Legal Advice

The local super market is hardly the place you'd expect to find competent legal advice. "Over the counter" insurance information is an equally poor substitute for the personalized, skilled counseling of an independent insurance agent or broker who is free to select the policies and companies best suited to your individual needs . . . and who personally REPRESENTS YOU at the time of a loss.

Otto Group Plans Effort To Bring Industry To Area

By MRS. W. M. FARRISH (Community Reporter)

Otto is going to make an effort to obtain industry for this section. A motion to this end was passed by the community organization at its February 10 meeting at the school.

Tom Alley, Robert Stewart, and Gilmer Henson were appointed to serve on the industry committee.

As a feature of the evening's program, Mrs. Mabel Swan and James G. Flanagan, extension assistant agents, spoke. Mr. Flanagan explained the Social Security program for the farmers and gave a farm outlook for '56 for prices and marketing.

It was Mr. Flanagan's opinion that good farm management is essential under present conditions and that farmers can profit more at this time through conservation of food and materials than in any other way.

Mrs. Swan spoke on "Raising a Square Meal Around the Home," which emphasized the necessity of conservation of food to cut the grocery bill and channel money

for other needed investments. A garden project for the 4-H club boys and girls will be discussed at the next meeting. Mr. Flanagan said a \$50 award will be given for the best garden grown by a club member.

Bryant McClure presided in the absence of the president, Gline Holland.

Thirty were present for the meeting.

Ranger Cautions About Burning In Fire Season

By J. FRED BRYSON County Ranger

The spring fire season (Feb. 15-June 1) is here, and unless Maconians are very careful when burning brush, the county may lose its good record in forest fire prevention.

Fire prevention is a big business and unless it is handled properly, our natural resources can go up in smoke.

Our timber is a crop, a valuable crop in many ways, not only in dollars and cents, but in pleasure and recreation. It's everyone's responsibility to keep it green and growing.

Timber must be treated as a crop if we wish to harvest it.

An average of seven babies are born every minute of the day. One baby born today creates a lifetime demand for at least 15 tons of paper — a product of the timber crop.

Paper mills must expand and double output over the next 20 years, but where is that wood coming from if we don't boost the timber growth and output?

For information on how to increase timber crop, Maconians may get in touch with the Service Forester, Box 936, Sylva, N. C.; or see me personally.

Cpl. Moses On Army Exercise Held In Germany

Cpl. Andrew Moses recently took part in the field training exercise held by the 4th Infantry Division in Germany, according to the Army Home Town News Center.

Son of P. N. Moses, of Franklin, Route 5, he is a squad leader in the Provisional Battalion's Heavy Mortar Company of the division's 8th Infantry Regiment. He entered the army in March, 1954, and completed his basic training at Fort Jackson, S. C. He has been in Europe since August, 1954.

Pfc. Moses' division is part of the 7th Army.

A total of 53 counties participated in last year's North Carolina "County of the Year" in rural progress contest, which was won by Ashe County!
