**County** - Wide Methodist School Will Open Here Sunday

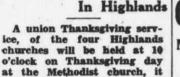

A county-wide training school for men, women, and church youth of Macon Methodist churches is set for Sunday youth through Wednesday of this week at the Franklin Methodist church.

Church officials have announced that special courses will be offered each evening at 7:30 o'clock, under the sponsorship of the Conference Board of Education and churches in the Franklin area.

A special course for adults will be taught by Charles W. Phillips, of Greensboro, widely known in education and church circles.

Mrs. Robert E. Early, of Highlands, will conduct a Bible course for workers with nursery, kindergarten, primary, and junior children. The Rev. R. Delbert Byrum, of Murphy, will give a course on "What it means to be a Christian".

Mrs. Corbin, **Once Home**

Franklin's new well, completed November 7, is pumping more water per minute than the town's other four wells combined, town officials report.

After the Virginia Supply and Well company finished drilling operations, a 36-hour pump test showed that the 300-foot well was producing approximately 200 gallons of water per minute. In April of this year, when a thirsty Franklin was almost to

the point of counting its water supply by drops, the four old wells were able to muster up only 7,608,500 gallons for the month. At 200 gallons per min-

The new well is near the Lit-tie Tennessee river, behind the Friendship Tabernacle. The town leased the 25 by 25 foot tract from Herbert Angel in September, after the site had

been approved by a state geo-logist and a health officer. Solid rock was struck at 69

feet, and piping was not need-ed from that point on, the drilling crew reported.

When coupled with the old Mrs. Corbin, who returned to wells, town officials expressed Franklin to live in 1949, after the opinion that Franklin's 600 water consumers will be amply supplied for the next three on

four years, at the least. Rapid population growth within the town limits in the

past 10 years has put a heavy drain on present facilities.
