

Garden Additions May Be Made Now

Sam Mendenhall, farm agent, calls special attention to the following article issued this week by the extension department of State college:

There are still many vegetables that the farm family may plant in the home garden as late as June, according to H. R. Niswonger, extension horticulturist of N. C. State college.

Sweet corn, field peas, New Zealand spinach, Swiss chard, lima and snap beans, okra, egg plant, squash, and cucumbers are good crops to plant. In the mountains, June is the month to plant the main crop of cabbage.

The space between the rows of vegetables may be utilized for a second planting of the same vegetable or a different one if the garden area is small.

June is the month to begin planning for the fall garden. As soon as the early or mid-season vegetables have been harvested and if the area occupied by these vegetables is to remain idle, the land should be cleaned of all dead plants and vines.

Next step is the broadcasting of a liberal application of stable or chicken manure and acid phosphate and then plowing this material under. After each rain the land should be cultivated and the grass and weeds kept down so as to have the soil in good condition for fall planting. Other areas not occupied should be prepared also for fall gardens.

For insect control is suggested dusting cabbage, collards, broccoli, and snap beans with one per cent rotenone dust to kill worms and bean beetles.

"Now tell me, what kind of work can you do?"
"Work? I thought you wanted a foreman!"

Home Boys Lose To Sylva Team

The slants of the southpaw Summer were too much for home boys and they were defeated twice. The first game was lost 11 to 5, the second 3 to 1.

Summer pitched both games for Sylva, while Higdon worked the first game and McCollum and Cleveland the second game for Franklin.

Higdon gave up two earned runs as errors causing the loss. McCollum gave up only 5 hits during six innings but errors also accounted for his loss.

Franklin plays Andrews Sunday, June 1, at the local field at 2 p. m. Franklin is in 6th place in the league. Audry, star player from Cullowhee, will join the Franklin club this Sunday.

Admission is now 10c and 25c, instead of former 10c and 25c.

Lions Club

Hear About Experiment Station At Coweeta

On Monday night 18 Lions gathered at Panorama Courts for a sizzling T-bone steak supper and a program.

Marvin Hoover and Peter, Fletcher, two investigators for the Coweeta Forest Experiment Station at Otto, 15 miles south of Franklin, were guests speakers. They explained by means of charts and maps the purpose of the experimental forest and some of the research being carried on.

Hoover, resident director, explained why the conditions at Otto were ideal for research on water-run studies. The 70 rain gauges scattered over the 6 square miles are read by specially trained CCC boys from the Coweeta camp after each rain. While Franklin is experiencing a prolonged drought, two inches of rain fell in one hour at the head of one stream on the forest last week. The annual rain fall varies from 60 inches at the lower end of the Forest, to 100 inches a year near Albert mountain.

The drought has caused a marked drop in the water table as shown by the observation wells which have been recording the level of the water for over 5 years.

Stream Flows Measured
Fletcher, assistant silviculturist, responsible for installing the various experimental treatments on the 30 water sheds whose run-off has been measured daily over a number of years so that the run-off record has become standardized. In the near future they will be able to tell what effect logging has on stream flow and erosion, also what effect grazing or forest fires have on stream flow.

Aids Farming and Electric Plants
By making such studies, the information will help land-use planners in improving the use of the land, will help the county agent in recommending to his farmers better practices and will aid the hydro-electric companies

Campus Sweetheart

Her green, clean beauty has made screen actress Priscilla Lane the popular choice of the youth of America. In a recent poll of college campuses, she was voted the darling of the college boys.

Joint Defense

Meeting Seeks To Increase Production

A joint Defense meeting was held Saturday May 24 of AAA Committeemen, Home Demonstration club members and the National Defense Council. The meeting was called to order by S. W. Mendenhall, Fifty AAA committeemen, club women and National Defense committee were present.

Mr. Mendenhall stated that over 1,000 farm families have agreed to cooperate in the drive sponsored by agricultural agencies in which the families agree to raise 75 percent of their food and feed. These leaders from various communities were urged to use influence in getting all families to cooperate.

Welfare and Defense

Mrs. Eloise G. Franks, Supt. of Public Welfare discussed welfare, and National Defense. Mrs. Franks defined National Defense as being the participation of government, of private agencies, of all citizens and all groups. The great challenge to the United States today is not along to our force of arms; it is a challenge to our ability to make our democracy and our economy produce and distribute plenty." Mrs. Franks stated, "In the defense of our nation we cannot let any lack of courage, imagination or ability to organize or productive resources bring us defeat."

Miss Alma Key, district health nurse, represented the health department in offering this department's assistance in all possible ways. Miss Key defined health as being that quality of life which renders the individual fit to live most and serve best.

Henderson Reports Meeting

Mr. C. W. Henderson, chairman AAA Committee, reported on the National Defense meeting held in Charlotte at which time Secretary of Agriculture Claude R. Wickard, was principal speaker. Mr. Henderson urged farmers increase production through variety of production of foods and feeds. Also that farmers strive for better management. Mr. Henderson stated that although we may have a surplus of corn that a shortage of poultry and poultry products existed in the United States. Mr. Henderson urged as Secretary Wickard had urged that the health of our nation be improved through better food.

Dr. J. L. Stokes, II, pastor of Franklin Methodist Church discussed the possibilities of our country as compared to Korea where he was born—a land where land was worn out with 25 million of people. Dr. Stokes sees us as a wasteful people. "In order to improve our conditions we must grow strong spiritually as well as physically," he said.

