Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fall to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache. tress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all

worn out.

Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbance.
