## Schools Belong To The People, Says Editor At Meeting Of School, Press

By MISS ESTHER SEAY  
Publicity Chairman  
Macon N. E. A. Unit

"The schools belong to the people. How we solve our school problems today will determine how Maconians will be living years from now. Macon County is a wonderful place in which to live and it promises to be a much greater one in the years to come."

These were the words of Editor Weimar Jones, of The Franklin Press, who spoke last Thursday to a meeting of publicity chairmen from the county's schools and P.T.A.s. He discussed the purpose and background for gathering and reporting news on what is happening in the schools today, and related activities. He told of Press plans to give expanded schools coverage.

"All are interested in what is happening in the learning process," Mr. Jones said. "What are children learning? Why are they learning a certain thing in a certain way? ... We are convinced that our children must have the best education possible, not as Carolinians, not as Southerners, but as citizens of the United States."

"The teachers serve the public. The Press represents the public. Our mutual interest—the child—is the purpose for which our schools were founded," Mr. Jones said.

J. P. Brady, news editor of The Press, cited two reasons why The Press is limited in the coverage it can give the schools. "One limitation is an operational, or mechanical, one (personnel, time, budgets). The other is The Press's obligation to other items of public interest."

"In fairness to everyone, we at times must sidestep the more routine activities in order to give the public thorough coverage on important activities in other fields, like politics and government."

Mr. Brady said "too many teachers take their tasks for granted; yet, the public doesn't realize the endlessness of a teacher's job."

Activities suggested by The Press speakers which are of public interest include enrollments, attendance, new methods of teaching the "tool" subjects, honor rolls, lunchroom activities, and unusual happenings in a child's day.

Mrs. James P. Cunningham, a publicity representative for Cartoogechaye Parent-Teacher Association, said: "Many parents are

not conscious of the time a teacher spends in supervising the child's lunch program, or the time and responsibility connected with bus duty and transportation of children to and from school, or all of the collections of money for various reasons, or the many, many times principals have to be called away from their classes to supervise necessary activities."

The meeting was held in the library of Franklin High School.

At the suggestion of The Press, schools and P.T.A.s have appointed reporters. They include Mrs. Cunningham and Mrs. Martha C. Shields, Cartoogechaye; Miss Elizabeth Meadows, Franklin P.T.A. and Franklin Elementary; Miss Nora Moody, Iotla School; Mrs. Katherine A. Crawford, East Franklin School.

Mrs. Gladys Kinsland, Highlands School; Mrs. Gladys Elmore and Mrs. Lily C. Moody, Cowee School; Paul Sorrells, Franklin High School; Mrs. Quince Shope and Mrs. Ned Teague, Union School; Mrs. Maybur Norton, Cullasaja School; and Mrs. Mary S. Byrd and Mrs. Hazel C. Norton, Otto School.

## Spring Is Just Around The Corner

... the children are thinking of the Easter Bunny and marbles and the end of school. They are also thinking of the warm Summer days ahead and maybe of a brook with fish to be caught, anyway Spring is just around the corner, so watch for our Dollar Day Specials and read our ad carefully next week.

## The Children's Shop

JUST 3 to 5 CWT.  
OF THIS FEED  
(Plus roughage)

can give you  
**1200 to 1500 lbs.  
More Milk per Cow**

Here's Why...

Ag colleges and top dairymen have proved that for every pound of flesh a dry cow gains, she'll give an extra 12 to 15 lbs. of milk her next lactation. 100 lbs. extra flesh on a dry cow returns an extra 1,200 to 1,500 lbs. of milk.

Just 300 to 500 lbs. of "SQ" Dry & Freshening—plus roughage—will do it. Is that a good deal? You bet it is! Cows conditioned on "SQ" Dry & Freshening Feed calve easier, have less udder trouble — and give more milk!

"Researched Feeds for the Southeast"

IT'S LIKE TWO ENGINES IN ONE!

**TRIPLE-ACTION RESERVE POWER!**  
Simply nudge the accelerator beyond the 3/4 mark and you "call out the reserves"! The J-2 Rocket then operates on three dual carburetors! J-2 is available now at a modest extra cost. Try it!

It's the most exciting engine development since the first Rocket was launched!

Engineers have dreamed for years of an engine that combined exceptional horsepower and torque potential with outstanding fuel economy in normal operation.

And today, Olds has it in the new J-2 Rocket.\* You'll find it's like two engines under the hood!

In your day-to-day driving, you enjoy the smooth, alert action of the Rocket—with

the fuel economy of dual-jet carburetion and a 10-to-1 compression ratio. But to meet the exceptional driving situation, just open the accelerator beyond the 3/4 point and two additional carburetors automatically jet into action. There's an instant boost in torque and power. You'll appreciate the immediate response as another Olds contribution to your pleasure and safety at the wheel!

\*277 h.p. Rocket T-400 Engine standard on all models.  
J-2 Rocket Engine, with 300 h.p., and special Rocket Engine, with up to 312 h.p., optional at extra cost.
