Ford presents two new deep-block engines

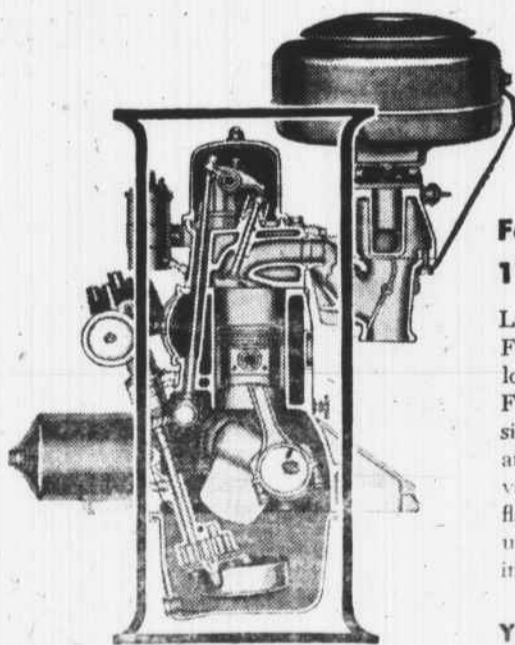

Ford's new 130-h.p. Y-block V-8

This brand new Overhead-Valve V-8 has an extra-deep block which resembles a "Y" in cross-section. This new deep-block design means greater rigidity for smoother, quieter performance . . . longer engine life. Other features which make this engine a long-lived, smooth, savingful performer are: new low-friction (short-stroke) design, Free-Turning Overhead Valves, new 5-bearing crankshaft, and new high-turbulence combustion chambers.

Check the extra dividends in the '54 FORD

Your Ford Dealer invites you to inspect and Test Drive Ford's new dividends for '54. You'll find new, smooth-riding, easy-handling Ball-Joint Front Suspension . . . a new, stronger frame . . . 5 optional power assists . . . beautiful new styling, inside and out. They're all reasons why Ford's the one fine car in the low-price field.
*Available at extra cost.

They're the industry's most modern engines with free-turning Overhead Valves and integral valve guides . . . high-compression, low-friction design . . . and extra deep-skirted crankcases. Both engines are designed for long life with smooth, economical performance.

Ford's new 115-h.p. I-block SIX

Like the new Y-block V-8, this engine has Ford's deep-block design for greater rigidity, longer engine life. Also, like the V-8, you get Ford's modern manifolding, low-friction design, high-turbulence combustion chambers, and Ford's Automatic Power Pilot. One advantage of both new engines is an amazingly flat "torque curve" which gives you top pick-up power through the whole range of driving speeds.

You are cordially invited to come in and Test Drive the
