**Got A Do-It-Yourselfer  
In Family? Yes, Why Not  
Treat Him To Some Tools**

Gifts for "do-it-yourselfers" loom large on the Christmas scene, this year. More and more men are daily joining the ranks of amateur handymen, till it now seems as if "every family has one."

Manufacturers have kept pace with this burgeoning movement by improving old tools and developing new ones — all with a view to make do-it-yourself projects easier, quicker, safer, and a lot more fun.

Generally speaking, do-it-yourselfers come in three varieties:

(1) the man who is just getting started (2) the "mid-streamer" who has pretty well mastered the use of hand tools; (3) the "advanced" type who has graduated to power tools, and is still looking about for new fields to conquer.

Taking these different "varieties" in order, here are some practical gift suggestions.

**Suggestions**

First thing the beginner needs is a good set of basic hand tools. These include: (1) cross-cut saw;

(2) wood chisel; (3) wood file; (4) awl for marking lines on wood or metal; (5) putty knife; (6) snips for metal cutting; (7) keyhole saw; (8) auger bits; (9) C-clamp; (10) try square; (11) whetstone; (12) claw hammer; (13) level; (14) light and heavy screw drivers; (15) brace; (16) slip-joint pliers; (17) bench plane; (18) tape measure; (19) adjustable crescent wrench; (20) pipe wrench; (21) hatchet and (22) hack-saw.

Each member of the family may give one or more of the needed tools. Or all may get together on the complete set, in a handy metal chest or with a pegboard that designates a space for every tool.

For the "mid-streamer" who already has about everything he needs in the way of hand tools, the next step up calls for power tools to broaden the scope of his activities.

**Good Start**

A good start would be a portable electric drill kit including attachments for drilling holes, buffing, polishing, grinding, sanding, mixing paints, etc.

These kits make the handyman's work about the house a thousand times easier, because he can take them to the spot where he is working... even out to the garage to polish the family car.

Another popular item is the portable power saw. It comes in lightweight but sturdy models, especially designed for the small builder, handyman, and workshop hobbyist.

One of the most important developments in the do-it-yourself power-tool field is the multipurpose tool. Combining all basic operations into one unit, this tool can be used as a saw, disc-sander, lathe, vertical drill press and horizontal drill. It is especially practical where space is at premium and a compact working set-up is essential.

**Advanced Type**

Now we come to the "advanced type" of do-it-yourselfer, who already has what looks to you like a pretty complete line-up of power tools. He never has all the power tools he wants. As his skill increases, his horizons widen and his interest begins to soar in specialized professional-type power tools, such as lathe, radial saw, arbor saw, drill press, band saw, jointer, shaper, sander, and grinder.

To successfully gift the "advanced type do-it-yourselfer" it is necessary (1) to know what tools he already has, and (2) to learn what he needs and wants.

If you are in doubt about the matter, most any hardware, lumber or electric appliance dealer can help you make a wise selection, if you let him know what tools are on hand and the type of work toward which your do-it-yourselfer is trending.

**Tobacco Producers Requested To Return Marketing Cards**

Macon burley tobacco producers are requested to return tobacco marketing cards to the county A.S.C. office as soon as sales have been completed.

To date, not many books have returned, according to Miss Mildred Corbin, office manager.

She emphasized that the tobacco card is the property of the federal government and that failure to return a book could result in the reduction of the farm allotment for the coming year.

The average date for the last freeze in the spring is about April 7 and the first freeze in the fall comes about October 25.

**Christmas Cheer!**

May all your joys add up to a very merry Christmas.

To all our friends we extend our very best wishes for a happy Holiday.

**Mason's Grocery**

The old truths of the Christmas story bring new joy at this most blessed of holidays. May your heart rejoice... and may peace be with you always.

All property owners are required to return to the List Taker all the real estate, personal property, etc., owned by each on the first of January.

All male persons between the ages of 21 and 50 years are required by law to list their polls during January.

All persons who own property and fail to list it and who are liable for a poll tax and fail to give themselves in will be deemed guilty of a misdemeanor, subject to a fine or imprisonment upon conviction.

**FARM CENSUS NOTE**

Each farm owner shall prepare a list of the acreage of each crop grown, including tenths of acres of truck. The list should show the total acres cultivated by the owner, also the acres cultivated by all tenants on each separately recognized farm, the acres in improved pasture, woodland, idle and other lands. He shall be prepared to report the number of hogs sold or slaughtered during past 12 months and tons of fertilizer to be used during this crop year. This information is kept confidential and has no relation to taxes. Its purpose is for agricultural education, economic analysis and safer guidance of county agents and farmers generally.

**LAKE V. SHOPE, Tax Supervisor**

Christmas is a happy season of giving and receiving, of good times and good cheer. Here's wishing you all its pleasures.

Christmas is a holy season, a time to worship and rejoice. May its deepest spiritual meaning bring you peace and joy.
