Bits And Briefs From Cullasaja And Higdonville

Miss Marie Jennings Staff Correspondent

Church Items
Higdonville church had a picnic last Sunday at the home of Mr. and Mrs. Billy Higdon.

At Wednesday night prayer services at Higdonville church, the Bible is being studied under the leadership of the adults. They started with Genesis and study one or two chapters at each meeting. Major Higdon was in charge this week and discussed the 5th and 6th chapters of Genesis. After prayer meeting, a business meeting was held for the election of church officers and Sunday School teachers.

Community Will Meet
Higdonville Community Development Organization will hold its regular meeting tonight (Thursday) at 7:30 at the picnic area and will have a picnic supper. Come on out, folks, and bring a basket full of food.

Cullasaja community had a picnic and business meetings Monday night at the community picnic area.

The main feature was, of course, supper, but the men also accomplished some needed repairs on the water system and the gathering darkness made the group realize the need for a lighting system. Fred Rogers was appointed to see about getting the area lighted.

Mrs. C. T. Bryson was appointed chairman of a committee to plan a booth for the Macon County Fair. She named Mrs. Conrad Barrett, Mrs. Fred Rogers, Mrs. Leona Sadler, Mrs. Roy Stiventer, and Mrs. Elma Russell for the committee.

John Bryson, president, reported that the community has put up nine sections of stove pipe, replaced all broken and missing panes, and painted the vestibule of the Salem Methodist Church. The group voted to buy enough paint to complete the job. Saturday, July 19, was set for a working at the church.

Those volunteering for keeping the picnic area clean during July were Fred Rogers and Roy Stiventer, first week; Pritchard Russell, second week; Pat Cable, third week; and John Bryson, fourth week.

Home improvements reported were: Mrs. Pritchard Russell has a new electric sewing machine; Mrs. A. C. Moore, a new electric sewing machine; Mr. and Mrs. Ed Jennings have built a new utility room; Frank Blanton has purchased an irrigation system; and

the Cullasaja Assembly of God parsonage has a new water heater, bath tub and shower, and added a bedroom and tiled the floor.

Saturday, July 5, was set for a working at the picnic area. All the men are urged to meet there Saturday afternoon with tools for mowing and for digging a garbage pit.

About 40 were present and David Hughes' name was drawn for the door prize of \$1, which he donated back to the community.

Birthday Party

Mrs. Dewitt Thompson entertained her daughter, Annette, with a party Saturday, June 29, celebrating her eighth birthday.

Those attending were Melba Bryson, Richie Beale, Brenda and Tommy Bridgeman, Margaret Bailey, Glen Estes, Milton and Sharon Estes, Janice and Carol Thompson, David Lee and Sharon Thompson, Shirley and Sammy Frady, Wanda Bailey, and Doris Bailey. Special guests were Annette's grandmother, Mrs. W. H. Thompson, of Cashiers, and her uncle and aunt, Mr. and Mrs. Bobby Thompson, of Atlanta, Ga.

Mrs. Thompson served birthday cake, ice cream and lemonade, and games were played.

Personals
Mr. and Mrs. Howard Moore and children, of Gastonia, are visiting Mrs. Moore's parents, Mr. and Mrs. Bill Higdon, of Higdonville community, and Mr. Moore's parents, Mr. and Mrs. Jack Moore, of Bethel community.

Mr. and Mrs. Virgil Crisp and sons, Donny and David, arrived last Friday from Peoria, Ill., for several weeks' visit with his parents, Mr. and Mrs. Fred Crisp. Saturday they took Mrs. Fred Crisp to Candler to visit her sister and brother-in-law, Mr. and Mrs. Furman Reed.

Mr. and Mrs. Jim Davis, of Trenton, N. J. and Mr. and Mrs. Bob Drach, of Aberdeen, Md., spent a week's vacation with Mr. and Mrs. Vernon recently. While here they visited other relatives in the J. L. Clark family and toured this area, accompanied by the Brysons. They went to Fontana Dam, Wayah Bald, Rainwater Estates and other points of interest in Highlands, and saw the drama "Unto These Hills" at Cherokee. The Clark family gave a farewell supper party for the Davises and Draches last Thursday night at the Cullasaja community picnic ground, with 31 present.

Mr. and Mrs. Clyde Earley and son, Claude, of Marion, spent last week-end with Mrs. Earley's mother, Mrs. J. L. Clark.

Mr. and Mrs. Fred Reschke and two sons, of Miami, Fla., are visiting her mother, Mrs. J. L. Clark, and his parents, Dr. and Mrs. Reschke, of Highlands.

Mrs. Vernon Bryson and son, Turner, and Bob Estes were in Toccoa, Ga., Saturday on business.

Mrs. George Bateman, Jr., and son, Robby, of Chicago, visited Mrs. A. C. Moore one day last week. Mrs. Bateman is a native of Alberta, Canada, and Mr. and Mrs. Moore acted as her legal guardians in order that she might enter this country. Mr. and Mrs. Bateman and Robby will go to Australia soon, where Mr. Bateman will be employed.

Gordon Gibson and Sammy Bryson went to Weaverville Sunday to the auto races.

Artificially Bred Cows Are On The Increase

(Editor's Note: Macon County, through an association of local farmers, maintains an artificial breeding program. Bill Higdon is the technician.)

The number of dairy cows bred artificially from sires that have demonstrated superior breeding qualities keeps rising each year. Now more than a fourth of U. S. Dairy cows are bred artificially.

A round-up report shows that more than six million U. S. dairy cows were bred artificially in 1957. In North Carolina, 60,360 cows were bred artificially last year, or 16 per cent of the state total.

In numbers, Wisconsin was the leading State with more than a million artificially bred cows. Minnesota followed with more than half a million, and then New York and Pennsylvania with a little less than half a million each.

Percentage-wise, states with far fewer dairy cows made an even better showing. Maine ranked first, then Utah and Massachusetts. Nearly 50 per cent of the cows bred in these states during 1957 were bred artificially.

Sires used for artificial breeding are proved on the basis of their ability to pass along to their daughters a capacity for high milk production. The proved sires used in artificial studs in 1956 were mated to dams averaging 10,626 pounds of milk. Their daughters averaged 11,394 pounds of milk.

The average American eats about 30 pints of ice cream annually.

ENDS TRAINING

James S. Munger, seaman apprentice, son of Mr. and Mrs. W. J. Munger, of Highlands, has completed 13 weeks of basic training at the U. S. Coast Guard Receiving Center at Cape May, N. J. He has now reported for advance seamanship training aboard the U. S. Coast Guard cutter UNIMAK and at the training station at Groton, Conn. Prior to entering the

Coast Guard under the six-month reserve program, he attended Highlands High School.
