ALLEN TO HEAD THEATRE IN '48

Season's Plans Taking Shape As Director Is Named

Ralph Mowbray, president of the Highlands Community Theatre, has announced the appointment of Fred Allen as director for the coming summer season. Arthur Little, former director, was unable to continue this summer, due to the pres-

sure of his work in dramatics at Earlham college.

Mr. Allen is well known to patrons of the Highlands Community Theatre, having been connected with it from the beginning. Each year he has appeared in an acting capacity in leading roles and has always been an important factor in the success of the productions. For several years past, Mr. Allen has been a student in dramatics at the College of William and Mary, specializing last year in stage-craft and production.

With the appointment of Mr. Allen as director, the plans of the Theatre are taking definite shape, Col. Mowbray said.

The board of directors has laid out a program for three plays to be given late in June, July, and August, and hopes that each play may be given in some neighboring town after its appearance in Highlands. The first production will be "Dear Ruth", which will be cast entirely from local talent.

Those interested in the Highlands Community Theatre project are looking forward to an interesting and successful season, the president said.

Anniversary Of Air Mail Is Observed

The Highlands post office is joining with thousands of other post offices over the country in the observance of the 30th anniversary celebration of United States air mail service May 15 to 21.

According to Postmaster Charles C. Potts, the country had only 218 miles of air mail routes on June 15, 1918, and today the success of the original 218-mile route is proved by a network of 130,000 miles in the United States; with a foreign air service that reaches into every country on the globe. Mr. Potts added that, on the basis of a survey conducted by the Post Office department, social or personal correspondence accounts for 70 per cent of letters going by air; that business houses are employing air mail facilities on an ever-increasing scale, and that last year alone an estimated 800,000,000 letters were flown throughout the country.

This air mail celebration, Mr. Potts said, is a community affair in which each citizen can take part; the entrance fee being a five cents air mail stamp for his letters; air mail stationery may be purchased anywhere, and "via air mail" stickers can be had at the post office for the asking, both of which are a help to the post office personnel in expediting air service.

Highlands Rotary club, the American Legion, and the Highlands School theatre are doing preliminary work toward the observance of air mail week with talks and slides.
