Short corn, tall corn—it's all the same to the Case row-crop unit. Handles sorghums, soybeans, any row crop commonly grown for silage. Shown here pulled and powered by 3-plow high-clearance Model "DC-4" Case Tractor. Runs so light that it works fine on PTO of any good 2-plow tractor, yet has capacity and strength to keep 4-5 plow tractor busy. Can also be supplied with mounted engine. Come in—look it over—ask about both long-cut and standard models.
