A BIG SLICE OF YOUR DOLLAR

goes to make some community more prosperous
yours . . . or the other fellow's

An average of more than 30% of the dollar you spend stays in the town where it's spent . . . to support schools, furnish fire and police protection, put down paving . . . to pay the folks who work for you . . . to support churches and charities . . . to be invested in more kinds of merchandise for your selection and convenience . . . to improve service facilities . . . and to support all of the other things that promote prosperity, growth and better living in a community.

Make your dollars build your community . . . not somebody else's
