**Swafford's Sayin's**  
I'm sorry that so many of you missed my ad last week. You see, I've had a hard time getting my store (and myself) readjusted after Christmas. I don't believe we are back to normal yet. All this counting and figuring for the new year sure does get one's head in a whirl.

I believe that all who have been in my store will tell you that it is the best arranged—cleanest country store they have seen. (I haven't seen others lately.) In order to keep it well stocked and pleasing to the eye—I have to do a lot of work—not for pleasure, but for your shopping convenience.

Many times — while putting out produce and canned stuff or dusting and sweeping — I wonder why I didn't do something else for a living—something easy, like being an inventor. Then, one morning (I wasn't thinking) I started to the barn—before daylight—to milk the cow and feed the pig. Swish (quicker than lightning) —rubber boots and frost-covered grass parted—milk pail, slop bucket and my feet reached about the same level — above my head and body. I've studied about it, and wondered why I couldn't make something that could move quicker than lightning. Well—the other evening it happened — right here in the store. If it works out all right—every industry in the country (as well as housewives) will be benefitted.

Sorry, folks, here comes some customers—I gotta get busy—I'll tell you about it next week.
