Pullets seldom mature evenly and for this reason the ones that start laying first should be housed together and the immature ones left on range, say poultry specialists at State college.

Lt. Horsley Receives Wings At Craig Field; Spending Furlough Here

Lt. James C. Horsley, Jr., of Franklin, received his wings as a fighter pilot August 4 at Craig Air Force Base, Selma, Ala., and is now spending a 30-day furlough here with his parents, Mr. and Mrs. J. C. Horsley.

Cover crops in Southern states are effective means of getting increased production per acre, says the U. S. Department of Agriculture. Each additional acre of properly grown legume cover crops planted in the fall and turned under in the spring could mean as much as 25 to 50 per cent more production of corn, cotton, or other needed crops grown on that acre in 1952.

About 95 per cent of the home demonstration club women of Clay county already have started fall gardens.

They Like it a Million!

Last week Buick set a proud record. The millionth Dynaflo Drive* was delivered to a happy owner.

That's a new peak in popularity for modern drives which take you from a standing start to any cruising speed desired with a smooth, unfaltering swoop of power.

"The biggest advance since the self-starter" is what the motorwise press called this Buick development back in 1948—and now a million owners can tell you how right that proved to be.

Here, they found, was a basically different way of delivering power. It was the first drive to get completely away from any gears which function

in a series of fixed stages—the first to apply supercharging principles that did new tricks with spinning oil.

And how folks loved it!

They loved the freedom from strain in traffic. And the new "sweetness" of ride which every passenger could enjoy.

They loved the command it gives them of every traffic situation—and the relaxation it contributes to a long day's drive.

They loved its extra safety in slippery going, and the improved control in mud and snow.

As they piled up experience, they

loved the unexpected savings of rear tire wear and the reduced strain on all driving parts, from engine to differential.

And finally—they loved what it does for the value of a Buick, as reflected in the extra dollars that Dynaflo* adds to the resale price of a car.

Have you sampled this driving sensation?

There's no time like the present for discovering the thrills that more than a million Buick owners already know.

Equipment, accessories, trim and models are subject to change without notice. *Standard on ROADMASTER, optional at extra cost on other Series.
