MISS NELL JENKINS AND BOONE LEACH WED IN THOMASVILLE, GA.

Mr. and Mrs. James Harvey Jenkins of Thomasville, Georgia, announce the marriage of their daughter, Rebecca Nell, to Franklin Boone Leach, EM 3/c, United States Navy, son of Mr. and Mrs. Augustus Leach of Franklin, on Wednesday, July 14.

The ceremony was performed by the bride's pastor in the living-room of the Methodist Parsonage at Thomasville, in the presence of the bride's family and a few close friends. The wedding march from Wagner's Lohengrin was played as the processional as the bridal couple entered the room together. For the ceremony the bride wore a soft suit of beige wool with a white chiffon blouse trimmed at throat and wrists with frills of white lace. Her accessories were of black and beige. White carnations and tuberoses formed her shoulder corsage.

Following the ceremony, Mr. and Mrs. Leach left on a brief wedding trip, during which they visited the groom's family here. The bride was recently graduated from Brenau College, Gainesville, Georgia, where she majored in Speech. She is a member of Alpha Gamma Delta, social fraternity, and of Zeta Phi Eta, National Honorary Speech Fraternity; Phi Beta Sigma, scholastic honorary; and the Georgia Student YM-YWCA, as well as of the Brenau YWCA. She was also chosen president of the Cushman Club's Brenau chapter, and served as a member of Brenau's Honor Court and Student-Faculty Relations Board.

Following his graduation from Franklin High School, the groom attended King College, Bristol, Va., where he was a member of the Philothesian Society. He was also chosen manager of the King College Boxing Team. Prior to his induction into the United States Navy last December, he was employed by the Nantahala Power & Light Company. He was recently graduated from the Naval Electrical School at Newport, and has now returned to duty at the Brooklyn Navy Yard, where he is attending the Sperry Gyrocompass School. Mrs. Leach has returned to her parent's home in Thomasville for a brief stay before joining her husband in New York.

"Manpower at home is essential to support fighting-power overseas" ... E. G. Grace, president, Bethlehem Steel

Thousands of men arriving for work in a Bethlehem shipyard. Down this yard's busy shipways slide many of the nation's cruisers, destroyers and aircraft carriers. Bethlehem repeatedly has made records for delivering vessels well ahead of schedule.

This is the story of manpower in Bethlehem steel mills and shipyards, of men and women who have come by the thousands from all walks of life to do a job in backing up our fighting forces with a continuous flood of materials. These men and women are vital to the battle of production.

NUMBER OF BETHLEHEM EMPLOYEES

- Poland invaded, September 1939.....100,000
- Fall of France, summer 1940.....120,000
- Pearl Harbor, December 1941.....190,000
- Tunisia, May 1943.....290,000

Manpower at Bethlehem Steel has been multiplied three times in three and a half years. Here are the figures:

Facts About Bethlehem Workers

Manpower is the heart of Bethlehem's current production of a ship a day. Manpower makes possible the meeting of its large commitments for ordnance and other war-steel products. All other problems such as materials and supplies are secondary — the essential dependence is on manpower.

Thousands of men from non-essential trades are joining Bethlehem war-work armies. More than 13,000 women are employed at Bethlehem plants and shipyards, and the number is constantly increasing.

Veteran employees are zealously teaching the newcomers, so that they can quickly handle their appointed tasks.

New employees earn while they learn, in special training classes and in on-the-job training. Sympathetic study of each person's abilities puts "square pegs in square holes."

Wages are the highest in the history of shipbuilding and steel, and in the top group of all industries.

Promotion is rapid, as opportunity to advance comes far more swiftly than under normal conditions.

Bethlehem employees are friendly, high-grade people. The great majority have education in the high school grades, and thousands are graduates of colleges, crafts and professions. More than 50,000 Bethlehem employees are now serving in the armed forces, a fact which gives added seriousness of purpose to those working to produce the supplies.

To work in Bethlehem shipyards and plants is to be in the front line of industry, doing a real job to help win the war.

SOME NEW BETHLEHEM EMPLOYEES FROM VARIOUS OCCUPATIONS

From leatherworker, to machine operator. From drifter on jewelry, to burner. From auto salesman, to materials inspector. From plumber, to meter repairman. From office clerk, to ship draftsman. From delivery man, to furcra loader.

FROM ALL OCCUPATIONS

Bethlehem workers come from virtually every walk of life to serve in these war-work armies. Here are 60 instances of former occupations of men and women who are now producing ships and combat materials.
