Cab Driver

Tacks Under Tires

Joe Angel, Franklin taxi driver, last week was charged with "attempted malicious injury to personal property," after an un-identified person reported see-ing him place tacks under the tires of an automobile parked in a "reserved" taxi zone January 29.

Investigating officers, C. N. Byrd, state highway patrolman and C. D. Baird, Franklin chief of police, said tacks, pushed through squares of stiff rubber so they would stand upright, were found under the left front and right rear tires of an automobile parked in the area at the side of the court house. The automobile was owned by C. L. Campbell, of Route 3, Frankin.

Angel admitted that he plac-ed the tacks under the tires, the officers said, but gave no reason for his actions. A sworn statement was obtained from the person who reported the incident and will be introduced as evidence when the case comes up in court, they said.

Although a number of signs say to the contrary, there are no "reserved areas" in Franklin for taxis, the chief of police said. Parking areas at the lide of the court house and on the town square are public property and no areas are reserved for taxi stands.

Health Officer Moves To Stop Spread Of Disease

A county-wide rables quarantine has been invoked by Dr. Carl C. Janowsky, district health officer, as a measure to combat outbreaks of rabies in a number of Macon County communities, and to prevent the spread of the disease into other areas.

All dogs are required to be confined, in accordance with the Public Health laws of North Carolina, to the premises of the owner for a period of 90 days, the doctor said. However, a dog may leave the premises on a leash or under the control of its owner or a responsible per-

The birthday calendar is a fund raising "adventure in friendship", he said, and large percentage of the mone collected will be used by the Lions to purchase new ments for the Franklin band. "The birthday calendar idea

is something entirely different,' he pointed out, "because people who contribute actually will be on the receiving end when their birthday rolls around."
The calendar is just like an

On a person's birthday, providing his or her name appears on the calendar, the celebrant is entitled to a number of free girts from merchants who have contracted advertising space on the calendar. Each birthday listing will cost
