**LAND EXCHANGE NOTICE**  
Mrs. Ethel Brown has applied for exchange under Act of March 3, 1925 (43 Stat. 1215), offering 80 acres of land in Macon County, North Carolina, on the waters of White Rock Branch of Tennesse Creek, adjoining national forest lands and the lands of J. Carpenter, in exchange for not to exceed an equal value of national forest timber on Cane Creek, Holly Branch and Ammons Creek of

Chattooga River, Macon County, North Carolina.

Persons claiming said properties or having bona fide objections to such application must file their protests with the Regional Forester, U. S. Forest Service, 50 Seventh Street, N. E., Atlanta 5, Georgia, before October 10, 1953.  
S10-4tc-O1

**EXECUTRIX NOTICE**  
Having qualified as executrix of estate of George Sandifer Kinney, deceased, late of Macon County, N. C., this is to notify all persons having claims

against the estate of said deceased to exhibit them to the undersigned on or before the 28 day of August, 1954 or this notice will be plead in bar of their recovery. All persons indebted to said estate will please make immediate settlement.

This 28 day of August, 1953.  
SARAH SANDIFER OATES  
Executrix  
Hendersonville, N. C.

**NOTICE OF SALE**  
NORTH CAROLINA  
MACON COUNTY

WHEREAS, in the opinion of the Macon County Board of Education the following described real estate is no longer necessary for school purposes:

NOW, THEREFORE, under and by virtue of G. S. 115-86, the Macon County Board of Education will at the County Court House door in Franklin, North Carolina, at 12 o'clock noon, on Monday, October 12, 1953, offer for sale to the highest bidder for cash the following described tract of land, to-wit:

BEGINNING on a stake, the Southwest corner of old survey No. 10, and runs East 209 feet to a small black oak at the corner of the field; thence North 209 feet to a stake; thence West 209 feet to a stake in Wm. Penland's line; thence South to BEGINNING, containing one acre, more or less, and being all the land described in a deed from A. J. Henson and wife to C. M. Luther, et al, dated October 23, 1883, and registered in the office of the Register of Deeds for Macon County, North Carolina, in Deed Book S, page 423.

The successful bidder will be required to deposit at the time of the sale the sum equal to 10% of his bid, and if he should fail to do so said property will be immediately resold.

This the 10th day of September, 1953.

MACON COUNTY  
BOARD OF EDUCATION  
By J. C. Sorrells, Chairman  
S17-4tc-O8

**Korean GI Bill Deadline Is Less Than A Year Off**

The deadline for starting training under the Korean GI Bill is less than a year away for nearly 1,000,000 Korean veterans, the Veteran Administration has announced.

The veterans are those who served since Korea, who were discharged or separated before August 20, 1952, and who have not yet taken advantage of the GI training benefit.

Under the law, they actually must "enroll in and begin" GI training by August 20, 1954, in order to continue afterwards. The mere filing of an application beforehand, with an intention of starting some time after that date, is not enough, VA said.

VA emphasized that the 1954 cut-off date applies only to post-Korean veterans who left service before August 20, 1952. Those separated after that date need not concern themselves with the 1954 deadline. Instead, they have two years from the time they left the armed forces in which to get started.

Generally, a veteran is expected to be in the classroom or at the training bench when his GI Bill cut-off date comes around, if he wants to continue beyond that time. But so long

as he started before the deadline, there will be no objection if he's not actually in training on the cut-off date because of the normal summer vacation, or for other reasons beyond his control, or for circumstances that VA deems to be excusable.

In fact, he even has the right to suspend his GI training for as long as a year—with part of the suspension coming after the cut-off date—and still be permitted to resume training afterwards. If he does so, VA will consider that his failure to be in training on the deadline date was for an "excusable reason." The veteran will not be required to account to VA for his absence.

But if the suspension lasts for more than a year, the veteran will have to show VA that the absence in excess of 12 months was caused by conditions beyond his control. In this case, he must have VA's approval before he may go on with his Korean GI Bill studies.

