By MRS. JESSIE D. CABE
(Assistant Agent)
The district winner of the individual dairy foods demonstration was Helen Cochran of Macon County. Helen is the daughter of Mr. and Mrs. Homer Cochran of Route 1. She has written the following highlights of her demonstration as a summary for "June Dairy Month" and will enter the state finals in July:
"Recently I have been giving dairy foods demonstrations in the form of parties and since this is 'June Dairy Month' I have had the guests 'promenading' with cottage cheese.
"What were the refreshments served at your last party? I'll bet they were cake, cookies, and maybe some chocolate candy. Well, I decided to be different and serve refreshments made from cottage cheese, because milk is the chief ingredient in these wholesome, economical, and easily prepared

1 cup cottage cheese
2 tablespoons butter
1 teaspoon sugar
1/2 teaspoon mustard
1/2 teaspoon salt
1 tablespoon ketchup
1 Teaspoon vinegar
Combine the following ingredients, which do not have to be measured, with the basic recipe:
1. Ground ham and nut meats
2. Sweet pickle relish
3. Chili sauce and curry powder
4. Dehydrated onion soup
5. Dehydrated onion soup, chopped parsley, crisp bacon, and mayonnaise
6. Mix plain cottage cheese with any jam, fresh fruits, or preserves.
Stuff celery strips with a mixture of mayonnaise, cottage cheese, and pimento.
"These spreads can be used on all kinds of crackers, brown bread and can be used as sandwich spreads.
"A big glass of good cold milk makes any food taste better. Unfortunately though, too many people forget that milk is the most essential part of their diet. So, why don't you remember, the next time you have a party, why not serve nutritious milk products instead of so many soft drinks and sweets which aren't nearly so good for your health and complexion."

**Lead fouling is like
a leaky gas tank**

If your gas tank looked like this, you'd get it repaired mighty fast. But when lead fouling does its dirty work under your car's hood you're wasting gas... just as if the tank leaked.
Lead fouling is caused by lead deposits that form on pistons, valves and plugs. And lead deposits come from only one thing, gasoline with tetraethyl lead in it. That's true of any leaded gasoline regardless of its fancy color, fancy pump or fancy name. What's more, no additive in the world can remove these fouling deposits, once they form.
One gas... just one... contains no lead, can never leave a lead deposit. That's Amoco-Gas, the only gas that's all gas. It can all burn, it's all power. 100% POWER! And it guarantees no lead fouling with all the anti-knock power that any car can use. See the difference for yourself when you buy it... Amoco-Gas is clear white. See the difference when you use it... a mileage record you can brag about!
