## LUKE RILEY SAYS THE RATS DIE **BEFORE REACHING THE RIVER**

Since moving near the river several years ago we've always used BEST-YET. We watched the vicious Water Rats nibbling at BEST-YET, outside the house. About 15 minutes later they darted off for the river to cool their burning stomachs, but died before reaching it. Kills rats and mice only. Will not hurt cats, dogs or chickens, and there is no smell from the dead rat. BEST-YET comes in two-sizes, 4 oz, size 50c; 6 oz, size 75c. Sold and guaranteed by PERRY'S DRUG STORE. L keep coming back to that word "balanced" on the back of the **Chesterfield** package

**VOU** often hear the word balance something is out of balance-topheavy, not on an "even keel."

What you read, "Chesterfield Cigarettes are a balanced blend," means that the right amounts of the right kinds of tobacco are welded together; that is, home-grown tobaccos, the right kind, the right quantityare blended and cross-blended with tobaccos from Turkey and Greece.

When these tobaccos are balanced one against the other, then you have a mild cigarette.

When they are in balance, then you have a better-tasting cigarette.

May we ask you to read again the statement on the back of the Chesterfield package? May-we ask you to try Chesterfield?
