State Medical Society Urges Better Conditions For Mental Hospitals

GOLDSBORO, Feb. 10—Dr. Donald B. Cobb, President of the Medical Society of the State of North Carolina, has issued the following statement with regard to the proposed setting up of a central supervising board for hospitals for the mentally sick: "Some months ago the committee appointed by Governor Broughton to investigate the Morganton State Hospital made its report. It was found that North Carolina, who prides itself on many things, was forty-fifth among the forty-eight states in the amount it spends for the care and treatment of the helpless insane. Certainly this is something of which we cannot be proud. "Acting upon the recommendations of the Governor's investigating committee, a bill has been introduced in the legislature to set up a North Carolina hospital board of control to supervise the Morganton, Raleigh and Goldsboro Hospitals and the Caswell Training School in Kinston. "Physicians of North Carolina endorsed the recommendations of this investigating committee and they are in accord with the idea of setting up a central state supervising board. Success of such a central governing board depends entirely upon how it is set up and who constitutes its members.

MRS. ANSEL OGDEN PASSES IN LOS ANGELES

Elias D. White of La Verne, Calif., a former resident of Highlands, has sent the following notice which will be of interest to many in Highlands and Macon county. Mrs. Ansel R. ("Lulu") Ogden passed away in Los Angeles on the 4th day of February, 1943.

Mrs. Ogden was the eldest of 5 children of Mr. and Mrs. S. T. Kelsey, so inseparably connected with the early history of Highlands. Of the 3 children who made their homes in the far West only one, a daughter, now survives. S. T. Kelsey, Jr., died in Los Angeles 3 years ago at the age of 70. Two sons, Harlan P. Kelsey and Dr. Harry E. Kelsey.

S. T. Kelsey and C. C. Hutchinson are remembered and honored founders of the town of Highlands. Mr. Kelsey alone, however, stayed with us until the scene of his sacrificial labors was an assured success.

The sturdy pioneers of our country who pushed their way north and south and west built a great nation. No wilderness was too difficult, no prairie too boundless, no forest too dense and interminable for them to penetrate and subdue. We, likewise, cherish the memory of Mr. Kelsey and Mr. Hutchinson who lived and dwelt among us. They were made of the same stuff.

"The creation of this board will, in all probability, determine the administration of mental institutions and the care of mental patients in North Carolina for the next quarter of a century. During recent years a marked change has occurred in the general attitude toward mental sickness. In quite a few states laws have been drafted and boards have been set up in accord with the viewpoint of modern psychiatry, that mental illness is a medical problem and is as susceptible to prevention, treatment and cure as human sickness in general.
