Situated in Burningtown Township, Macon County, North Carolina, and being the land described in a deed from B. L. Hunnicutt and wife to Pauline Fouts, dated the day of October, 1939, and of record in Deed Book D-5 at Page

A Lesson for Future Farmers

Members of the Future Farmers of America at Eutawville, S. C., learn how to wash and groom a steer, under the direction of Henry McKnight, F.F.A. supervisor. While the girls scrub the steer's right flank, the boys curry the animal's left. The F.F.A. club members are from 10 to 18 years old.

Betty Jane Waldrop, Grace Long, Boys, Fred West, Thad Byrd, Jay Meadows, Eugene Owenby, Ralph Cochran, Thad McCoy, Billy Gibson, Mark Duncan, James Patterson, Leroy Roper, Harley Moore Stewart, Jerry Ledford.

Last week the camp was filled with 4-H members from Graham, Henderson, Transylvania and Mitchell counties. The attendance expected this week was stated to be more than 100 from the five counties.

Activities for the young people include all the usual outside camp recreations, such as swimming, hiking, soft ball and tournaments in horseshoe pitching and pingpong.

The girls are receiving training in table setting and dining room etiquette. Insect study and forestry work under a TVA forester are included in the boys' studies; while both boys and girls received instruction in the uses of wheat in the farm home, assisting in making cereal for their breakfast with a portable grinder.

Contests of various kinds with prizes to the winners are also a feature of the week's camping enjoyment. The Macon party is expected to return Friday afternoon.

NOTICE OF REMOVAL OF GRAVES

North Carolina,
Macon County.

TO THE SURVIVING HUSBANDS OR WIVES OR NEXT OF KIN OF THOSE PERSONS NOW BURIED IN THE FOLLOWING CEMETERIES LOCATED IN NANTAHALA TOWNSHIP, MACON COUNTY, NORTH CAROLINA, NEAR AQUONE, IN SAID COUNTY AND STATE:

1. The Aquone Missionary Baptist Church Cemetery, located at Aquone, North Carolina.

1. The Yonce Cemetery, located on Wine Spring Creek, Nantahala Township, North Carolina.

You, and each of you, are hereby notified that the land on which the above Cemeteries are located is now owned by Nantahala Power and Light Company, and that said land is required for use as a reservoir for the water impounded by a dam which said Company is now constructing near Aquone, North Carolina, and that it is, therefore, necessary to remove the graves from said Cemeteries, as provided by Section 5030 of the North Carolina Code of 1939.

Said graves in said cemeteries will be opened and the dead bodies or any part buried therein, or anything interred therewith, will be removed to new cemeteries and reinterred therein by the said Nantahala Power and Light Company, or its representative, and said removal will begin on September 1, 1941, and will proceed until completed.

The removal of said graves will be under the supervision of S. E. Raper, Agent of Nantahala Power and Light Company, and those persons having relatives buried in said cemeteries who have not seen Mr. Raper, are requested to communicate with him immediately at Kyle, North Carolina.

This the 24 day of July, 1941.

NANTAHALA POWER AND LIGHT COMPANY

By: S. E. Raper, Agent
Kyle, North Carolina.

DEATH RATE ON INCREASE

Vital Statistics Bureau Releases Figures For Half Year

RALEIGH, July 22.—The number of deaths from preventable accidents in North Carolina continues to gain momentum as the year advances, official figures compiled by the State Board of Health show. Through June there had been 854 such deaths reported to the Bureau of Vital Statistics, as compared with 665 the first half of 1940, representing an increase of 189 for 1941, so far. These do not include suicides and homicides, which are holding their own. During June 35 people in North Carolina took their lives, which was 15 in excess of the number in the corresponding month last year. There was an increase of one in the number of homicides, the June, 1941, total having been 33, as compared with 32 for the corresponding month last year.

Accidental drownings last month totaled 27, as against only 18 in June, 1940, while 11 were burned to death, compared with 8 in June, 1940. Last month's total number of deaths from preventable accidents was 145, an increase of 23 over the same month in 1940.

June's 7,493 births brought the total number for the first half of 1941 in North Carolina to 41,937, an increase of 2,115 over the corresponding period of 1940, while the 2,635 deaths brought the total for the first half of this year to 17,059, which was 27 fewer than died from January through June, last year.

