## Funeral Services Conducted For Potts, Former Alderman

Funeral services were conducted Wednesday of last week (July 18) at the Highlands Baptist Church for John Edwin Potts, a former alderman, who died of a heart attack on the 17th at Highlands Community Hospital.

Born in Franklin, Mr. Potts was well-known over the county. He was the son of the late Rev. William T. Potts and Mrs. Martha Jane Ammons Potts. Two years ago he retired from Potts Brothers Grocery Store.

Active in civic, church, and town affairs, Mr. Potts was a member of the Highlands Baptist Church and was a deacon for a number of years. He was a past master of the Blue Ridge Masonic Lodge 435 and from the standpoint of membership was the oldest member of the lodge. He was

a trustee of the Highlands Biological Station and was with the U. S. Forest Service from 1915 to 1924.

He served his town in two capacities, as city clerk and as an alderman a total of 18 years.

On February 28, 1908, he was married to Miss Ellie Pierson, of Highlands, who survives.

The Rev. Eugene Walter, pastor of the Highlands Baptist Church, officiated at Mr. Potts' services. Burial was in the Highlands Cemetery. Members of the Blue Ridge Masonic lodge conducted Masonic rites at graveside. Masons also were pallbearers.

In addition to his wife, he is survived by two sons, William R. and Roy F. Potts, of Highlands; four daughters, Mrs. Eva Potts Massey, of Charlotte, Mrs. Mary E. Stephens, of Greenville, S. C., and Mrs. Emma Potts Calloway and Mrs. Margaret C. Nall, of Highlands; five brothers, Frank H., W. Roy, Charles C., S. E., and A. B. Potts, of Highlands; and 12 grandchildren.

## This Week With Macon County Agents

By ROY ISLEY  
(Assistant Agent)

Most Macon county soils are deficient in one or more of the essential plant nutrients which are needed for high forage production. In view of this fact, farmers who are planning to seed alfalfa, ladino clover and orchard grass or any permanent type pasture or meadow this fall should have their soil tested now and make field applications of lime and fertilizer necessary amounts for optimum soil conditions for establishment of the crop.

According to a recent study by the N. C. Experiment Station, additions of lime, phosphate, and potash brought a yield of 6,103 pounds of dry hay per acre. When only phosphate and potash were used, the yield was 2,607 pounds of hay. On plots where lime and phosphate were used the yield was 3,274 pounds, while plots treated with lime and potash yielded only 1,031 pounds. As can be observed, the yield varied from a half ton to three tons per acre from a partial to complete fertilization program.

To find out what your land needs, send soil samples early to the Soil Testing Division, State Department of Agriculture, Raleigh. The laboratory will analyze the sample and return results to the farmer, along with lime and fertilizer recommendations for particular fields, free of charge. Soil sample boxes and instructions can be obtained from the county agent's office in the Agricultural Building.

The question often arises, "What is PH?" Most farmers know that it means sour soil or sweet soil, depending on whether or not the land needs lime. "PH" is just a symbol and means the numerical index or value of acidity. PH is measured by a scale of numbers from 0 to 14, ranging by tenths of a point. Any number below 7.0 would mean a "sour soil" and above 7.0 would be a "sweet soil". The lower the number the more acid the soil and, therefore, the more time it requires to sweeten. The lime should be mixed thoroughly with the soil for best results.

If your soil needs lime, the amount needed will depend on several factors, such as amount of humus, clay content and degree of acidity. Therefore, the best guide in liming is the soil sample report.

The desirable soil PH or lime level varies with the crop being planted in rotation. I am listing below a few of the more important crops. Macon county farmers and their PH requirements for best results:

Ladino clover	PH 6.0 or above
Alfalfa	PH 6.5 6.8
Orchard grass	PH 5.0 5.5
Pescue	PH 6.0
Red clover	PH 6.5
Oats	PH 6.0
Soybeans	PH 6.0
Crimson clover	PH 5.8 6.0
Lespedeza	PH 6.0
Bluegrass	PH 6.0 6.8

### Cullasaja 4-H Club Works, Then Swims

The Cullasaja Community 4-H Club met Tuesday of last week at the home of Mrs. Vernon Bryson. The girls made aprons and fudge and the boys mowed the 4-H grounds and cracked nuts for the fudge.

After the work was finished, the group went swimming.

The next meeting will be a picnic lunch at 1 o'clock on August 7 at the home of Dorothy Bowers.

## Demonstration

### Club Meetings For Week Are Announced

Meeting of home demonstration clubs in this county for the coming week have been announced by Mrs. Florence S. Sherrill, county home demonstration agent. They are as follows:

Tomorrow (Friday): Cowee club at the home of Mrs. Carr Bryson at 2 p. m.

Wednesday: Union club at 1:45 p. m. at Mrs. Charlotte Henderson's Store.

Thursday: Sandtown club with Mrs. Nora May at 2 p. m.

### County Didn't Take Part In Referendum

Macon County did not participate in the wheat referendum last Friday.

Miss Mildred Corbin, office manager of the Agricultural Stabilization Office, explained that no farmers here qualified to cast a ballot. Only farmers with more than 15 acres of wheat for harvest as grain in 1957 were eligible to vote.

North Carolina ranked 14th in ice cream production in the U. S. for 1954.

## TWO CHAMPIONS OF THE ROAD...

both Chevrolets!

To the eye, the new Corvette and the new Chevrolet are far different. But these two champions have one superb quality in common—both were born to cling to the road as though they were part of it!

Chevrolet's astonishing roadability is a big reason why it's America's short track stock car racing champion. It can and does out-run and out-handle cars with 100 more horsepower. When you wed rock-solid stability to superb engines such as the 225-h.p. V8 that flashed the Corvette to a new American sports car record—then you get a real championship combination. Stop by for a sample!

America's largest selling car—2 million more owners than any other make.
