PENNY WISE

Prairie De Chien, Wis.-It took a police guard, two men, and a bushel basket to help Ted Clanton carry his money.

Clanton overturned the basket, filled to the brim with pennies, on the desk of astonished city treasurer Irvin La Bonne.

After a long siege of counting, La Bonne wearily announced he had 15,000 coppers on his hands. Clanton, a tavern keeper, had saved them a year to pay his tavern and liquor licenses.

All of the fund collected by the North Carolina unemployment compensation commission is to be used exclusively for paying benefits to workers who, become unemployed. All items of expense of administering the act are paid by the federal government out of the small percentage of the fund it collects at the end of the year through the internal revenue division.

Unemployment compensation can never take the place of relief entirely. Only those who work fairly regularly for 16 months in a covered classification are eligible for compensation. Compensation is to pay the employee who works normally, when he becomes unemployed through no fault of his own. It is not intended for those who are unable to work or who have not worked for an extended period.

Bank Supplies Bulls For Cattle-Breeding

Five purebred bulls have been purchased by the Citizens Bank and Trust Company, of Andrews, to further the production of high grade beef cattle in Cherokee, Clay, and Graham counties.

The bank also plans to purchase two more bulls in the near future, said L. I. Case, beef cattle specialist of the State college extension

The two Aberdeen Angus bulls have been placed with farmers in Graham county and the three Hereford bulls have been placed with Cherokee county farmers.

The other two animals to be purchased will probably be placed in Clay county, Case pointed out.

The farmers with whom the animals have been placed are regarded as leaders in their communities. Each has signed a contract to care for the animal in his charge according to methods recommended by the extension service.

The bulls will be available for service on the farms where they are kept, and other farmers will have the privilege of using the bulls upon payment of a small fee which will help defray the expense of maintaining the sires.

The contract specified that the farmer must keep the animal in good condition, feed it adequately, and endeavor to protect it from infection with contagious diseases.

Each farmer has the right to purchase the animal in his charge if and when he may desire, Case added.

The bulls were selected by Case in cooperation with A. Q. Ketner, Cherokee county farm demonstration agent.
