THE MORE YOU KNOW — the easier will be the job of cleaning hard surface floors. Know the characteristics of the floor surface material. Keep the floors clean. Use water, soap and detergent sparingly on hard surface floors. Remove spots quickly. Use floor sealers correctly. Avoid using oil on floor surfaces. Use the right floor cleaner. Choose the right floor wax and use it correctly. Maintain a good floor finish.

USE ELECTRIC POLISHER — Polishing floors by hand is long and tedious, and the homemaker finds it burdensome even though she appreciates the beauty and

Small Still Destroyed

A small 20-gallon still, "mashed back" for a run, was destroyed by Sheriff J. Harry Thomas and Deputy Newell Pendergrass on the head of Ellijay near Jackson County line June 2.

The unit was not in operation and no arrest was made, the sheriff said.

In addition to the copper unit, the officers dumped about 250 gallons of mash and smashed other distilling equipment.

Sheriff Thomas said the mash would have been ready for a run in about two days.

Q. I can't dry my cow up; what can I do about it?

A. You're lucky to have such good milkers, say Blalock, but they should get a normal dry period. On heavy milkers, reduce feed and water until production drops to about 20 pounds a day and then just quit milking. They'll dry up. If a cow has had mastitis, watch her closely; if inflammation shows, milk her out again.

Q. Can I get a loan to build grain storage?

A. Yes, you can borrow up to 80 per cent of the cost, before erection, through your ASC office.

THIS is a Buick—a 2-door, 6-passenger SPECIAL Sedan.

It packs a walloping 188-hp V8 engine under the hood—is carried on a strapping 122-inch wheelbase—rides with the luxury cushioning of all-coil springing, the solid steadiness of a full-length torque-tube drive, the extra safety and silence of tubeless tires.

It's big and brawny and road-steady and roomy—each seat cushion measures over five feet in width.

Yet this broad beauty—as the price we show here proves—delivers locally for

just about the price of the well-known smaller cars—even below some models of those very same cars.

Buick Sales Are Soaring To New Best-Seller Highs

That, for sure, is one reason why Buick sales go higher and higher and higher. More and more people are finding that you can buy a Buick for the price of a smaller car, so more and more people are getting this bigger buy for their money.

They want the bigger package of sheer automobile for the money that they get in Buick—bigger in power thrill, in roomy comfort, in riding steadiness, in structural solidity.

They want the added prestige and pleasure of owning Buick styling and

size—and the added safety and sureness of Buick roadability and handling ease.

They want, too, the spectacular performance and better gas mileage of Variable Pitch Dynaflow†—easily yours at modest extra cost.

And they certainly want the choice Buick offers of a car in every price range, with each one the buy in its field—the low-price SPECIAL, the supremely-powered CENTURY, the extra-roomy SUPER, and the custom-built ROADMASTER.

Why don't you come in for a visit and see how much real automobile your money can buy here?

†Dynaflow Drive is standard on Roadmaster, optional at extra cost on other Series.