Drop In Cancer Deaths

There was a decided drop in cancer deaths in June, the total for the month having been 169, as compared with 206 for June, while pneumonia deaths fell from 122 in June, last year, to 99 in June, this year, sustaining the downward trend. An uptrend, however, was reflected in the 69 deaths from diarrhea and enteritis among children under two years of age, compared with 50 reported in June, last year.

In fact, children did not fare so well in June in other ways. With 419 deaths among babies under a year old, the rate jumped from 50.7 in June, last year, to 55.9 in June this year. Measles took 21 lives, against one in June, 1940, while there were 22 fatal cases

Simple Test For Egg Freshness Explained

An egg is a sealed package of fine food when it is laid by the hen. It is the only product that Nature gives us that is sealed without the touch of human hands. "However," points out T. T. Brown, extension poultry of N. C. State college, "eggs that bring a premium on the market are those that the consumer desires—eggs that are fresh, large, clean, uniform in size and color, and sound in shell. Most consumers will buy the more pleasing-looking product, but their continued purchases depend upon the actual interior quality of the eggs."

A simple home method of determining if eggs are fresh is suggested. Place eggs in a pan of water and the good ones will rest on the bottom of the vessel; those that have lost some of their quality will stand on end; and very poor ones will rise somewhat. Those that rise are older or poorly kept.

An egg does not have an air cell when it is laid by the hen. As it cools, the water evaporates from it and the two shell membranes at the large end of the egg separate and form an air cell. In hot weather, moisture is drawn from the egg, just as water is drawn from the soil and from all vegetation. The depth of the air cell is a measure of quality in eggs. "One of the most important steps is rapid cooling of eggs. Eggs, when laid, are about at the body temperature of the hen, which is 106 degrees. They must be cooled rapidly to about 68 degrees to keep fresh."

of whooping cough, an increase of 11 over last June.

One death from rabies and one from tetanus occurred in North Carolina last month, while appendicitis deaths went from 19 to 229. Maternal deaths, however, showed a decrease of 9, bringing the June rate down to 5.3, as compared with 6.7 last year.

There were three typhoid fever and three malaria victims during the month, while tuberculosis deaths showed an increase. No deaths resulted from endemic typhus fever, undulant fever, smallpox or scarlet fever.

NOTICE

We, the undersigned Aldermen of the Town of Franklin, having opened, canvassed, and judicially determined the returns according to law of the special election held July 8, 1941, in the Town of Franklin, at which election the voters of said Town voted upon the question of approving the ordinances authorizing \$1,000.00 sidewalk improvement bonds and \$9,000.00 street improvement bonds, do hereby certify:

That there were 607 voters registered and qualified to vote in the election;

That for the ordinance authorizing \$1,000.00 sidewalk improvement bonds and taxes therefor there were 120 votes cast. Against said ordinance there were 15 votes cast;

That for the ordinance authorizing \$9,000.00 street improvement bonds and a tax therefor there were 121 votes cast. Against said ordinance there were 14 votes cast.

We further certify that the propositions for ordinances authorizing \$1,000.00 sidewalk improvement bonds, for the ordinance authorizing \$9,000.00 street improvement bonds and a tax for each of said bonds, received a majority of the votes cast.

This the 9th day of July, 1941.

Wayah
By C. L. GREEN

The crops on Wayah are very good considering the rain and wind.

A lot of buildings and bridges are being constructed in this community.

Mr. and Mrs. Z. V. Shope, Mr. and Mrs. Jess Shope and W. R. Shope were visiting Mrs. Earl Harrison one day last week. This was W. R.'s first visit here for some time, as he has been in the Navy for the past four years.

The Arrowwood Lunch Room erected by D. Holmes of Cordele, Ga., is completed. Paul Scruggs of Murphy is manager.

Dr. and Mrs. C. E. Bild of Miami, Fla., are building a home up on Wayah road.

Mr. and Mrs. Edwin Blaine have moved to this community.

Mr. and Mrs. J. D. Freese, of Miami Fla., are visiting Mr. and Mrs. W. B. Biggers at their home on Wayah road.

Mr. and Mrs. Webber and children, who have been living at Grover's camp on Wayah road, have returned to their home in West Palm Beach, Fla.

Miss Lorena Green of Franklin; D. Homes of Cordele, Ga.; and Mr. Rex of Jacksonville, Fla., were guests at the home of Mr. and Mrs. Cecil Green, and Mrs. L. T. Gillespie Sunday.
