GIRL'S BOLERO FROCK

Pattern 8380—Clever mothers of smart young daughters will be intrigued by the little bolero frock sketched, and the young girls themselves will adore the crisp styling of its bolero, puff sleeves and sash. The bolero itself, which gives the frock its dashing air, is removable, and the frock is complete without the bolero; sleeves, collar, tie, sash and all.

The soft collar and bow are most becoming and puff sleeves are dear to the feminine heart, whatever its age. We are given a choice also in the long sleeve, which is made to be gathered softly into a cuff. The skirt is plain with a slight flare at the lower edge. A plaid taffeta in tones of blue, red and gray would be very pretty in this style with sash, collar and tie in matching plain color. Light weight woolen could be used combined with velveteen.
