Brady's BLARNEY

By A Brady Called J. P.

A teacher handed me this the other day:

"Otto teachers have been bounced up and down on the rough Georgia road so much lately, one teacher lost a filling and two had springs jarred out of their watches."

Appears the ELK'S have taken over the spanking new building on Franklin's Main drag.

It became obvious Friday afternoon when the perpendicular sign was partially installed on the building's front.

And by Monday they still hadn't

sons indebted to said estate will please make immediate settlement. This 2 day of January, 1957.

Airman 2-c Joseph B. Moses, who is currently on a two and a half year hitch in England with the Strategic Air Command, was in on a "history-making event recently."

His base was host to the first B-52 Strato-Fortress to land in England.

In a letter he relates that the big eight-jet plane made a non-stop flight from its home base in California and returned in a few days.

Airman Moses is the son of Mr. and Mrs. L. T. Moses, of the Cullasaja Community.

He P.S.'ed his letter with a touch of something that makes us here bend our shoulders to the wheel:

"I still enjoy The Franklin Press very much and think 'you all' do a marvelous job."

I say, old chap, that's bloody well kind of you to say that!

jpb

Have you heard about the fellow who had a brick from the courthouse chimney fall on the hood of his car during a slight wind storm?

His friends suggested that he collect damages from the county.

"Don't know how I could expect to get anything from some-

one who can't even fix a chimney," he replied, driving off with a big dent in the hood of his car.

The Rev. Roy Bell, of Sylva, topped off the floor from the back seat while taking a nap.

"What happened, Junior?" he asked the child.

"I guess I was just too close to where I got in," came the answer.

Mr. Bell, a Methodist minister, also explained why he was wearing a colorful red sweater.

There's a trend toward clerical garb for ministers in his denomination now, and he revealed he was doing everything possible to combat it.

While on the subject of Boy Scouting, did you know that Macon County has one of the most active organizations in the entire western area?

The county setup offers Scouting to boys of all ages, another unusual thing for a county this size. A lad can start out as a Cub, graduate to a Boy Scout, and then into Exploring.

Of course, when something is a success it's usually traced back to the interest of a few individuals.

In the case of Scouting, Macon County owes more than just passing congratulations to a handful of adult leaders who are willing to take time off from their own busy schedules to work with boys. It takes a lot of time and energy to keep pace with a bunch of growing boys, as everyone knows, but the results obtained through Scouting are well worth it. Boy Scouting is a program everyone benefits from, either directly or indirectly.

There's a lot of life wrapped up in the oath the boys take:

On my honor, I will do my best, to do my duty, to God and my Country, and to obey the Scout Law. To keep myself physically strong, mentally awake, and morally straight.

The next time you meet any of these men on the street, why not stop and offer your thanks for the wonderful job they're doing with the boys of this county? The Rev. A. Rufus Morgan, the Rev. S. B. Moss, James G. Hauser, R. E. McKel-

vey, H. H. Gnuse, Jr., Dr. J. L. Hill, Jr., E. G. Crawford, Bill Garrison, William Harrison, Theron Blaine, Clayton Ramsey, and Jimmy Hall.

Pullets should be vaccinated for chicken pox with fowl pox vaccine between the ages of eight and 14 weeks, or when placed on the range, says T. B. Morris, extension poultry specialist at State College.

PARTY LINE
Boss: "Have you ever done any public speaking?"
Applicant: "Yes, I once proposed to a girl over a rural telephone line."

U. S. farmers, who now lose about 150 million dollars worth of property by fire each year, are taking out more fire insurance than ever before, report officials in the U. S. Department of Agriculture.
