

### Weekly Roundup Of OPA Prices And Rationing News

**For Week of June 25**  
**Processed Foods:** Blue Stamps, N2, P2, Q2, R2, S2, now valid, expire June 30. T2, U2, V2, W2, X2, now valid, expire July 31. Y2, Z2, A1, B1, C1, now valid, expire August 31. D1, E1, F1, G1, H1, now valid, expire September 30.

**Meats and Fats:** Red Stamps, E2, F2, G2, H2, J2, now valid, expire June 30. K2, L2, M2, N2, P2, now valid, expire July 31. Q2, R2, S2, T2, U2, now valid, expire August 31. V2, W2, X2, Y2, Z2, now valid, expire September 30.

**Sugar:** Sugar Stamp No. 36, good for 5 lbs., expires August 31.

**Shoes:** Airplane Stamps Nos. 1, 2 and 3, now good.

**Fuel Oil:** Periods 1, 2, 3, 4, 5, valid for 10 gallons each.

**Gasoline:** A-16 coupons valid through September 21. Each car owner must write his license number and state on each gas coupon as soon as it is issued to him. Mileage rationing record must be presented when applying for all passenger car gasoline rations.

#### Farm Slaughterers

Many farmers in the Charlotte District (which includes Macon county) who have slaughtered meat to sell in previous years have so far failed to register for new slaughtering permits now required by OPA, District Director L. W. Driscoll said yesterday. The deadline for registration is June 30.

Farmers who have not applied to the local War Price and Rationing Board for permits by that time will not be allowed to slaughter any meat for sale, nor have such meat slaughtered for them for sale, Mr. Driscoll explained.

Any resident farmer who sold or transferred no meat, or not more than 400 pounds, during the 1944 base period may secure a permit to slaughter and sell up to 400 pounds during the next year. Those who slaughtered for sale or transfer more than 400 pounds but less than 6,000 pounds will be given a quota based on last year's record.

#### New Tires For Some Farmers

Farmers who have converted passenger cars to farm use are eligible for new tires, if farm-

implement tires cannot be used, and no suitable used tires are available, OPA announces.

Examples given were "peach flats" and similar converted vehicles, which Mr. Driscoll said are essential in maintaining our peak food production.

#### More "Long Handles"

The recently announced OPA-WPB program to step up production of men's and boys' heavyweight knitted underwear should bear results in plenty of time for this coming winter's wearing.

Designed to achieve production in the July-September quarter equal to the same quarter's production in 1943, the plan provides for weekly reports by manufacturers of current production figures, with monthly production goals set by WPB.

#### Shoes Get Another Holiday

Approximately four and a half million rationed shoes will be sold without stamps during a three week "odd lot" sale in July, OPA officials in Charlotte predicted.

The "ration holiday" extending from July 9 through July 28, allows dealers to sell certain odds and ends and broken sizes, which accumulate after every selling season, without requiring ration stamps. Such odd-lot shoes must be sold at prices at least 25 per cent under the June 1, 1945 price, according to OPA.

"With our national supply of shoes in such a critical condition, we cannot afford to have wearable footwear gathering dust on dealers' shelves," District Director L. W. Driscoll explained. "This ration-free sale affords a chance to get these shoes where they're most needed—on the feet of Americans."

He estimated the release would include about 1,400,000 men's shoes and approximately 3,100,000 women's shoes. No children's shoes are included because normal sales have been so great that no surplus has accumulated, he said.

#### More Of America's Favorite

June Dairy Month this year has an added meaning to those millions of persons who crave a dish of ice cream on a hot summer day. Restrictions on manufacturers have been lifted to permit a moderate increase for this month.

Ordinarily, during the war-time emergency, manufacturers

### Woods Workers Are Seriously Needed

Transfer of American combat forces from Europe to the far-flung fighting fronts in the Pacific will present the greatest problem in logistics in the history of warfare, says Dean I. O. Schaub, State Extension Director at State College and chairman of Gov. Gregg Cherry's emergency committee on Forest Products Production. "To do this job with speed and efficiency we will require vast supplies of containers made from pulpwood and millions of board feet of lumber for crating and dunnage," he explains.

"The magnitude of the task is indicated by figures relating to the shipment of supplies to the war fronts in 1944. Some 42,000,000 containers made from pulpwood went forward every month carrying food, munitions, and supplies overseas. That is more than a million containers a day. Lumber in millions of board feet went into ships, barges, engineering timbers, as well as dunnage and crates, to enable our troops to fight on to victory with no let up in supplies of vital material.

