

2-DAY BAPTIST SESSION OPENS THIS MORNING

Will Move To Watauga Church For Final Session

The forty-eighth annual session of the Macon County Baptist association will open today (Thursday) at the First Baptist church and tomorrow will move to the Watauga Baptist church for an all-day meeting.

This year's event marks the first year the association, the largest church group in the county, has met at two different churches. J. Horner Stockton, moderator, will preside.

Highlights of the session will be a doctrinal sermon this morning at 11:30 o'clock by the Rev. M. W. Chapman, pastor of the First Baptist church, and a missionary sermon Friday morning at 11:15 by the Rev. W. L. Sorrells.

Reports on various church activities will also be given, including addresses by Dr. W. K. McGee, director of the department of religion at Baptist hospital, and Dr. Earle L. Bradley, who will speak on the highlights of the state convention.

Wiley Bryson, of Franklin, shows off a 10-pound catch of bass he pulled out of Lake Chatauge recently. The big one tipped the scales at seven pounds and the smaller at three. A Bomber did the trick!

Farmers Use Twice Oil-Driven Horsepower That Factories Do

No. 4

ATLANTA—American farmers this year will use twice as much oil-driven horsepower as the total such power consumed in the nation's factories, according to T. E. Horton, southeastern district chairman of the Oil Industry Information committee.

He reported that tractors, engines, and trucks on farms now reach a new record of 178,000,000 horsepower. This recent estimate by the U. S. Department of Agriculture is about twice the amount of oil-driven power consumed in factories annually, he said.

If farm automobiles are included in the total, the mechanical energy put to labor-saving work on farms will exceed all industrial power consumption many times over, he noted. Mr. Horton pointed out also that the number of farm automobiles exceeded the number of horses on the farms in 1950 for the first time in history.

for \$100, and the Union property to the Union Methodist church for \$300.

A bid of \$100 for school property on the Georgia road, submitted by Mrs. Ada Hyatt, was turned down since property cannot be sold to individuals.

Board member J. C. Sorrells was authorized to work with representatives of the Cullasaja community in making estimates and plans for building a lunch room at the Cullasaja school. A delegation from the community, headed by C. Tom Bryson and Lacy Harper, president of the Cullasaja P. T. A., asked the board to act on the matter.

The board accepted Don F. Watson's low bid of \$7 per hour for grading at the new Highlands school, and a low bid of \$7.90 per hour, submitted by Howard Stewart, for grading on the sites of the new Franklin High and East Franklin elementary schools.

A delegation from the Nantahala community reported to the board that the children at the Beechertown school would not be able to attend Nantahala school this year as planned, since the road from Beechertown would not be safe for school bus travel. It was recommended that the children attend school at Andrews for another year.

N. L. Dudley, Jr., state health department district engineer, inquired if the board was going to adopt an approved program for sewage disposal for the schools, and he was assured by board members that such a program would be put into effect as soon as possible.

Other actions taken by the board were, naming Mrs. Carolyn Nall to fill a teacher vacancy at Highlands; consolidating Sealy school with Highlands; and appointing Mrs. Pauline Cable, who has been teaching at Nantahala, to a position in the Cullasaja school.

P. T. A. WILL MEET

Lacy Harper, president of the Cullasaja Parent-Teacher association, has called a meeting of the association at the school Tuesday evening at 8 o'clock. Plans for a lunch room will be discussed, he said.
