Experts agree that fresh coffee, ground exactly right for the way you make coffee, gives you better flavor. Homemakers evidently agree, because the coffee that outsells any other offers "Custom Ground" service. There is no extra charge for this, either. In fact, compared with "factory ground" coffees of like quality, this American favorite offers substantial savings. What coffee is it? Superb A&P Coffee—the coffee of magnificent flavor. Try it! You'll agree with the experts—Custom Ground A&P Coffee does taste better.

"SELECT REALTY SALES"

The property I offer on this market for sale is approved and accepted by me, as something with appeal that should sell at the price.

With no reflection to property owners, many of them do not know how to price their real estate to make it sell. Therefore, you do not save anything by buying direct in most cases. If I were not in the business, I would not know how to price my own property to sell it, and would call in an active broker for his views.

If you want "mountain real estate" from Cabin Homes to Modern Estates, I will enjoy taking you around and acquaint you with the type real estate that is selling, and recently been sold. This way, you will know a little about the market price, which you should know before you buy anything in real, or personal property.

It is my training, and business to help both the property owner and buyer, and I have enjoyed doing this over a period of Years with all Sincerity.