"Production of pulpwood and saw logs is still behind schedule in North Carolina. Our goal is 850,000 unit cords of pulpwood and 1,600,000,000 board feet of timber in 1945. To get this production, more men are needed in the woods right now to cut, haul, and load pulpwood and saw logs. Anyone engaged in a non-essential job should seriously consider acceptance of one of these jobs and apply at the local office of the U. S. Employment Service. The man cutting pulpwood and saw logs is making a real effort to speed the day of final victory over the Jap," Dean Schaub says.

are allowed only 65 per cent as much milk and cream for ice cream as they used during the corresponding months of 1942. For June this year, this allowance was raised to 75 per cent of the amount used in June 1942.

Sacrifices which civilians are making release more ice cream to America's fighters. Last year the Navy provided each man over seven gallons of ice cream—or more than twice the amount eaten by the average civilian in normal times.

### Soldiers Enjoy Sweet Potatoes From N. C.

Sweet potatoes from North Carolina will play an important part in the diets of Pacific G.I.'s this year.

Approximately 2,400,000 bushels of sweet potatoes will be dehydrated in 1945 to produce 20 million pounds for overseas shipment, according to the War Department.

One of the most popular items on menus for the military forces, the potatoes are served about every tenth day in baked, candied or glazed form, according to the Quartermaster Department.

First tests on dehydrated sweet potatoes were made early in 1942, scientists of the American Can Company being asked to work with the Quartermaster Department on various problems of packaging. The potatoes are packed in five-gallon cans specially coated for overseas shipment.

Indicative of the space saving accomplished by dehydration, officials of the Quartermaster Department say that seven and a half pounds of dehydrated sweet potatoes will serve 1000 men, whereas about one bushel of the fresh potatoes would be required for the same number.

#### NOTICE OF SALE In the Superior Court Before the Clerk

North Carolina,  
Macon County.

GLADYS JENNINGS and husband, JAMES E. JENNINGS vs.

WEAVER GIBSON and wife, FRANCIS GIBSON; THOMAS ALLEN and wife, EVA ALLEN; DEWITT ALLEN and wife, LULA ALLEN; SCOTT ALLEN and wife, EVA ALLEN; LAURA PAINTER and husband, DOYLE PAINTER; JOE HURST, husband of ELLIE HURST, deceased; MARGIE LEE ELMORE and husband, THEODORE ELMORE; EULA MASON and husband, GEORGE MASON; J. E. HURST; AILEEN HURST; CLAUDE HURST and CARROL HURST.

Under and by virtue of an order of the Clerk of the Superior Court of Macon County, North Carolina, made in the above entitled proceeding, the same being number 2363 upon the civil issue docket, the undersigned, commissioner will, on the 20th day of July, 1945, at

12:00 o'clock, noon, at the courthouse door in Franklin, North Carolina, offer for sale to the highest bidder for cash, the following described lands, to-wit:

1st TRACT BEGINNING on a stake on the north bank of Coween Creek in M. A. Raby's line, running east with the creek to P. R. Rickman's line; thence north with said P. R. Rickman's line to the big road; thence west with the road to Kerley's line; thence south with the said Kerley's line to the beginning. Containing 20 acres more or less. There is excepted from this description 5 acres heretofore sold to Scott Allen.

2nd TRACT BEGINNING on a white oak and runs west 43 poles to a post oak; thence south 18 west 68 poles to a post oak; thence east 75 poles to a stake in P. R. Rickman's line; thence north 11 east 28 poles to a small post oak; thence north 14 west 40 poles to the beginning. Containing 20 acres more or less.

3rd TRACT BEGINNING at a white oak, Rickman's and Joh Allen's corner and runs north 13 west 63 poles and 2 links to a stake and pointers on top of a ridge in the J. T. Gibson line; then south 70 1/2 west 17 1/2 poles to a hickory; then south 33 west 3 1/2 poles and 5 links to a pine (now down); then south 5 west 49 poles to a black jack in said Allen's old line;

then east 40 poles to the beginning.

4th TRACT BEGINNING at a white oak, John F. Allen's beginning corner, and runs north 6 east 71 poles to a stake on top of Sheep Knob and in the Cowee Mountain School line; thence north 76 west 13 poles to a stake; then south 72 west 6 poles to a stake, John F. Allen's corner; thence south 13 east 63 poles to the beginning. Containing 3 acres and 109 poles.

There is excepted from the second and third and fourth tracts approximately 19 1/2 acres heretofore deeded to J. C. Gibson as evidenced by a deed from J. F. Allen to J. C. Gibson, registered in Book HH, page 541 records of deeds for Macon County, North Carolina. This the 20th day of June, 1945.

T. D. BRYSON, Jr.,  
Commissioner.

Sanitary methods in handling milk and prompt cooling will help reduce losses from sour milk, caused by bacteria converting the milk sugar into lactic acid.

Plans are being made for 15 schools in different sections of North Carolina during the first half of August for the study of Mastitis, a disease of the cow's udder. All milker should attend.
