OLD HOUSES NEVER DIE—The ancient dwelling shown above, had it been capable of speech, probably would have related much of the forgotten history of Macon County. The past tense is used, because the structure, built by Capt. William Siler in 1822 for his bride, has bowed out to make way for a modern house. It was entirely hand constructed by Capt. Siler and an Indian named Billie Peckerwood. The mammoth logs used in its construction, remarkably preserved, still bear axe marks. Built when this county was nothing but wilderness, and truly a pace setter for other houses, the Siler home was the first in this area to have glass windows, and it is believed to be the first two-story home in the county. The house remained in the hands of Siler descendants until it, and land in the Cartoogehaye section, was purchased by Dr. Frank M. Killian a few years ago. The ancient landmark just recently was razed and a new building will soon be going up on the site. However, Captain Siler's hand-made furniture, truly a work of art, is still within the Siler clan.

Mrs. Carrie Henry has returned to her home on Ellijay after visiting her daughter, Mrs. Alice Keener, on Ledford branch for several days.
Mrs. Gracie Peek has been visiting relatives in Western North Carolina. Week-end before last she was visiting "Aunt" Lizzie Rogers. Mrs. Peek spends her winters in Charlotte with her son, R. M. Peek, and Mrs.

Peek.

Pfc. James A. Mashburn, of Fort Bragg and Mrs. Mashburn, of Raleigh, spent the week-end with Pfc. Mashburn's mother, Mrs. Fay Mashburn. Our winding roads and scenic areas gave Mrs. Mashburn many series of chills and thrills as it was her first visit to the mountains.

Mrs. Fanny Keener is visiting her granddaughter, Mrs. T. B. Hedden, and Mr. Hedden, at Cullasaja.

Production of winter cover crop seeds set a new record in 1950.

Hybrid queens, one of the newest developments in the bee business, are now being tested on several North Carolina farms. They show much promise in producing the type of bee that will store plenty of honey and not be too hard to handle.

HOME OF ADVERTISED LINES

THESE folks are enjoying something that's being pioneered by Buick.

It's freedom from the blinding glare of bright summer sunlight.

It's freedom from hot laps—caused by the sun's rays beating down through the broad expanse of windshield.

These freedoms trace to a new feature you may have noticed in '51 Buicks—a new kind of glass† with a cool, soft, blue-green tint, in every glass area of the car, front, side and back.

Buick engineers tell us that this "Buick first" reduces glare 18% over conventional glass—cuts sun heat as much as 45%—and Buick engineers are very conservative fellows.

†Optional at extra cost—available on most models. (Not presently available in California and Massachusetts.)

This glare-and-heat-reducing Easy-eye glass is factory-installed at moderate extra charge. It gives you a built-in transparent "sun visor" right in the windshield—and it also dulls the dazzle of oncoming headlights at night.

As we've said, this is something Buick owners were the first to enjoy. It takes its place with such exclusives as the valve-in-head Fireball Engine—coil springs on all four wheels—the firm power linkage of torque-tube drive—and the magic of Dynaflo.*

As we've also said—rather modestly—"Smart buy's Buick."

Come in soon and find out what an understatement that really is.

Equipment, accessories, trim and models are subject to change without notice. *Standard on ROADMASTER, optional at extra cost on other Series.

NO OTHER CAR PROVIDES ALL THIS:

- DYNAFLOW DRIVE* • FIREBALL ENGINE
- PUSH-BAR FOREFRONT • WHITE-GLOW INSTRUMENTS • 4-WHEEL COIL SPRING
- TORQUE-TUBE DRIVE • DUAL VENTILATION
- DREAMLINE STYLING • BODY BY
