I Am Still Selling FERTILIZER

With the coming of Spring the demand for OX GUANOS has become so great that, despite a previous announcement to the contrary, I have decided to handle this reliable fertilizer again this year. So come and get it, boys; I've got it in stock.

REDUCE YOUR CROP COSTS

You can increase your yields per acre and lower your growing costs per bushel by using

OX GUANOS

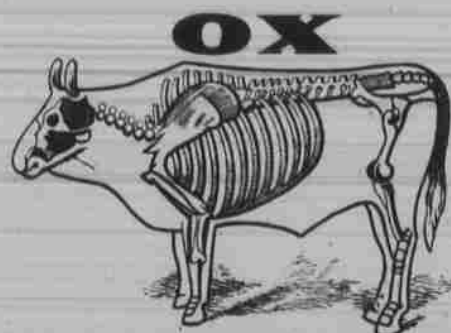

It's the bushel cost, not the acre cost, that counts when crops are sold.

Now Is the Time to Haul Fertilizer

There's no better time than right now to "get set" for your crop. Let me supply your requirements.
