication of diseases being responsible for his death. Mr. Turner was advised late Saturday of the serious illness of his father and left immediately, but death came before he reached the bedside. The deceased had been in failing health for a long time and while death was not unexpected the shock was none the less severe to friends and relatives. Several children survive. Funeral services will be held from the residence this afternoon and the remains will be interred in the burying ground at Hopewell Methodist church, near Old Trinity.

ROTARIANS' CANVASS IS ON TOMORROW MORNING

Result Will Give True Insight Into Housing Facilities Here

CO-OPERATION IS URGED

Tomorrow morning the Rotarians will begin their house-to-house canvass, which has been carefully planned and the result of which is expected to give a true insight into the housing facilities, not only showing what can be done but what should be done, in order to make a success of the big shipbuilding industries established here. As the canvass will be a vital factor in the work of preparedness being done by Wilmington and which is very essential, every one is asked to lend hearty co-operation tomorrow, so that the mission may be successful and may be quickly accomplished.

Cards setting forth in detail information desired and which information will make up a complete and plain history of the case, will be distributed by the Rotarians at all homes in the city. They will seek on the spot answers to the questions and all householders who can make answers are asked to do so at that time. In this a really patriotic duty will be performed, as it will not only be a mark of loyalty to the city, industrially, but will assist the country in the building of ships, so necessary to win the war.

If the people of Wilmington make the response that it is expected they will make the canvass is going to make a big showing for Wilmington and will demonstrate to a mathematical certainty just what this city offers.
