### SIXTY ATTEND C. OF C. BUFFETT SUPPER

Approximately 60 persons attended the get-together buffet supper and community meeting of the chamber of commerce at the school lunch room Thursday night, when talks were made and plans outlined for the future growth of Highlands as a summer resort.

In the informal talks following supper, S. C. Russell, president of the chamber of commerce, said, "It behooves every citizen of the community, and the chamber of commerce in particular, to keep posted on the constantly changing situation, and to do everything consistent with war conditions to continue to attract visitors."

R. R. King was chairman of the business meeting and other speakers included Mayor W. H. Cobb, Frank B. Cook, J. Harvey Trice, W. S. Davis, Reverend J. S. Higgins, and Rev. H. T. Bridgman.

The attractive grouping of the tables, the flower decorations and the serving of the supper were under the supervision of Mrs. H. P. P. Thompson, lunch room director, Mrs. Frank H. Potts, Mrs. Joe A. Massey and Miss Nancy Potts.

Hotels furnishing the delicious supper were Highlands Inn, Tricemont Terrace, King's Inn, Fairview Inn, The Potts House and Hotel Edwards.

### AUTUMN COLORS DELIGHT LATE STAYERS

The autumn coloring which promises to be exceptionally good this year, is expected to be at its peak this weekend and next. Late stayers of our summer colony, who have heretofore enjoyed much of the beauties of autumn, and the attendant Indian Summer weather from the highways, are finding equal pleasures in picnicking on their own premises.

Among the many delightful affairs of this kind was the picnic given by Miss Minnie D. Warren on Thursday in the garden of "The Hedges", her summer home on Satulah Mountain, where the marvelous views are excelled by few if any of the summer homes here.

Another very pleasant affair of last week was the out-door barbecue supper given Wednesday by Mr. and Mrs. R. V. Waters of Havana, Cuba, at their summer home on Cullasaja Drive, when they entertained about 25 of their friends.

The birthday table was covered with a white cloth and centered with a blue and gold dome topped with sailor figurines in white. Flanking the centerpiece were tall red candles, a red and white flag-ship, aircraft carrier and a flying fortress with a number of plastic soldiers, sailors and Marines on guard.

The guest list included Dale and Benjamin Edwards; Joan and Barbara Calloway; Martha Reese, George Burt, Margaret Ann Mitchell, Beverly Cook, and John Tucker Hall.

### J. C. Ferguson Reports High Crop Yield

The following report has been made by Tom Fagg, assistant farm agent on one of Macon's demonstration farms:

John C. Ferguson has kept a close record on one particular field of his farm since he became a demonstration farmer. This field contains one and three-fourths acres. Mr. Ferguson says that when he became a demonstration farmer, this field would produce approximately 60 bushels of corn or 1 3-4 tons of hay. Last year the field produced 125 bushels of corn and this year 4 tons of clover and grass hay. Mr. Ferguson says that lime and phosphate has been the reason for this increase in production. He has put 2 tons of lime and 400 pounds of 45 per cent phosphate on this field in the past four years. The other fertilizing materials he used have not been increased over what he was using before he became a demonstration farmer.

### WAKE UP AMERICA!

THE CIVILIAN POPULATION HAS NOT REALIZED THAT WE ARE IN AN ALL-OUT WAR

Thousands of typists, stenographers, and secretaries are needed for defense work. Urgent demands are being made on our school to fill this demand. We are rushing our students through just as rapidly as we can to meet this emergency. We are in need of many more people to train for these defense jobs. Who is willing to help his country in these perilous times?

Our prices and terms are most reasonable. If you want to help your country, get in touch with us. Government jobs pay good salaries.

Stockpiles like this are needed all over the country so that our Government can plan our armament program—and our mills and plants can deliver the fighting tools!

# MOUNTAINS OF SCRAP WILL SAVE THOUSANDS OF LIVES!

Get in on the drive that starts today. Get the unused metal out of your cellar, your attic, your garage, your place of business. Without this scrap the Nation's steel mills must shut down, for all new steel is 50% scrap, and the mills have not enough for even 30 days more.

And one more thing. Help to stop the story—spread by innocents and ill-wishers alike—that there is lots of scrap already on hand. They point to junk yards, auto graveyards, and salvage depots that have not been cleaned out, as proof that there is no shortage. Kill this talk before it kills our boys!

In spite of the terrible lack of scrap, here is why you may still find full junk yards

and scrap depots—and why they must be kept that way!

1. All scrap must be sorted, stripped, and broken up by scrap dealers before it can be used. Their yards are full because they are busy—preparing your scrap for the mills as fast as they possibly can!
2. Auto graveyards strip autos, keep the usable parts and junk the rest—turning out 450,000 tons of scrap in a typical month. Each must scrap within 60 days as many cars as he buys—that is the law!
3. Scrap collections sometimes have to stay around because the dealers can't handle them all immediately. Even if they could, the mills could not store it all. The local salvage depot is a stockpile—where your scrap is available for instant use as soon as it's needed. And it will be needed!

Remember if these places become empty, the mills shut down—and we lose the war!

So get out your scrap and help your neighbors with theirs. It's the greatest single contribution you can make right now to win the war!
