GAS REFUNDS FOR FARMERS AVAILABLE

Regulations Listed;
Form Easy One, Says
Assistant Agent

By JOHN J. WRINN
Assistant County Agent

A number of Macon County farmers are entitled to claim refunds for federal excise tax on gasoline used for farming purposes.

The owner, tenant or operator who buys gasoline for use on a farm may claim a refund. The amount to be claimed is two cents on each gallon purchased after 1955 and before July 1, 1956 and three cents on each gallon purchased after July 1, 1956.

Use Internal Revenue Service Form 2240 for 1957. In case you do not have a copy, one may be secured from the county agent's office at the Agricultural Building in Franklin.

Send your claim for refund on Form 2240 to District Director of Internal Revenue, Greensboro, N. C. The claim should be filed between now and Sept. 30. You should keep adequate records to enable the Internal Revenue Service to verify the accuracy of the amount claimed.

You may not claim a refund for gasoline used by you in performing custom operations, on a farm of which you are not the owner, tenant, or operator.

Gasoline is not used for farming purposes and must not be included in a claim on Form 2240 if it is used (1) off the farm such as on the highway, even though the gasoline is used in transporting livestock, feed, crops, or equipment. (2) For personal use such as mowing the lawn and visits to neighbors. (3) In processing, packaging, freezing or canning operations.

Form 2240 is a card that is very simple to fill out. First print your name and address. Second list number of gallons bought between Jan. 1, 1956 and June 30, 1956 and used after July 1, 1956 and multiply by 2. Third list number of gallons bought after July 1, 1956 to June 30, 1957 and used before July 1, 1957 and multiply by 3.

Fourth, total the results of the two multiplications. Fifth, sign and indicate your title and the date.
