

Farmers Selling Pork Must Pay Processing Tax

Commissioner of Internal Revenue Guy T. Helvering states that it has been brought to the attention of the bureau of internal revenue that in many instances farmers and others are slaughtering hogs and selling the products to consumers without payment of the processing tax. This is a violation of the agricultural adjustment act and regulations promulgated thereunder, which provide that any person who slaughters hogs for market must file appropriate returns and pay the processing tax thereon.

The tax applies even in the case of the producer who slaughters his own hogs and sells or otherwise disposes of all or any part of the products.

Heavy penalties are provided for violation of the law or evasion of the tax and any person who slaughters hogs and sells all or any part thereof should confer with the collector of internal revenue for his district who will assist him in preparing and filing the required returns.

O that I may grow!
I see the leaves out pushing hour by hour.
With steady joy the buds burst into flower.
I read gladly on by nature's waking power.
O that I may grow!—Babcock.