VA said that these cut-off date rules and regulations apply only to veterans training under the Korean GI Bill. They have nothing at all to do with those in training under the World War II bill.

**W. W. Sloan Is Chairman Of Committee**

W. W. (Bill) Sloan, of Franklin, has been appointed by the University of North Carolina as Macon County Morehead Scholarship chairman, succeeding Weimar Jones, resigned.

Other members of the Macon County committee are Mrs. F. H. Potts, of Highlands, and Victor H. Perry, of Franklin. Members of this county's committee and representatives of committees from other counties in this area met with R. A. Fetzer, executive secretary of the Morehead Foundation, for a six-county conference to plan the year's work, at a luncheon at River Rock Inn here Wednesday of last week.

The Morehead Foundation offers four-year scholarships amounting to \$1,250 per year, to the University of North Carolina for a few outstanding male high school graduates each year, and the responsibility of the county committees is to select nominees.

While the county committee's primary purpose is to find Morehead scholars, the search is expected to result in the awards of many other University scholarships. Students who are outstanding, but who fail to qualify for Morehead scholarships, are brought in touch with the University, and thus become available for lesser scholarships.

Last year, for example, the first for the county committees, no Macon student won a Morehead scholarship, but two Macon students considered by the county committee were recommended for and were awarded other University scholarships. The two are Jack Kusterer and Jack Love, both of Franklin.

**Macon Farmers Preparing For Winter Feeding Stock**  
By S. W. MENDENHALL (County Agent)  
Farmers of Macon County are doing an excellent job of preparing for winter feeding.  
T. T. Henderson, of Cullasaja, has built a brick silo; Woodrow Gibson, of Cowee, has dug a trench silo; J. B. Henson, of Hickory Knoll, has built a concrete block silo; Garland Bate-man, also of Hickory Knoll, has built a trench silo; W. C. Burrell, two brick silos; E. J. Brad-

ley, of Iotla, a brick silo; Gilmer Jones, a trench; Charlie Sutton, George Doster, Siler Slagle, Ed Duvall, Crawford brothers, A. B. Slagle, and Gilmer Henson have added to their silage capacity.  
Twenty-five silos have been constructed during 1952 and 1953. There are now nearly 100 silos in the county. Different crops are being used for silage. Corn is the principal crop but sudan and soybeans, ladino and orchard grass, cane, and a small grain mixture are being used. E. J. Bradley refilled his silo early this summer with a mixture of wheat, oats, and barley. This silage held his milk production up during the dry weather in June.  
Speaking of weather, the long time prediction is that rainfall will be below normal again next year. A mixture of small grain seeded this month can be used for winter grazing and converted into hay or silage next spring for mighty good dry weather insurance. This will also help winter cattle if there is a shortage of hay. Cut your corn and when it is dry run it through a shredder or silage cutter. Cattle will eat at least half of this. The remainder is mighty good bedding. This land should be seeded to a cover crop. Too much of our corn land is bare during the winter. Both pastures and alfalfa will go through the winter better if too much growth is not left. However, this does not mean to graze into the ground. Farmers are asked to report to the county agent's office if you have one and one-half acres of improved pasture per animal unit on your farm. You are also asked to report if you have corn that you think will yield 100 bushels per acre.

Now is the time to start breeding your milk cows artificially. Cows bred during September, October, and November, will freshen in July, August, and September. This is when the dairymen are in the market for fresh cows. Also the buyers from Florida are looking for heavy springers. Artificial breeding is rapidly increasing. Bill Higdon bred 93 cows in July and 93 in August. You can be sure that a heifer-sired artificially, with proper feed and care, will give more milk than the dam. Our dairymen are getting from eight to 10 thousand pounds of milk from artificially sired cows. Are you getting this much from yours?  
Breeding is important now more than ever before in our beef cattle. Beef cattle are being sold on grade more than ever before. A poor quality bull will sire poor quality calves. As Bob Taylor said just this week, this can mean the difference between profit and loss. Bob had just sold some steers for