District Farm Agent, F. S. Sloan, stated the difference in this war as compared to previous wars. was that we need food in canned cases—also in other forms as dried and condensed. There must be a 50 per cent increase in canned tomatoes and beans. Mr. Sloan urged no radical increase but an increase in farm products through better methods of farming.

Committeemen and Home Demonstration club women were given lists of non-signers of Food and Feed Program and were asked to visit each family. All non-signers must file a card in Raleigh stating the reason for not cooperating with Food and Feed Program.

In control of the water for their electric plants. During this dry weather, the pumping of the water from the soil by the trees is so heavy that it makes a daily rise and fall of the streams.

Macon Boys

Enroll For CCC Training With Other Counties

The following boys were selected through the superintendent of public welfare, Mrs. Eloise Franks, Macon county, and taken to the procurement point, Buncombe county court house, Asheville, where all passed the examination and were enrolled in camp on Friday, May 3.

Thomas, Junior Childers, Etna; Donald Cunningham, Route 1, Dilard, Ga.; Arthur Vinson Garrett, Etna; Edgar Napoleon Guffey, Jr., Route 2, Franklin; Garnell Herbert Miller, Highlands; James Robert Phillips, Franklin; John David Potts, Franklin; Grady Hugh Rogers, Route 2, Franklin; James Dee Sanders, Route 4, Franklin; Arvel Joel Simons, Franklin; Earl Moody Yonce, Route 3, Franklin.

These enrollees were among the 235 youths and World War veterans who enrolled at the Asheville office last Friday. Others came from Buncombe, Haywood, Henderson, Madison, Avery, Rutherford, Polk, Yancey, Swain, Graham, Clay and Cherokee counties. They were sent to CCC camps in Western North Carolina. They were all accepted to fill vacancies in the CCC camps because of discharges, acceptance of employment and other reasons. Among the group were 13 negroes.

Capt. L. M. Saunders of the United States army was in charge of the enlistments. The group will be assigned to non-combatant training on national defense projects. Various trades will be taught the enrollees.

"I believe that these men are the finest type of American youth that has been enlisted in the CCC service so far," Capt. Saunders said. "The group is far above the average CCC enrollee and I am sure most of them will soon be promoted to assistant leaders and leaders of their divisions which will mean more pay and a chance for advancement."

Navy Recruiting Station At Franklin P. O. 3 Days A Month

Commencing with June, Navy Recruiting Station is to be established at the postoffice, Franklin, for a period of three days each month, beginning with the first Monday of each month and continuing through the following Wednesday.

The Navy has urgent need for 35,000 additional men by June 30.

To be eligible for enlistment in the Regular Navy, a man must be between the ages of 17 to 31, have completed not less than the seventh grade in school, be unmarried, of good character, and if less than

Son Of Former Maconian Killed In Plane Crash

Ralph Parson, 19, whose mother was the former Miss Mary Helen Mann and was married to Paul Parson of Andefson, S. C., a close relative of J. J. Mann of this county was killed in a training plane crash two miles east of Anniston Ala., late Sunday. Employed as an instructor in the civil pilot training, young Parson was engaged in an instruction flight with a student identified as Virgil Stewart, 24 year old employee of a chemical plant of Anniston. Several miles from the city their plane went out of control and crashed. Both pilot and student were killed. Parson was a graduate of the Anderson High school and learned to fly at an early age. He had been offered a position as flying instructor in more than one University in the south. He moved to Anniston to join the staff of instructors of the Southeastern Air Services which has a Government contract to train pilots.

No cause for the fatal accident has yet been divulged but a press dispatch from the Alabama city stated an inspector from the civil Aeronautics Authority was enroute there to make an investigation.

Funeral services for Mr. Parson was held Tuesday afternoon in the Hickory Flat Cemetery, Banks county, Ga., the home of his parents. The funeral was in charge of the Southeastern Air service and the procession was followed by a convoy of planes from his home to its final resting place.

Mr. and Mrs. J. J. Mann and Mr. and Mrs. Sanford E. Mann attended the funeral from this county.

21 years of age have the consent of his parents for enlistment. To be eligible for enrollment in the Naval Reserve, the age limit is 17 to 30. Those between the ages of 17 to 35 inclusive, may be enlist in the Navy Reserve and assigned to active duty immediately for training in one of the following service schools of their choice: Aviation Mechanics; Radio; Clerical; Machinist; Metal-smith; Carpentry, or Storekeeper training.

In addition, those between the ages of 17 and 50 may enlist in the Naval Reserve, provided they possess a trade or profession, in a rating commensurate with their ability, and receive immediate active duty with full pay of their rating.

Enrollment in the Naval Reserve is also being accepted for Naval Aviation Cadets for those between the ages of 20 to 27 and who have completed not less than two years of college, and for Reserve Midshipmen for those between the ages of 20 and 28 who have completed four years at college and who possess a Bachelor of Arts degree, a Bachelor of Science degree, or have completed the prescribed Engineering course.

Rehabilitation Chapter Extends Family Help

The Macon County Chapter of the North Carolina Rehabilitation Bureau held its monthly meeting in the office of Mrs. Eloise G. Franks, superintendent of public welfare Thursday, May 22.

A number of interested citizens attended and plans were made for helping one family toward better community adjustment. Those attending were Mrs. Franks, Mrs. Gilmer A. Jones, Rev. J. L. Stokes II, Jess Conley and Horner Stockton.
